## MAINTENANCE

---

The Allibert by Keter California sofa is designed for low maintenance, thanks to its UV and weather-resistant plastic construction. Regular cleaning will help maintain its appearance and longevity.

### Cleaning the Sofa Frame:

- Wipe the plastic frame with a soft cloth dampened with mild soap and water.
- Rinse thoroughly with clean water to remove any soap residue.
- Avoid using abrasive cleaners, harsh chemicals, or stiff brushes, as these can damage the surface.

- For stubborn dirt, a gentle scrub brush can be used, but always test on an inconspicuous area first.

## Cushion Maintenance:

- Regularly brush off loose dirt and debris from the cushion covers.
- Spot clean minor spills with a mild soap solution and a soft cloth.
- For thorough cleaning, remove the covers and machine wash according to the care label.
- Ensure cushions are completely dry before placing them back on the sofa or storing them.

## Seasonal Storage:

- While the sofa frame is weather-resistant, storing it indoors or covering it with a protective cover during harsh winter months will extend its lifespan.
- Always store cushions indoors in a dry, well-ventilated area during off-season or prolonged periods of non-use.
