3. **Adjust Position:** Once mounted, you can gently adjust the angle of your phone if needed, ensuring it remains securely attached.

5. Maintenance

- **Cleaning:** If the suction cups lose their grip, they may have accumulated dust or debris. Gently wipe the suction cups with a damp cloth and allow them to air dry. Avoid using harsh chemicals or abrasive materials.
- **Storage:** Store the OCTOBUDDY in a clean, dry place when not in use to prevent dust accumulation on the suction cups.

6. Troubleshooting

- **Poor Suction:** Ensure the surface is completely clean, smooth, and non-porous. Wipe the suction cups clean with a damp cloth.
- **Adhesive Not Sticking to Phone:** Ensure the phone or case surface is clean and dry before applying the adhesive backing. Press firmly for several seconds to ensure a strong bond.
- **Leaves Marks on Surface:** Some users report faint circular marks on very smooth surfaces like glass or mirrors after prolonged use. These can typically be wiped away with a standard glass cleaner.
