# Braun Series 9 Pro 9467cc Wet & Dry Shaver User Manual

Model: 9467cc | Brand: Braun

## INTRODUCTION

Thank you for choosing the Braun Series 9 Pro 9467cc Wet & Dry Shaver. This manual provides essential information for the safe and effective use, maintenance, and care of your new shaver. Please read all instructions carefully before using the appliance and retain this manual for future reference.

The Braun Series 9 Pro is engineered for an exceptionally close and gentle shave, even on dense beards. Its advanced features, including the ProLift trimmer and AutoSense technology, adapt to your beard's density for optimal performance. The included 5-in-1 SmartCare Center simplifies cleaning and maintenance, ensuring your shaver performs like new every day.

## SETUP

### Unpacking and Initial Inspection

Carefully unpack all components from the box. Ensure all items listed below are present and undamaged. If any parts are missing or damaged, contact Braun customer service.

# What's Included:

## Package Contents:

- Braun Series 9 Pro Shaver
- Leather Travel Case
- 5-in-1 SmartCare Center
- Cleaning Cartridge
- Cleaning Brush
- Smart Plug (with EU to US plug converter)

## Initial Charging

Before first use, fully charge your shaver. Connect the Smart Plug to the shaver or the SmartCare Center. A full charge takes approximately 1 hour and provides up to 60 minutes of cordless shaving. A 5-minute quick charge is sufficient for one shave.

## Setting up the SmartCare Center

The SmartCare Center provides automatic cleaning, lubrication, drying, and charging. To set it up:

1. Open the SmartCare Center housing.
2. Insert a Braun cleaning cartridge into the base until it clicks into place.
3. Close the housing.
4. Place the shaver head-down into the SmartCare Center. Ensure it is properly seated.
5. Connect the SmartCare Center to a power outlet using the provided Smart Plug.

The SmartCare Center will automatically detect the shaver and begin charging. Press the button on the SmartCare Center to initiate a cleaning program.

## OPERATING INSTRUCTIONS

### Basic Shaving

The Braun Series 9 Pro can be used for both dry and wet shaving. For best results, ensure your skin is clean and dry for dry shaving, or use with shaving foam/gel for wet shaving.

- **Power On/Off:** Press the power button to turn the shaver on or off.
- **Shaving Technique:** Hold the shaver at a right angle (90°) to your skin. Stretch your skin and shave against the direction of hair growth. Apply gentle, even pressure.
- **ProLift Trimmer:** The unique ProLift trimmer is designed to lift and cut tricky, flat-lying hairs, ensuring a thorough shave even on 1, 3, or 7-day beards.
- **AutoSense Technology:** The shaver automatically adjusts its power to your beard's density, providing an efficient and comfortable shave.

For optimal performance, shave before washing your face. The shaver head is flexible and adapts to your facial contours, ensuring maximum skin contact.

The shaver is 100% waterproof, allowing for easy rinsing under running water after use, or for use in the shower.

## MAINTENANCE AND CLEANING

### Using the SmartCare Center

The SmartCare Center automatically cleans, lubricates, dries, and charges your shaver, keeping it hygienic and performing optimally. Simply place the shaver head-down into the SmartCare Center after each use. The center will automatically select the appropriate cleaning program based on the shaver's cleanliness level.

**Replacing the Cleaning Cartridge:** A cleaning cartridge typically lasts for about 30 cleaning cycles. When the fluid level is low or the cleaning performance decreases, replace the cartridge. To replace, open the SmartCare Center housing, remove the old cartridge, and insert a new one until it clicks.

### Manual Cleaning

If you do not use the SmartCare Center, or for quick cleaning, you can clean the shaver manually:

- **Rinsing:** Turn on the shaver and rinse the shaver head under hot running water until all residue is removed. You can use liquid soap for a more thorough clean.
- **Drying:** After rinsing, turn off the shaver and remove the shaver head. Allow both the shaver head and the shaver body to air dry completely before reassembling.
- **Brush Cleaning:** Use the provided cleaning brush to remove stubborn hair particles from the shaver head and the inner parts of the shaver. Do not use the brush on the foil itself, as this can damage it.

Regular cleaning ensures consistent shaving performance and extends the lifespan of your shaver.

## TROUBLESHOOTING

If you encounter issues with your Braun Series 9 Pro shaver, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Shaver does not turn on.	Battery is depleted.	Charge the shaver for at least 5 minutes.
Poor shaving performance.	Shaver head is dirty or worn out.	Clean the shaver head thoroughly or replace it if it's older than 18 months.
SmartCare Center not cleaning.	Cleaning cartridge is empty or improperly inserted.	Replace the cleaning cartridge or ensure it is correctly seated.
Skin irritation after shaving.	Incorrect shaving technique or sensitive skin.	Ensure you are shaving against hair growth with gentle pressure. Consider using a pre-shave lotion or shaving foam for sensitive skin.

If the problem persists after attempting these solutions, please contact Braun customer support for further assistance.

## SPECIFICATIONS

Feature	Detail
Model Name	Series 9 Pro
Item Model Number	9467cc
Head Type	Foil
Blade Material	Stainless Steel
