# slopehill QN8010CE High-Speed Hair Dryer

## Instruction Manual

### IMPORTANT SAFETY INSTRUCTIONS

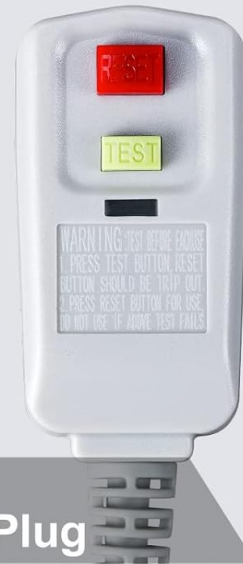

When using electrical appliances, especially when children are present, basic safety precautions should always be followed, including the following:

- **DANGER:** Keep out of reach of children.
- **DANGER:** Do not use while bathing.
- **DANGER:** Avoid contact with water.
- Always unplug the appliance immediately after using.
- Do not place or store appliance where it can fall or be pulled into a tub or sink.
- Do not place in or drop into water or other liquid.
- If an appliance falls into water, unplug it immediately. Do not reach into the water.

This appliance is equipped with an Appliance Leakage Circuit Interrupter (ALCI) safety plug. This device provides protection against electric shock. Test the ALCI plug before each use by pressing the 'TEST' button. If the ALCI trips, press 'RESET' to restore power. If the ALCI fails to reset, discontinue use.

**Magnetic Attachment**

**ALCI Safety Plug**

**2.5m Power Cord/ 8.2ft**

**Perfect Size for Carry**

## PRODUCT OVERVIEW

The slopehill QN8010CE High-Speed Hair Dryer is designed for efficient and gentle hair drying, featuring advanced technology for professional results.

### Key Features:

- **Enhanced 2000W High-Speed Brushless Motor:** Delivers powerful airflow for fast drying with a motor speed of 110,000 RPM.
- **Lightweight Design:** Weighs approximately 320g, reducing arm fatigue during use.
- **Low Noise Level:** Operates at  $\leq 75$  dB for a quieter drying experience.
- **30 Million High-Concentration Negative Ions:** Released to form a moisture protective layer on the hair, effectively fixing moisture and reducing frizz caused by static electricity.
- **Intelligent Temperature Control & Overheat Protection:** Monitors temperature to prevent heat damage. A blue light flashes and the wind stops automatically if the temperature is too high.
- **Automatic Cleaning Technology:** Simplifies maintenance by blowing out dust from the filter.
- **Magnetic Attachments:** Includes a diffuser and two concentrator nozzles for versatile styling.
- **Long Power Cord:** Features a 2.5m (8.2ft) cord for extended reach.

### Over Heat Protection and Intelligent Temperature Control

When the temperature is too high, the blue light will flash and the wind will stop automatically.

Image: Diagram illustrating the Over Heat Protection and Intelligent Temperature Control system.

## SETUP

### Attaching Nozzles:

1. Select the desired magnetic attachment (diffuser, smoothing nozzle, or concentrator nozzle).
2. Align the attachment with the front of the hair dryer. The magnetic connection will securely snap it into

place.

3. The concentrator and smoothing nozzles can be rotated 360° to direct airflow as needed.

## OPERATING INSTRUCTIONS

### Controls:

Image: Diagram showing the location of the wind speed control, temperature control, and on/off buttons.

1. **Power On/Off:** Press the power button (bottom button) to turn the hair dryer on or off.

2. **Adjusting Wind Speed:** Press the wind speed button (top button with fan icon) to cycle through 3 wind speeds: Gentle, Medium, Strong. Corresponding LED indicators will light up.
3. **Adjusting Temperature:** Press the temperature button (middle button with thermometer icon) to cycle through 3 heat settings: Low Heat (65°C), Medium Heat (82°C), High Heat (95°C). Corresponding LED indicators will light up.
4. **Cold Wind Function:** To activate cold wind, long-press the temperature button for 2 seconds. All temperature LEDs will turn off, indicating cold air. Long-press again for 2 seconds to return to heat mode.

### Usage Examples:

Image: A man using a concentrator nozzle for precise styling.

Image: A woman using the diffuser attachment to enhance curls.

## MAINTENANCE

### Automatic Cleaning:

The hair dryer features an automatic cleaning function to help maintain optimal performance and extend its lifespan.

1. Ensure the hair dryer is in standby mode (powered off but still plugged in).
2. Long-press the wind speed button (top button with fan icon) for 3 seconds.
3. The hair dryer will activate a reverse airflow cycle for 7-8 seconds to dislodge dust and debris from the filter, then turn off automatically.

### Removable Micro Filter:

For thorough cleaning, the micro filter is removable.

1. Gently twist the rear filter cap counter-clockwise to remove it.
2. Carefully remove any accumulated hair or dust from the filter mesh.
3. Reattach the filter cap by twisting it clockwise until secure.

## TROUBLESHOOTING

- **No Power:** Ensure the ALCI plug is reset and the power cord is securely plugged into a working outlet. Check for tripped circuit breakers.
- **No Heat / Only Cold Air:** If the temperature LEDs are off, long-press the temperature button for 2 seconds to switch back to heat mode. If the issue persists, the overheat protection might have activated; allow the device to cool down.
- **Weak Airflow:** Check the rear micro filter for blockages (hair, dust). Clean the filter using the automatic cleaning function or by manually removing and cleaning it.
- **Unusual Noise/Smell:** Immediately turn off and unplug the device. Do not use it until inspected by a qualified technician.

## SPECIFICATIONS

Feature	Specification
Model Number	QN8010CE
Power Source	Corded Electric
Wattage	2000 watts
Motor Speed	110,000 RPM
Negative Ions	30 Million
Number of Speeds	3
Number of Settings	5 (3 Heat, 1 Cold, 1 Off)
Product Dimensions	8.6 x 7.75 x 1.8 inches
Item Weight	2.76 Pounds (approx. 1.25 kg)
Cord Length	2.5 meters (8.2 feet)
Material Type	Ceramic
Included Components	Diffuser, 2 Nozzles (Concentrator, Smoothing)
