LEDVANCE 75575

SYLVANIA SMART+ Bluetooth Mesh LED Flex Light Strip Starter Kit User Manual

Model: 75575

PRODUCT OVERVIEW

The SYLVANIA SMART+ Bluetooth Mesh Indoor LED Flex Light Strip Starter Kit provides intelligent and customizable lighting for your home. This kit includes three 2-foot light strips, offering a total of 6 feet of flexible LED lighting. It supports millions of colors and a spectrum of white tones, all dimmable to suit any mood or occasion. Designed for easy integration, it pairs directly with compatible smart speakers for hands-free control without requiring an additional hub.

KEY FEATURES

- **Full Color and Tunable White:** Choose from millions of colors and a wide range of white temperatures (2700 Kelvin) to create the perfect ambiance.
- **Dimmable:** Adjust the brightness of the light strips to your desired level.
- **Bluetooth Mesh Connectivity:** Ensures a reliable and scalable connection for multiple smart devices, extending range and improving reliability.
- **Voice and App Control:** Compatible with Alexa, Google Assistant, and Apple HomeKit for convenient hands-free operation and control via smartphone apps.
- **No Hub Required:** Direct pairing with compatible smart speakers simplifies setup.
- **Customizable Length:** The light strips can be cut to tailor for desired lengths and secured with included clip accessories.

SETUP INSTRUCTIONS

1. **Prepare the Strips:** Unroll the three 2-foot LED light strips. If needed, cut the strips at designated cut marks to achieve your desired length.
2. **Connect Components:** Connect the light strips to the power supply unit and control unit.
3. **Secure Placement:** Use the included clip accessories to securely mount the light strips in your desired location.
4. **Power On:** Plug the power supply into a standard electrical outlet.
5. **Software Update (Echo Device Users):** If using an Amazon Echo device, ensure its software is up-to-date by saying, "Alexa, is your software up-to-date?"
6. **Download App:** Download the SYLVANIA Smart Home App from your device's app store.
7. **Pairing:** Open the SYLVANIA Smart Home App and follow the on-screen instructions to connect your light strips. The app will notify you when it discovers the light. For hands-free setup with Alexa, select "Link to my Alexa account"

and to SYLVANIA to simplify setup" when purchasing or through the Alexa app.

8. **Activate:** Once discovered, you can activate the light by saying, "Alexa, turn on first light."

Voice & Automatic Setup

Pair your Bluetooth Smart Bulb with a compatible Amazon Echo device and SYLVANIA Smart Home App.
For hands-free setup, select "Link to my Alexa account and to SYLVANIA to simplify setup" when purchasing.

Turn on your Echo device and check if your software is up-to-date by saying, "Alexa is your software up-to-date?"

Download the SYLVANIA Smart Home app and connect your strips. Your phone will show a notification, "Alexa found first light."

Once your strip is discovered, finish by saying, "Alexa, turn on first light."

OPERATING INSTRUCTIONS

Color and Brightness Control

- **Via App:** Use the SYLVANIA Smart Home App to select from millions of colors or adjust the white temperature. The app also allows for precise dimming control.
- **Via Voice Command:**
 - "Alexa, change kitchen lights to pink."
 - "Hey Google, dim the living room lights to 50%."
 - "Siri, turn on the bedroom lights."
 - "Alexa, turn on party mode!" (if a scene is configured)

Scheduling and Scenes

Utilize the SYLVANIA Smart Home App or your preferred smart home assistant (Alexa, Google Assistant, Apple HomeKit) to create custom schedules for your lights. This allows for automated on/off times, brightness adjustments, and color changes to suit your daily routines or enhance home security when you are away.

MAINTENANCE

The SYLVANIA SMART+ LED Flex Light Strips are designed for long-lasting performance with minimal maintenance. Keep the strips clean by gently wiping them with a dry, soft cloth. Avoid using harsh chemicals or abrasive cleaners, as these can damage the product. Ensure all connections remain secure.

This product is designed for indoor use and is *not water resistant*. Avoid exposure to moisture or direct water contact.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Light strip does not turn on.	No power, loose connection, or device not paired.	Check power outlet. Ensure all connections are secure. Verify pairing in the SYLVANIA Smart Home App or your smart assistant app.

Problem	Possible Cause	Solution
Cannot connect to Bluetooth Mesh.	Out of range, interference, or app issue.	Move closer to the light strip. Reduce interference from other Bluetooth devices. Restart the SYLVANIA Smart Home App or your smart assistant app. Ensure your smart speaker's software is updated.
Lights are not responding to voice commands.	Incorrect voice command, smart speaker issue, or connectivity problem.	Ensure correct commands are used. Check if your smart speaker is online and functioning correctly. Verify the light strip is connected and responsive in the app.
Inconsistent color or brightness.	Software glitch or power fluctuation.	Restart the light strip by unplugging and re-plugging the power. Check for app updates.
Not compatible with Echo Dot 1st Generation.	Hardware limitation.	This product is not compatible with the Echo Dot 1st Generation. Use a compatible smart speaker or control via the SYLVANIA Smart Home App.
