

HOTWEEMS D-09

HOTWEEMS D-09 Wireless Mouse

INSTRUCTION MANUAL

Introduction

Thank you for choosing the HOTWEEMS D-09 Wireless Mouse. This ergonomic, high-precision mouse is designed for comfort and efficiency, offering seamless wireless connectivity for various devices. This manual provides detailed instructions to help you set up, operate, and maintain your D-09 mouse for optimal performance.

Key Features

- **Ergonomic Design:** Advanced ergonomic shape with a 30-degree handshake angle, contoured grips, and a premium matte finish for reduced muscle strain and total comfort. Includes new added forward and backward buttons for efficient browsing and file processing.
- **Fast Wireless Transmission:** Utilizes 2.4G wireless technology for a stable connection up to 33 feet (10 meters), minimizing interference and delays.
- **Adjustable DPI:** Features a high-precision sensor with 5 adjustable DPI levels (800/1200/1600/2000/2400 DPI) to reduce hand movement and enhance workflow.
- **Extended Battery Life:** Operates on a single AA battery for up to 18 months. Features an 8-minute auto-sleep mode to conserve power, waking instantly with any button click.
- **Durable and Compatible:** Built for durability with a 50 million click lifespan. Portable design suitable for travel. Compatible with Windows laptops, MacBooks, Chromebooks, and any device with USB ports. Note: Side buttons are not available for Mac OS.

What's in the Box

Your HOTWEEMS D-09 Wireless Mouse package includes:

- 1 x HOTWEEMS D-09 Wireless Mouse
- 1 x USB Receiver (stored inside the mouse)

Note: 1 AA battery is required and not included in the package.

Setup Guide

1. **Insert Battery:** Open the battery compartment on the underside of the mouse. Insert one (1) AA battery, ensuring correct polarity (+/-). Close the compartment cover securely.

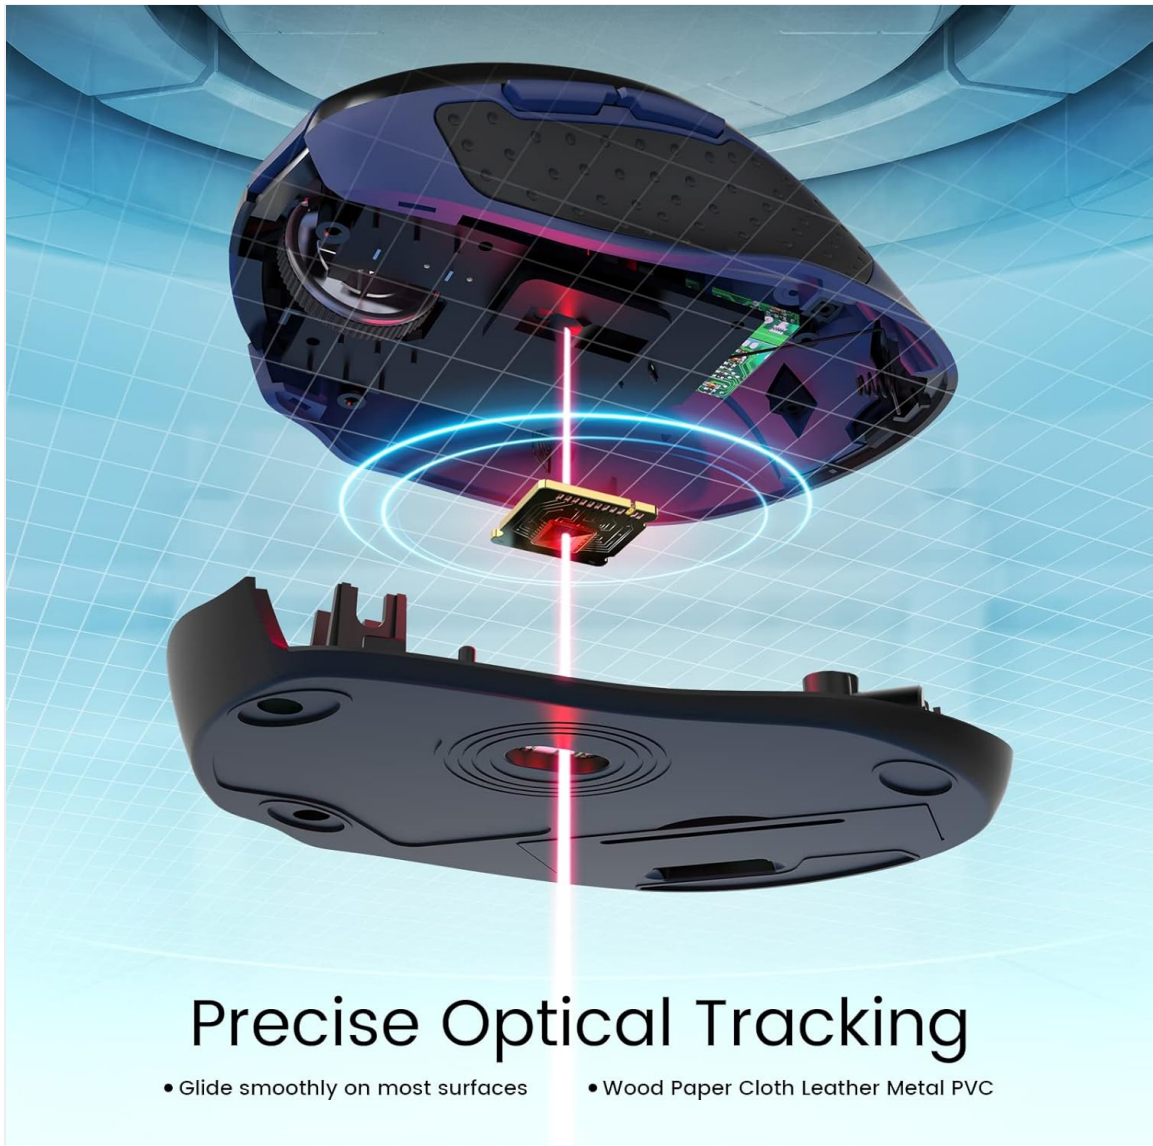

Image: Underside of the D-09 wireless mouse with the battery compartment open, showing where to insert the AA battery and the storage slot for the USB receiver.

2. **Locate USB Receiver:** The mini USB receiver is conveniently stored in a small slot beside the battery compartment on the back of the mouse. Gently pull it out.

3. **Connect to Device:** Plug the USB receiver into an available USB-A port on your computer (laptop, PC, Chromebook, etc.).

3X Less Hand Movement

2400 DPI high precision sensor, reduce muscle fatigue & boost workflow

Image: The D-09 wireless mouse is depicted in a working setup with a laptop, emphasizing the plug-and-play functionality and the small size of the USB receiver.

4. **Automatic Connection:** The mouse will automatically connect to your device. No drivers are typically required for most operating systems.

Operating Instructions

- **Basic Functions:** The mouse features standard left-click, right-click, and a scroll wheel for navigation.
- **DPI Adjustment:** Press the 'CPI' button located behind the scroll wheel to cycle through the 5 DPI settings (800/1200/1600/2000/2400 DPI). The button will flash to indicate the current DPI level (e.g., 1 blink for 800 DPI, 2 blinks for 1200 DPI, etc.).

Tiny USB Receiver

Plug & Play

2.4G Wireless Tech

33FT Transmission, Less Delay

Just plug the receiver & your D-09 works instantly

Image: A hand is shown operating the D-09 mouse, highlighting the central DPI button and the various sensitivity levels (800-2400 DPI) that can be selected for precise control.

- **Side Buttons:** The mouse includes dedicated forward and backward buttons on the side for convenient web browsing and file navigation. Please note that these side buttons are not available for Mac OS.
- **Auto-Sleep Feature:** To conserve battery life, the D-09 mouse will enter sleep mode after 8 minutes of inactivity. To wake the mouse, simply click any button.

Image: This detailed diagram labels the key parts of the D-09 mouse, including the left and right buttons, scroll wheel, forward and back buttons, DPI switch, and the location of the USB receiver and battery compartment.

Maintenance

- **Cleaning:** Use a soft, dry cloth to clean the mouse. For stubborn dirt, a slightly damp cloth can be used, but ensure no moisture enters the internal components.
- **Battery Replacement:** When the mouse performance degrades or it stops responding, it's time to replace the AA battery. Follow the steps in the 'Setup Guide' to open the battery compartment and insert a new battery.
- **Storing the USB Receiver:** When not in use or during travel, always store the USB receiver in its dedicated slot inside the mouse's battery compartment to prevent loss.

Troubleshooting

- **Mouse Not Responding:**
 - Ensure the USB receiver is securely plugged into a working USB-A port on your computer.
 - Check the battery. Replace it if necessary.
 - The mouse may be in auto-sleep mode. Click any button to wake it up.

- Try plugging the USB receiver into a different USB port on your computer.
- **Compatibility Issues:**
 - **MacBook Pro/Air 2021:** This mouse requires a USB-A port. Newer MacBook Pro/Air models typically only have Thunderbolt (USB-C) ports. You may need a USB-C to USB-A adapter.
 - **Chromebook/Acer/Lenovo Thinkpad:** The mouse is fully compatible with these devices, provided they have a USB-A port.
 - **Side Buttons on Mac OS:** The forward and backward side buttons are not functional on Mac OS. This is a system limitation.
- **Scrolling Issues:**
 - If scrolling is erratic or jumps, you can adjust the scroll settings in your operating system. For Windows, go to 'Mouse settings' and change the 'number of lines to scroll at a time'.
 - You can also click the scroll wheel (middle button) to activate smooth scrolling mode, then move the mouse slightly up or down to scroll.
- **Not a Bluetooth Mouse:** The D-09 is a 2.4GHz wireless mouse and requires its dedicated USB receiver. It does not connect via Bluetooth.
- **Audible Clicks:** The left and right mouse buttons have an audible click. Other buttons may have a slight click. This is normal operation.
- **No Unifying Receiver:** Each D-09 mouse is paired with its specific USB receiver to prevent interference. A single unifying receiver for multiple devices is not supported.

Specifications

Feature	Detail
Product Dimensions	4.2 x 2.8 x 1.6 inches (10.7 x 7.1 x 4.1 cm)
Item Weight	3.2 ounces (90.7 grams)
Model Number	SPWD-B09KBK6ZGZ
Brand	HOTWEEMS
Color	Sapphire Blue
Connectivity Technology	USB (2.4G Wireless with USB Receiver)
Movement Detection Technology	Optical
DPI Levels	800/1200/1600/2000/2400
Battery Type	1 x AA Battery (not included)
Battery Life	Up to 18 months (with auto-sleep)
Click Lifespan	50 Million Clicks
