Lamshaw T42

Lamshaw 3D Full Coverage PET Soft Screen Protector Instruction Manual

For ANDFZ T42 1.72 and KASEEMI T42 Smartwatches

INTRODUCTION

This manual provides detailed instructions for the proper installation and care of your Lamshaw 3D Full Coverage PET Soft Screen Protector. This protector is specifically designed to safeguard the display of your ANDFZ T42 1.72 or KASEEMI T42 Smartwatch from scratches, drops, and daily wear, while maintaining touch sensitivity and visual clarity.

PACKAGE CONTENTS

Verify that all items are present in your package:

- 3 x 3D Screen Protectors
- 3 x Dry Wipes
- 3 x Wet Wipes
- 1 x Microfiber Cloth

3 Pack Screen Protector

Package Included: 3 x 3D screen protectors;
3 x dry and wet wipes;
1 x micro fiber cloth

INSTALLATION GUIDE

Follow these steps carefully for optimal installation. It is recommended to watch an installation video if available for visual guidance.

1. **Clean the Watch Screen:** Use the provided wet wipe to thoroughly clean the smartwatch screen. Follow with the dry wipe to remove any moisture or residue. Ensure the screen is completely dry and dust-free.
2. **Remove Protective Film:** Gently pull the tab to remove the protective film from the adhesive side of the screen protector. Avoid touching the adhesive surface to prevent fingerprints or dust.
3. **Align the Protector:** Carefully align the screen protector with your smartwatch screen. Position it precisely over the display.
Note: Do not press the middle of the protector to adhere it to the watch screen at this stage.
4. **Apply and Remove Air Bubbles:** Once aligned, gently press the protector from one side to the other, allowing it to adhere to the watch screen. Use your finger or the microfiber cloth to gently push and squeeze any remaining air bubbles towards the edges until they are removed. If bubbles persist, gently lift the nearest corner of the protector and re-apply slowly.

Image: Visual guide demonstrating the four steps of screen protector installation: cleaning, peeling film, aligning, and pressing out bubbles.

Gently push and squeeze all the air out from one side to the other
it will absorb on the whole watch face stably.

PRODUCT FEATURES

- **3D Full Coverage:** Designed to perfectly cover the corners and edges of your smartwatch screen, providing comprehensive protection without easily warping or falling off.
- **High Touch Sensitivity:** The protector adheres tightly to the watch screen, ensuring that touch sensitivity is not diminished, providing a smooth and responsive user experience.
- **HD Clarity:** Achieves an optically transparent level, delivering a high-definition visual experience that preserves the original screen's beauty with up to 99.99% light transmittance.
- **Safety Protection:** Offers edge-to-edge protection against drops, scratches, and scrapes, safeguarding your smartwatch from daily hazards.
- **Anti-Scratch:** Made from a durable PET soft material that resists scratches from keys, coins, pens, and other objects.
- **Bubble-Free Installation:** Engineered for easy, bubble-free application when following the installation instructions.
- **Anti-Fingerprint & Easy to Clean:** Features an anti-fingerprint coating and is easy to clean, maintaining a clear screen.

COMPATIBILITY

This screen protector is compatible with the following smartwatch models:

- ANDFZ T42 1.72 Smartwatch
- KASEEMI T42 Smartwatch

Please verify your smartwatch model before installation to ensure proper fit.

MAINTENANCE

To maintain the clarity and effectiveness of your screen protector:

- Regularly wipe the screen with a clean, soft microfiber cloth to remove fingerprints and smudges.
- For stubborn marks, lightly dampen the microfiber cloth with water or a screen cleaner specifically designed for electronics. Avoid harsh chemicals.
- Avoid exposing the screen protector to extreme temperatures or sharp objects that could damage the film.

TROUBLESHOOTING

- **Bubbles After Installation:** If small bubbles remain, gently push them towards the nearest edge using a microfiber cloth or your finger. For persistent bubbles, carefully lift the edge of the protector closest to the bubble and slowly re-apply, ensuring no dust is trapped underneath.
- **Protector Not Sticking Properly:** Ensure the screen was thoroughly cleaned and dry before application. Any dust, oil, or moisture can prevent proper adhesion. Re-clean the screen and try applying a new protector from the pack.
- **Edges Lifting:** Ensure the protector is perfectly aligned and pressed down firmly during installation, especially around the curved edges. If edges lift, gently press them down. If the issue persists, it might indicate a misalignment or trapped debris.
- **Reduced Touch Sensitivity:** Verify that the protector is fully adhered without any gaps or air pockets. If sensitivity is still an issue, ensure the protector is correctly aligned and not overlapping any sensors.

SPECIFICATIONS

- **Material:** Polyethylene Terephthalate (PET)
- **Item Hardness:** Soft Screen Protector
- **Finish Type:** Smooth
- **Screen Surface Description:** Glossy
- **Number of Items:** 3 (per pack)
- **Special Features:** Safety Protection, 3D Full Coverage, High Sensitivity, Anti-Scratch, Bubble-Free, Anti-Fingerprint
- **Compatible Devices:** Smartwatch (specifically ANDFZ T42 1.72, KASEEMI T42)
- **Manufacturer:** Lamshaw
