FIGROL 188

FIGROL Light Up Fidget Spinner Instruction Manual

Model: 188

INTRODUCTION

Thank you for choosing the FIGROL Light Up Fidget Spinner. This manual provides essential information for the safe and effective use of your new fidget toy. Designed for stress reduction and sensory engagement, this product features LED lights for an enhanced experience.

PRODUCT FEATURES

- **Stress Reduction and Anxiety Relief:** Designed to help curb habits like nail biting and provide a quick distraction, serving as a stress reducer for individuals with ADHD, autism, and anxiety.
- **Safe and Sturdy Material:** Constructed from high-quality crystal ABS material with a premium steel bearing for smooth, quiet spinning. Durable and reusable.
- **LED Light Functionality:** Features three flashing modes that operate independently.
- **Portable Design:** Lightweight and compact, easily fits into pockets and handbags for convenient carrying.

SETUP

The FIGROL Light Up Fidget Spinner comes ready to use with included lithium metal batteries. No assembly is required.

Activating LED Lights:

1. Locate the small button on each wing of the fidget spinner.
2. Press the button on each wing once to enable the LED lights.
3. Press the button again to cycle through the different flashing modes.
4. To turn off the lights, press the button until the lights deactivate.

HOW TO USE

Image: Activating the LED lights on the fidget spinner by pressing the button on each wing.

OPERATING INSTRUCTIONS

How to Spin:

- Hold the center of the fidget spinner between your thumb and forefinger.
- Use your other hand or another finger to flick one of the wings, causing the spinner to rotate.
- For advanced users, the spinner can be operated with one hand by holding the center with one finger and flicking with another.

Changing Light Modes:

Each LED light on the spinner's wings operates independently. Press the button on each wing to cycle through three distinct flashing modes, creating various light patterns as the spinner rotates.

MAINTENANCE

- **Cleaning:** Wipe the fidget spinner with a dry cloth to remove dust or debris. Avoid using water or harsh chemicals.
- **Storage:** When not in use, turn off the LED lights to conserve battery life. Store the product in a dry place away from direct sunlight and extreme temperatures.
- **Battery Replacement:** The product uses Lithium Metal batteries. If the lights dim or stop working, the batteries may need replacement. Refer to the product packaging for specific battery type and replacement instructions.

TROUBLESHOOTING

| Problem | Possible Cause | Solution |
|---------------------------------|-------------------------------------------------|-----------------------------------------------------------------------------------------------------|
| LED lights do not turn on. | Batteries are depleted or not properly seated. | Press each button firmly. If lights still do not activate, consider replacing the batteries. |
| Spinner does not spin smoothly. | Debris in the bearing or damage to the spinner. | Ensure the spinner is clean and free of obstructions. Avoid dropping the spinner to prevent damage. |
| Lights are dim. | Low battery power. | Replace the batteries. |
