# Osprey Farpoint 40L Men's Travel Backpack Instruction Manual

Brand: Osprey | Model: Farpoint 40L (10003675)

## INTRODUCTION

---

The Osprey Farpoint 40L Men's Travel Backpack is engineered for globetrotters seeking a lightweight yet robust travel solution. This full-featured pack integrates advanced backpacking elements, such as fine-tunable torso adjustments, load-lifting LightWire frames, and breathable harnesses/hipbelts, with practical travel functionalities. Its internal organization is optimized for travel, featuring rugged compression straps to secure your belongings whether fully packed or lightly loaded. The Farpoint 40 is designed to meet most domestic carry-on requirements, making it an ideal all-in-one pack for streamlined journeys. It includes a quick-access zippered laptop/tablet sleeve for devices up to 16 inches and an external toiletry pocket for easy security checks. This pack is also compatible with the Farpoint/Fairview Travel Daypack for enhanced flexibility at your destination.

## KEY FEATURES

---

- **Lightweight & Durable:** Constructed with durable fabrics in high-wear areas and a smart design for a lightweight, tough travel pack.
- **Stowaway Harness & Hipbelt:** The harness system can be stowed away for protection during transit (e.g., checked luggage) and quickly deployed for carrying.
- **Quick Access Laptop/Tablet Sleeve:** Features a zippered sleeve for devices up to 16 inches.
- **External Zip Toiletry Pocket:** Convenient pocket for toiletries, facilitating airport security.

- **Adjustable Torso Fit:** Allows for a customized and comfortable fit.
- **Domestic Carry-On Size:** Designed to meet most domestic carry-on requirements.
- **Compatible with Farpoint/Fairview Daypack:** Can integrate with a separate daypack for additional capacity and flexibility.

## SETUP

---

### 1. Adjusting the Torso Fit

The Farpoint 40L features an adjustable torso fit to ensure optimal comfort and load distribution. To adjust, locate the hook-and-loop closure behind the shoulder straps. Detach the shoulder strap assembly and slide it up or down along the frame to match your torso length. Re-secure the hook-and-loop firmly.

### 2. Deploying/Stowing the Harness and Hipbelt

For backpack mode, ensure the shoulder straps and hipbelt are fully deployed. For duffel-style carry or when checking the bag, the harness and hipbelt can be stowed. Unzip the panel covering the back system and tuck the shoulder straps and hipbelt into the dedicated compartment. Zip the panel closed to protect the straps and create a streamlined profile.

# Stowaway Harness/ Hipbelt

Backpack suspension stows away for safekeeping while traveling and deploys quickly for any path or trail.

Figure 2: Demonstrating the stowaway harness and hipbelt for travel convenience.

### 3. Packing the Main Compartment

The main compartment features a clamshell opening, allowing it to open wide like a suitcase for easy packing. Utilize the internal compression straps to secure your clothes and prevent shifting during transit. The bright high-visibility lining inside makes it easier to locate smaller items.

Figure 3: The main compartment opened wide for easy access and packing.

#### **4. Attaching a Compatible Daypack (Sold Separately)**

If using a compatible Farpoint/Fairview Travel Daypack, attach it to the front of the main pack using the designated clips and straps. This expands your carrying capacity while keeping your gear consolidated.

# Daypack Compatible

Expand your carry  
and flexibility by  
adding the compatible  
Farpoint/Fairview™  
Travel Daypack.  
Sold separately.

## OPERATING THE BACKPACK

---

### 1. Carrying Modes

- **Backpack Mode:** With the harness and hipbelt deployed and adjusted, wear the pack on your back. Ensure the hipbelt is snug around your hips to transfer weight from your shoulders.
- **Duffel Mode:** Stow the harness and hipbelt. Use the padded top and side grab handles for easy carrying, similar to a duffel bag.

## 2. Using Compartments and Pockets

- **Main Compartment:** Access via the full-perimeter zipper. Use internal compression straps to stabilize contents.
- **Laptop/Tablet Sleeve:** Located for quick access, designed to protect devices up to 16 inches.
- **External Toiletry Pocket:** A zippered pocket on the exterior for items needed during security checks or quick access.
- **Dual Front Compression Straps:** Cinch these straps down to keep the bag slim and stable, even when nearly full.

### 3. Comfort and Airflow

The back panel is designed with breathable mesh (AirScape) to keep you cool and comfortable during extended wear. The padded shoulder straps and hipbelt further enhance comfort by distributing weight effectively.

## MAINTENANCE

---

To ensure the longevity of your Osprey Farpoint 40L, follow these maintenance guidelines:

- **Cleaning:** Hand wash with mild soap and cold water. Do not use bleach or harsh detergents. For spot cleaning, use a damp cloth.
- **Drying:** Air dry the backpack completely in a shaded, well-ventilated area. Do not tumble dry or expose to direct sunlight for prolonged periods, as this can damage the fabric.
- **Storage:** Store the backpack in a cool, dry place away from direct sunlight when not in use. Ensure it is completely dry before storing to prevent mildew.
- **Zippers:** Periodically clean zippers with a small brush and lubricate with a silicone-based spray to ensure smooth operation.

## TROUBLESHOOTING

---

- **Discomfort during wear:** Re-adjust the torso length and ensure the hipbelt is properly positioned to bear most of the load. Distribute contents evenly within the pack.
- **Zippers sticking:** Clean any debris from the zipper teeth and apply a small amount of zipper lubricant. Avoid forcing the zipper.
- **Bag feels bulky:** Utilize the internal and external compression straps to cinch down the load and create a more compact profile.

## SPECIFICATIONS

---

Feature	Detail
Product Dimensions	24 x 15 x 4 inches
Item Weight	3.49 pounds
Capacity Total	40 Liters
Item Model Number	10003675
