nanoblock Pokemon Suicune Building Kit Instruction Manual

Model: NBPM091

1. Introduction

This instruction manual provides essential information for assembling and caring for your nanoblock Pokemon Suicune building kit. The kit allows you to construct a detailed model of Suicune using micro-sized building blocks.
The nanoblock Suicune model (NBPM091) consists of approximately 220 pieces and, once assembled, stands approximately 2.91 inches (7.4 cm) tall. It is rated with a difficulty level of 3 out of 5, making it suitable for builders aged 15 and up.

2. Safety Information

WARNING: CHOKING HAZARD - Small Parts.

This product contains small parts and is not suitable for children under 3 years of age. Keep all building blocks and packaging materials away from infants and young children to prevent accidental ingestion or choking. The manufacturer recommended age for this product is 15 years and up.

3. Setup and Assembly

Your nanoblock Suicune kit includes all necessary micro-sized blocks and a detailed step-by-step instruction sheet.

3.1 Unpacking the Kit

1. Carefully open the product box.
2. Remove all plastic bags containing the nanoblock pieces.
3. Locate the instruction sheet provided within the packaging.
4. Ensure all pieces are present before beginning assembly. Refer to the parts list in the instruction sheet.

3.2 Assembly Instructions

- **Follow the Included Instructions:** The kit comes with a comprehensive, visual step-by-step instruction guide. Refer to this guide for precise block placement.
- **Small Block Handling:** nanoblocks are very small (4mm x 4mm x 5mm). Use tweezers (not included) if needed for precise placement and to avoid dropping pieces.
- **Building Surface:** Work on a clean, flat, and well-lit surface to prevent loss of small parts.
- **Layer by Layer:** Assemble the model layer by layer as indicated in the instructions. Ensure each block is firmly pressed into place.
- **Fragile Sections:** Some sections, particularly delicate features like Suicune's ribbons, may be more fragile during assembly. Apply gentle, even pressure.

4. Display and Handling

Once assembled, your nanoblock Suicune model is designed for display.

- **Display Location:** Place the model on a stable, flat surface away from direct sunlight, excessive heat, or high humidity to prevent material degradation.
- **Careful Handling:** Due to the small size and interlocking nature of the blocks, handle the assembled model with care to avoid accidental disassembly, especially when moving it.

5. Maintenance

To keep your nanoblock model in optimal condition:

- **Cleaning:** Gently dust the model with a soft brush or a can of compressed air. Avoid using liquid cleaners or abrasive materials.
- **Storage:** If disassembling for storage, keep all pieces in a sealed container to prevent loss.

6. Troubleshooting

- **Missing Pieces:** If you find any pieces missing from your new kit, please contact the authorized distributor or manufacturer for assistance.
- **Difficulty Assembling:** Review the instruction manual carefully. Ensure blocks are oriented correctly and pressed firmly. For very small or tight connections, gentle force or a small tool (like tweezers) may be helpful.

- **Model Falls Apart:** This can occur if blocks are not fully connected or if fragile sections are stressed. Re-examine the connections and ensure all blocks are securely interlocked.
