OPERATING INSTRUCTIONS

The Homde 3-Tier Bamboo Laundry Basket is designed for versatile storage and organization:

MAINTENANCE

- **Cleaning the Bamboo Frame:** Wipe the bamboo frame with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners. Dry immediately to prevent moisture damage.
- **Cleaning the Baskets:** The fabric baskets can be spot cleaned with a mild detergent and water. Allow them to air dry

completely before placing them back into the frame. Do not machine wash or tumble dry.

- **Wheel Maintenance:** Periodically check the wheels for any lint or debris that might hinder smooth rolling. Clean as necessary.
- **Hardware Check:** Regularly inspect all screws and connections to ensure they remain tight. Retighten if any looseness is detected.

TROUBLESHOOTING

- **Difficulty during Assembly:** If you encounter issues during assembly, double-check the instruction diagrams. Ensure all parts are correctly oriented. Sometimes, having a second person assist can make the process easier. Do not force parts together.
- **Wobbly Frame:** Ensure all screws are fully tightened. If the frame still feels wobbly, disassemble and reassemble, paying close attention to the alignment of the bamboo pieces.
- **Wheels Not Rolling Smoothly:** Check for any hair, lint, or debris caught in the wheel mechanisms. Clean the wheels thoroughly. Ensure the brakes are disengaged if you intend to roll the unit.
- **Baskets Not Fitting:** Verify that the correct size basket is being placed in the corresponding tier (smaller baskets for upper tiers, larger for the bottom). Ensure the frame is assembled squarely.
