# iHome Magnetic Power Station Instruction Manual

Model: 2IHQI0966W0L2 | Brand: iHome

### INTRODUCTION

This manual provides essential information for the safe and efficient operation of your iHome Magnetic Power Station. Please read these instructions thoroughly before using the device and retain them for future reference.

Image: The iHome Magnetic Power Station, a compact device designed to charge multiple Apple devices simultaneously. It features a magnetic stand for an iPhone, a flat charging pad for AirPods, and a color-changing LED lamp.

## KEY FEATURES

- **Magnetic Wireless Charging Stand:** Provides up to 7.5W wireless charging for compatible iPhones (iPhone 12/13 series) with perfect magnetic alignment.
- **5W Wireless Charging Pad:** Designed for Qi-enabled devices, ideal for AirPods or other compatible accessories.
- **Color Changing LED Lamp:** Full-color RGBW LED lights with touch control for adjusting color and brightness.
- **Simultaneous Charging:** Charge up to two devices concurrently.
- **Built-in Safeguards:** Includes temperature control, overcurrent protection, and charging indicators for safe operation.
- **Compact Design:** Thoughtfully designed with a premium non-slip base.

# COLOR CHANGING MAGPOWER STATION

LED Lamp + Wireless Charging Station

## WHAT'S IN THE BOX

- iHome Magnetic Power Station with Color Changing LED Lamp
- USB-C Charging Cable
- User Manual (This document)

Note: A USB power adapter is required and sold separately.

## SETUP INSTRUCTIONS

1. **Connect Power:** Plug the provided USB-C charging cable into the USB-C port on the back of the iHome Magnetic Power Station. Connect the other end of the cable to a compatible USB power adapter (not included).

2. **Placement:** Place the power station on a stable, flat surface. Ensure there is adequate ventilation around the device.

## OPERATING INSTRUCTIONS

### Magnetic Wireless Charging (for iPhone 12/13 series)

1. Ensure the power station is connected to a power source.
2. Align your compatible iPhone (iPhone 12/13 series) with the magnetic charging stand. The built-in magnets will automatically align your device for optimal charging.
3. A charging indicator on your iPhone screen will confirm charging has begun.

Image: An iPhone is shown magnetically attached to the charging stand, illustrating the "Perfect Snap" feature for secure and efficient charging.

### 5W Wireless Charging Pad (for Qi-enabled devices)

1. Place your Qi-enabled device (e.g., AirPods, other compatible smartphones) on the flat charging pad located on the base of the power station.

2. Ensure the device is centered on the pad for proper charging.
3. A charging indicator on your device or the power station (if applicable) will confirm charging.

Image: The iHome Magnetic Power Station charging an iPhone on its magnetic stand and a pair of AirPods on the flat charging pad, demonstrating simultaneous charging.

## Color Changing LED Lamp

1. Locate the touch control area on the base of the power station, near the LED lamp.
2. Tap the touch control to cycle through various colors or activate the continuous color-changing mode.
3. Press and hold the touch control to adjust the brightness of the LED lamp.

Image: A hand is shown interacting with the touch control on the base of the power station to adjust the color and brightness of the integrated LED lamp.

## COMPATIBILITY

The iHome Magnetic Power Station is designed for optimal compatibility with the following devices:

- **7.5W Magnetic Charging Stand:** Compatible with iPhone 12 series and iPhone 13 series.
- **5W Wireless Charging Pad:** Engineered for all Qi-enabled devices, including AirPods with wireless charging cases.

### 7.5W Magnetic Charger Engineered for **iPhone® Series 12 and 13**

### 5W Wireless Charging Pad Engineered for **Qi™ Enabled Devices**

## SAFETY INFORMATION

Your iHome Magnetic Power Station includes a comprehensive suite of protections to ensure safety

during use:

- **Temperature Control:** Prevents overheating of the device and your charging items.
- **Overcurrent Protection:** Safeguards against excessive electrical current.
- **Charging Indicators:** Provides visual feedback on charging status.
- **Foreign Object Detection:** Do not place metal phone cases or other metal objects in the wireless charging area.

**WARNING: Do not place metal objects, credit cards, or other foreign objects between your device and the charging surface, as this may cause damage or interfere with charging.**

## TROUBLESHOOTING

- **Device not charging:**
  - Ensure the power station is properly connected to a working power outlet.
  - Verify that your device is correctly aligned on the magnetic stand or centered on the charging pad.
  - Remove any thick cases or metal objects from your device that might interfere with wireless charging.
  - Try a different USB power adapter (ensure it meets the recommended power output).
- **LED lamp not working:**
  - Check if the power station is connected to power.
  - Tap the touch control area to turn on or cycle through colors.
  - Press and hold the touch control to adjust brightness.
- **Slow charging:**
  - Ensure you are using a compatible power adapter with sufficient wattage.
  - Check for proper device alignment on the charging surface.

## SPECIFICATIONS

Model Number	2IHQI0966W0L2
Connectivity Technology	Wireless
Magnetic Charging Output	Up to 7.5W
Wireless Charging Pad Output	5W
Input Voltage	12 Volts (via USB-C)
Special Features	Wireless Charging, Adjustable, Magnetic, Color Changing LED Lamp

<b>Form Factor</b>	Tabletop Mount
<b>Color</b>	White
<b>Item Weight</b>	2.51 pounds
<b>Package Dimensions</b>	13.98 x 12.32 x 7.6 inches

## MAINTENANCE

---

- **Cleaning:** Use a soft, dry cloth to clean the surface of the power station. Do not use abrasive cleaners or solvents.
- **Storage:** Store the device in a cool, dry place when not in use.
- **Avoid Liquids:** Keep the power station away from water and other liquids.

## WARRANTY AND SUPPORT
