4. SETUP GUIDE

Follow these steps to set up your Nulaxy KM20 FM Transmitter:

1. **Plug In:** Insert the KM20 into your car's 12V cigarette lighter socket. The device will automatically power on and display "KM20" on the screen.
2. **Bluetooth Pairing:**
 - On your smartphone, enable Bluetooth.
 - Search for available devices and select "KM20" to pair. The screen will show "Bluetooth KM20 Connected" once successfully paired.
3. **Tune FM Frequency:**
 - Find an unoccupied FM frequency on your car radio (a frequency with no static or existing broadcast).
 - Adjust the FM frequency on the KM20 to match your car radio's frequency. Use the CH+ and CH- buttons or the scroll wheel to change the frequency on the transmitter.
4. **Audio Connection (Optional):** If your car has an AUX-in port, you can connect the KM20 to your car's audio system using the provided 3.5mm audio cable for a direct connection, bypassing FM transmission.

7. TROUBLESHOOTING

If you encounter issues with your Nulaxy KM20, please refer to the following common solutions:

Problem	Possible Cause / Solution
Poor audio quality / Static noise	<ul style="list-style-type: none">FM frequency interference: Change to an unoccupied FM frequency on both the KM20 and your car radio.Volume levels: Adjust the volume on both the KM20 and your car radio. Ensure the KM20 volume is not too low or too high.Weak signal: Try a different FM frequency.

Problem	Possible Cause / Solution
Bluetooth connection issues	<ul style="list-style-type: none"> Ensure Bluetooth is enabled on your device and the KM20 is in pairing mode. Delete "KM20" from your device's Bluetooth history and re-pair. Restart both the KM20 (unplug and plug back in) and your Bluetooth device.
Hands-free call quality is poor	<ul style="list-style-type: none"> Ensure the microphone is not obstructed. Adjust the position of the gooseneck to bring the microphone closer to you. Background noise: The enhanced mic has noise cancellation, but extreme noise may still affect quality.
Device does not power on	<ul style="list-style-type: none"> Check if the car's 12V socket is working. Check the fuse in the KM20's cigarette lighter plug. Replace if blown (a spare fuse is included).
USB/TF card not playing music	<ul style="list-style-type: none"> Ensure the music files are in a supported format (e.g., MP3, WMA). Check if the USB drive or TF card is properly inserted. Verify the file system of the USB/TF card (FAT32 is commonly supported).
