Xtorm CXX004

Xtorm Xtreme USB to USB-C Cable (1.5m, CXX004) User Manual

1. Introduction

This manual provides essential information for the proper use and care of your Xtorm Xtreme USB to USB-C Cable. Designed for durability and efficient performance, this 1.5-meter cable facilitates fast charging and reliable data transfer between compatible USB-C and USB devices.

Key Features:

- **Durability:** Engineered to withstand extensive daily use, featuring protection against bending, kinking, and general wear.
- Fast Data Transfer & Charging: Supports high transfer rates and efficient power delivery for quick device charging.
- Reliable Connectivity: Ensures a stable and secure connection for uninterrupted data and power flow.
- Optimal Length: A 1.5-meter length provides flexibility and convenience for various usage scenarios.
- **XFLEX Technology:** Combines a specially designed connector with braided nylon and a reinforced core for extreme strength and flexibility, tested to withstand over 100,000 bends and up to 100kg tensile force.

Image: An illustration demonstrating the cable's ability to withstand over 100,000 bends at the connector point.

2. PACKAGE CONTENTS

The package contains:

- 1x Xtorm Xtreme USB to USB-C Cable (1.5m)
- 1x Integrated Cable Tie

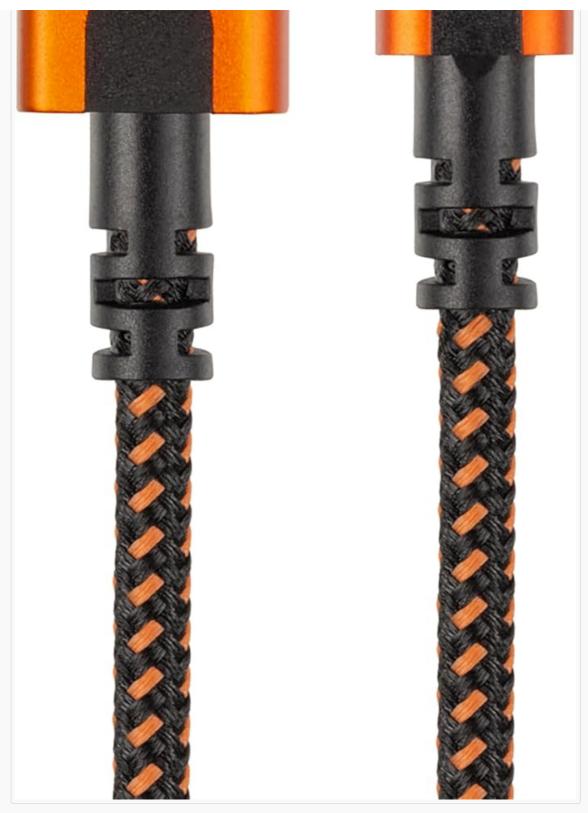

Image: The Xtorm Xtreme USB to USB-C Cable, showcasing its braided design and durable orange connectors.

3. SETUP

The Xtorm Xtreme USB to USB-C Cable is designed for plug-and-play functionality. No special software or drivers are required for basic operation.

- 1. **Identify Connectors:** Locate the standard USB-A connector and the USB-C connector on the cable.
- 2. **Connect to Power Source or Computer:** Insert the standard USB-A end of the cable into a compatible USB-A port on a power adapter, power bank, or computer.
- 3. Connect to Device: Insert the USB-C end of the cable into the USB-C port of your smartphone, tablet, laptop,

or other compatible device.

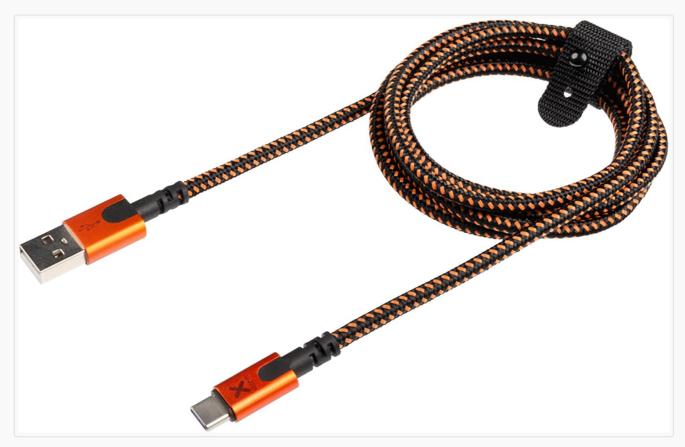

Image: The Xtorm Xtreme USB to USB-C Cable laid out, clearly showing both the USB-A and USB-C connectors for easy identification.

4. OPERATING INSTRUCTIONS

Once connected, the cable will automatically facilitate charging or data transfer, depending on the capabilities of the connected devices.

- For Charging: Ensure the USB-A end is connected to a powered USB-A port (e.g., wall charger, power bank). The device connected via USB-C will begin charging.
- For Data Transfer: Connect the USB-A end to a computer's USB-A port and the USB-C end to your device. Your computer should recognize the connected device, allowing you to transfer files. Follow your device's instructions for enabling data transfer mode if prompted.

5. MAINTENANCE AND CARE

To ensure the longevity and optimal performance of your Xtorm Xtreme cable, follow these maintenance guidelines:

- **Avoid Extreme Bending:** While the cable is designed for flexibility, avoid sharp or excessive bends at the connector points to prevent internal damage.
- Clean Connectors: Periodically inspect and gently clean the metal connectors with a dry, soft cloth to remove
 dust or debris that could interfere with connectivity.
- **Proper Storage:** Use the integrated cable tie to coil the cable neatly when not in use. Store it in a dry, cool place away from direct sunlight and extreme temperatures.
- Handle with Care: Always pull from the connector housing, not the cable itself, when disconnecting from devices or power sources.

6. TROUBLESHOOTING

If you encounter issues with your Xtorm Xtreme cable, consider the following troubleshooting steps:

• Device Not Charging:

- Ensure both ends of the cable are securely connected.
- Try a different power adapter or USB port.
- Test the cable with another device to rule out a device-specific issue.

• Data Transfer Issues:

- Verify the cable is connected to a computer's data-enabled USB port.
- Check your device settings to ensure data transfer mode is enabled (e.g., "File Transfer" or "MTP").
- Restart both the computer and the connected device.

• Intermittent Connection:

- Inspect connectors for any visible damage or debris.
- Ensure the cable is not under strain or excessive tension during use.

7. SPECIFICATIONS

Feature	Detail
Brand	Xtorm
Model Name	CXX004
Connector Type	USB Type A, USB Type C
Cable Type	USB
Cable Length	1.5 meters
Compatible Devices	Personal Computer, Samsung, Google, OnePlus (etc.)
Recommended Uses	Charging, Data Transfer

Color	Orange (braiding is black and orange, connectors are orange)
Item Weight	21 Grams (0.741 ounces)
Product Dimensions	3.94 x 4.72 x 0.79 inches (packaging)
Durability Test (Bend)	100,000+ bends
Durability Test (Pull)	Up to 100kg tensile force

8. WARRANTY INFORMATION

Xtorm Xtreme cables are built to last and come with alifetime warranty. This warranty covers manufacturing defects and ensures the cable performs as intended under normal use. For specific terms and conditions, please refer to the official Xtorm website or contact customer support.

9. SUPPORT

For further assistance, technical support, or warranty claims, please visit the official Xtorm website or contact their customer service department. Contact details can typically be found on the product packaging or the Xtorm website.
