Chefhandy 6902W

Chefhandy UV Sterilizer and Dryer Model 6902W User Manual

Brand: Chefhandy | Model: 6902W

1. Introduction and Overview

The Chefhandy UV Sterilizer and Dryer is designed to provide a fast and efficient method for sterilizing and drying various baby items, toys, and household objects. Utilizing advanced UV-C light technology, this device eliminates 99.9% of germs and bacteria without the need for water or chemicals. Its dual functionality as a sterilizer and dryer, combined with a spacious interior and intelligent storage mode, offers a convenient solution for maintaining hygiene.

2. Safety Information

- Read all instructions before using the appliance.
- Keep the appliance out of reach of children.
- Do not immerse the appliance in water or other liquids.
- Unplug the appliance from the power outlet when not in use or before cleaning.
- Avoid direct exposure to UV light. Do not look directly at the UV lamp when it is operating.
- Ensure the lid is securely closed during operation to prevent UV light leakage.
- Do not attempt to repair or modify the appliance yourself. Contact customer support for assistance.
- Use only on a stable, flat, heat-resistant surface.

3. Product Features

- **Fast Sterilization:** Achieves thorough sterilization in as little as 11 minutes, significantly faster than traditional steam methods.
- **Non-Cleaning Required:** The interior is constructed from 304 stainless steel, which is resistant to high temperatures and corrosion, eliminating the need for frequent descaling or cleaning.
- **2-in-1 Dryer & Sterilizer:** Combines sterilization and drying functions. The drying function operates at 167°F (75°C) to ensure items are ready for immediate use.
- **Super Large Capacity:** Approximately 2 gallons (7.5 liters) of capacity, capable of accommodating 6-8 standard baby bottles and pacifiers. Includes a built-in stainless steel hanging basket for organized disinfection.
- **72-Hour Cycle Storage:** In storage mode, the sterilizer maintains cleanliness by running a sterilization cycle every 2 hours for 2 minutes, followed by 20 seconds of air exchange, for up to 72 hours.
- **EPA Registered Device:** EPA Est. No.97442-CHN-1, ensuring compliance with environmental protection standards.

4. Package Contents

Please check the package contents upon unboxing:

- Chefhandy UV Sterilizer and Dryer Unit
- Stainless Steel Basket
- User Manual

5. Setup

1. **Unpack:** Carefully remove all components from the packaging. Retain packaging for future storage or transport.
2. **Placement:** Place the sterilizer on a stable, flat, and heat-resistant surface, away from water sources and direct sunlight. Ensure there is adequate ventilation around the unit.
3. **Initial Cleaning:** Wipe the exterior of the unit with a soft, damp cloth. The stainless steel interior does not require pre-cleaning.
4. **Power Connection:** Plug the power cord into a suitable electrical outlet. The unit will enter standby mode.

6. Operating Instructions

Controls Overview

Image: Close-up of the control panel showing the four function buttons.

AUTO: Initiates a combined sterilization and drying cycle. Available durations: 51 minutes or 61 minutes.

STERILIZE: Initiates a UV sterilization-only cycle. Available durations: 11 minutes, 16 minutes, or 21 minutes.

DRYER: Initiates a drying-only cycle. Available durations: 41 minutes or 51 minutes.

STORAGE: Activates a 72-hour storage mode, performing periodic sterilization and air exchange to keep items clean.

Loading Items

1. Open the lid of the sterilizer.
2. Place items such as baby bottles, pacifiers, small toys, or other objects into the stainless steel basket. Ensure items are arranged to allow UV light and hot air to circulate effectively. Do not overcrowd the unit.
3. Close the lid securely.

Image: Baby bottles and pacifiers placed inside the Chefhandy UV sterilizer for processing.

Starting a Cycle

1. With the unit plugged in and items loaded, press the desired function button (AUTO, STERILIZE, DRYER, or STORAGE).
2. If applicable, press the button again to cycle through the available time options for that mode. The selected time will be displayed.
3. The cycle will begin automatically after a few seconds.

After Cycle Completion

Once a cycle is complete, the unit will emit a buzzer sound six times and then enter standby mode. You can then safely open the lid and remove the sterilized and dried items.

7. Maintenance

Cleaning the Exterior

Wipe the exterior of the sterilizer with a soft, damp cloth. Do not use abrasive cleaners or solvents, as these can damage the surface.

Cleaning the Interior

The 304 stainless steel interior is designed to be resistant to corrosion and does not typically require extensive cleaning. If necessary, wipe with a soft, damp cloth. Do not use harsh chemicals or abrasive materials inside the unit.

UV Lamp

The UV lamp has a long lifespan. If replacement is ever needed, please contact Chefhandy customer support for guidance.

Storage

When not in use for an extended period, unplug the unit and store it in a cool, dry place, away from direct sunlight.

8. Troubleshooting

Problem	Possible Cause	Solution
Unit does not turn on.	Power cord not properly plugged in. No power from outlet.	Ensure the power cord is securely plugged into both the unit and a working electrical outlet. Test the outlet with another appliance.
Cycle does not start.	Lid not closed properly. Incorrect mode selection.	Ensure the lid is fully closed and latched. Re-select the desired operating mode and duration.
Items are not completely dry after a drying cycle.	Unit is overcrowded. Items were excessively wet. Insufficient drying time selected.	Reduce the number of items in the unit. Shake off excess water from items before placing them in the sterilizer. Select a longer drying cycle.
Unusual odor during operation.	New unit odor. Residue on items.	A slight odor is normal for new appliances during initial uses. Ensure items are clean before placing them in the sterilizer. The stainless steel interior does not produce odors.

9. Specifications

- **Model Number:** 6902W
- **Package Dimensions:** 13 x 12 x 12 inches
- **Item Weight:** 7.39 pounds
- **ASIN:** B09KNCR4ZB
- **Sterilization Method:** UV-C Light
- **Drying Temperature:** Approximately 167°F (75°C)
- **Interior Material:** 304 Stainless Steel
