## OPERATING INSTRUCTIONS

### Using the Storage Drawers

The bed frame includes four storage drawers located underneath the bed. These drawers are equipped with wheels for smooth and easy access. To use, simply pull the drawer outwards from the bed frame. To close, push the drawer back until it is flush with the bed frame. Fixtures are designed to hold the drawers in place and

prevent unwanted sliding.

### **Adjusting the Headboard Height**

The button-tufted headboard features two adjustable height settings, ranging from 44.5 inches to 50 inches. This allows for compatibility with mattresses between 8 and 12 inches in thickness. To adjust the headboard, loosen the bolts connecting the headboard to the frame, slide the headboard to the desired height, and then securely re-tighten the bolts.
