# Laresar L6 Pro Robot Vacuum Cleaner Side Brush

## INSTRUCTION MANUAL

Model: L6 Pro

## 1. INTRODUCTION

This manual provides essential instructions for the installation, operation, and maintenance of the Laresar L6 Pro Robot Vacuum Cleaner Side Brush. Proper care and timely replacement of the side brush are crucial for maintaining the optimal cleaning performance of your Laresar L6 Pro robot vacuum cleaner.

## 2. PRODUCT OVERVIEW

The side brush is a critical component of the Laresar L6 Pro robot vacuum cleaner, designed to sweep debris from edges, corners, and hard-to-reach areas directly into the path of the main brush and suction inlet. This ensures thorough cleaning across various floor types.

Figure 1: The Laresar L6 Pro Robot Vacuum Cleaner. The side brushes are located on the underside, designed to sweep debris from edges and corners.

### 3. INSTALLATION INSTRUCTIONS

---

Follow these steps to properly install or replace the side brush on your Laresar L6 Pro robot vacuum cleaner:

- 1. Power Off:** Ensure the robot vacuum cleaner is powered off and disconnected from its charging base before proceeding.
- 2. Invert Robot:** Carefully turn the robot vacuum cleaner upside down on a soft, clean surface to access its underside.
- 3. Locate Side Brush:** Identify the side brush(es) on the underside of the robot. There are typically one or two side brushes, depending on the model variant.
- 4. Remove Old Brush:** If replacing an old brush, use a screwdriver (if applicable) to unscrew the retaining screw in the center of the brush. Gently pull the old brush upwards to remove it.
- 5. Install New Brush:** Align the new side brush with the corresponding post on the robot's underside. Ensure the bristles are facing outwards and the brush is seated correctly.
- 6. Secure Brush:** If a screw was removed, reinsert and tighten it to secure the new brush in place. Do not overtighten.
- 7. Return to Position:** Carefully turn the robot vacuum cleaner right-side up.

### 4. OPERATION AND FUNCTION

---

Once installed, the side brush operates automatically whenever the Laresar L6 Pro robot vacuum cleaner is in a cleaning cycle. It rotates to sweep dust, dirt, and debris from walls, furniture edges, and corners into the main cleaning path, enhancing the overall cleaning efficiency of the robot.

### 5. MAINTENANCE AND CARE

---

Regular maintenance of the side brush ensures consistent cleaning performance and extends its lifespan:

- **Regular Inspection:** Periodically inspect the side brush for tangled hair, threads, or other debris.
- **Cleaning:** Use scissors or a cleaning tool (often provided with the vacuum) to carefully cut and remove any tangled hair or debris from the bristles and the brush base.
- **Check for Wear:** Examine the bristles for signs of wear, bending, or damage. Worn bristles will reduce cleaning effectiveness.
- **Replacement Frequency:** It is recommended to replace the side brush every 3-6 months, or more frequently depending on usage and pet hair presence, to maintain optimal cleaning performance.

## 6. TROUBLESHOOTING COMMON ISSUES

---

If you encounter issues with your side brush, consider the following:

- **Brush Not Spinning:**
  - Check for obstructions (hair, debris) preventing rotation. Clean thoroughly.
  - Ensure the brush is correctly installed and the retaining screw (if applicable) is tightened.
  - Inspect for damage to the brush or its motor mechanism. If damaged, replacement may be necessary.
- **Reduced Cleaning Performance:**
  - The side brush bristles may be worn or bent. Replace the brush if bristles are no longer effective.
  - Ensure the main brush and filters are also clean and in good condition, as they contribute to overall cleaning.

## 7. PRODUCT SPECIFICATIONS

---

Feature	Detail
Product Name	Laresar L6 Pro Side Brush
Compatibility	Laresar L6 Pro Robot Vacuum Cleaner
Material	Durable plastic and nylon bristles
Approximate Dimensions	5.98 x 5.79 x 0.98 inches (Package Dimensions)
Approximate Item Weight	0.317 ounces

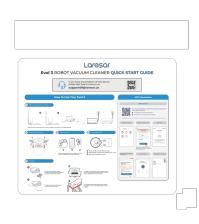

## 8. WARRANTY AND CUSTOMER SUPPORT

---

For information regarding product warranty, returns, or technical support, please refer to the official Laresar website or contact their customer service directly. Keep your purchase receipt as proof of purchase for any warranty claims.
