Yakry C2 auto dog feeder

Yakry Automatic Pet Feeder with Camera User Manual

Model: C2 auto dog feeder | Brand: Yakry

INTRODUCTION

Thank you for choosing the Yakry Automatic Pet Feeder with Camera. This smart pet feeder is designed to provide convenient and reliable feeding for your beloved pets, even when you're away. With its integrated HD camera, two-way audio, and app control, you can monitor and interact with your pet from anywhere. This manual provides detailed instructions for setup, operation, and maintenance to ensure optimal performance and a healthy feeding routine for your pet.

C2 6L Smart Pet Feeder with Camera

PRODUCT FEATURES

- **Smart Feeding with App Control:** Easily feed your pet through the mobile app and set feeding plans anytime, anywhere. Scheduling meals helps develop good behavior and eating habits. Supports 2.4GHz Wi-Fi network only.
- **HD Camera with Audio and Video:** Keep an eye on your furry friends with the 1080P HD camera and two-way audio feature. Interact with them in real-time through the mobile app, no matter where you are. The built-in camera features infrared night vision, allowing you to see your pets clearly even in the dark.
- **Fresh Food Guaranteed:** The automatic dog feeder comes with a secure lid lock and desiccant pack to keep food fresh and free from moisture and bugs.
- **Dual Power for Uninterrupted Feeding:** Don't let power outages disrupt your pet's feeding schedule. The automatic pet food dispenser comes with a backup power source that uses 3 D batteries (not included) to ensure uninterrupted feeding for up to 120 days.

PACKAGE CONTENTS

Please check the package contents upon unboxing to ensure all items are present:

- 1 x Automatic Feeder
- 1 x Food Bowl
- 1 x Power Adapter
- 1 x User Guide
- 1 x Desiccant Bag

SETUP

1. Physical Setup

1. Unpack all components from the box.

2. Place the feeder on a flat, stable surface.
3. Insert the food bowl into the designated slot at the base of the feeder.
4. Open the lid of the food tank and insert the desiccant bag into its holder to keep food fresh.
5. Fill the food tank with dry pet food. Ensure the kibble size is between 2-12mm to prevent clogging.
6. Connect the power adapter to the feeder and plug it into a wall outlet. For backup power, install 3 D-size batteries (not included) in the battery compartment at the bottom of the feeder.

2. App Installation & Connection

The Yakry Pet Feeder uses a smart app for control and monitoring. Follow these steps to set up the app:

1. Download the "Tuya Smart" or "Smart Life" app from your smartphone's app store (iOS or Android). You can scan the QR code below for direct access.

Image: QR code for downloading the Tuya Smart app.

Alternatively, visit: <https://smartapp.tuya.com/tuyasmart>

2. Register or log in to your account in the app.
3. Ensure your phone is connected to a 2.4GHz Wi-Fi network. The feeder does not support 5GHz networks.
4. In the app, tap "Add Device" or the "+" icon. Select "Small Home Appliance" > "Pet Feeder" (Wi-Fi).
5. Follow the on-screen instructions to connect the feeder to your Wi-Fi network. This usually involves putting the feeder into pairing mode (refer to the feeder's indicator light for status) and entering your Wi-Fi password.

Smart APP Control & 3 Mins Setup

Scheduling is super simple, just like setting your personal alarmclock on your phone.

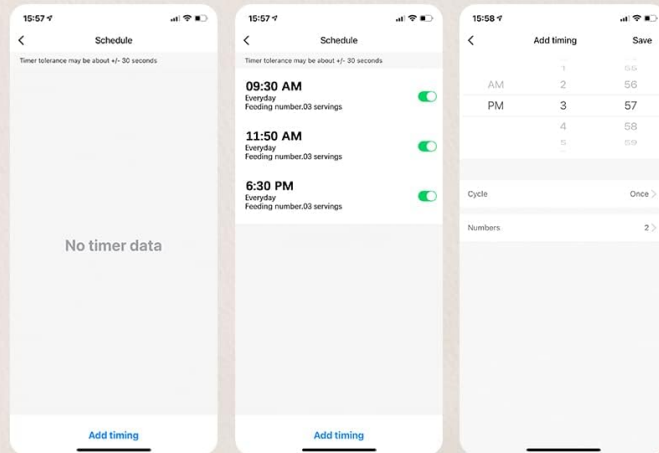

Image: Smart APP Control & 3 Mins Setup, showing various app screens for scheduling and live view, demonstrating the ease of setup.

Image: App screenshots showing device added confirmation and the interface for adding feeding timings.

Image: App screenshot displaying the live view from the feeder's camera, with control options below.

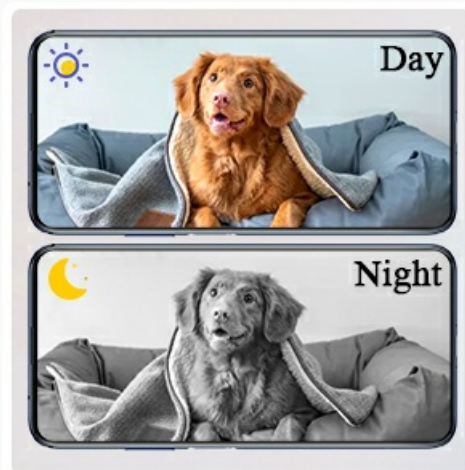

Image: App screenshot showing the "Share Device" option, allowing multiple users to control the feeder.

3. Setting Up Feeding Schedule

Use the app to create a customized feeding schedule for your pet:

1. In the app, navigate to the feeder's control interface.
2. Tap on the "Schedule" or "Timing" option.
3. Add new feeding times, specifying the hour, minute, and number of portions for each meal.
4. You can set multiple feeding times per day and adjust portion sizes (0-20 portions per meal).
5. Save your schedule. The feeder will automatically dispense food at the programmed times.

4. Personalized Voice Recording

Record a short message to call your pet at meal times:

1. In the app, find the voice recording function (often labeled "Record" or "Voice").
2. Record a 10-second message. This message will play automatically before each scheduled feeding.

OPERATING INSTRUCTIONS

1. Manual Feeding

You can manually dispense food at any time using the app or the physical button on the feeder:

- **Via App:** On the feeder's control interface in the app, tap the "Feed" button to dispense one portion

immediately. You may be able to select multiple portions depending on the app version.

- **Via Feeder Button:** Press the "Feed" button on the feeder's control panel to dispense one portion.

2. Remote Monitoring & Two-Way Audio

Utilize the built-in camera and microphone for remote interaction:

- **Live View:** Open the app and select your feeder. The live video feed from the 1080P HD camera will appear.
- **Two-Way Audio:** Tap the microphone icon in the app to speak to your pet. Tap the speaker icon to hear sounds from your pet's environment.

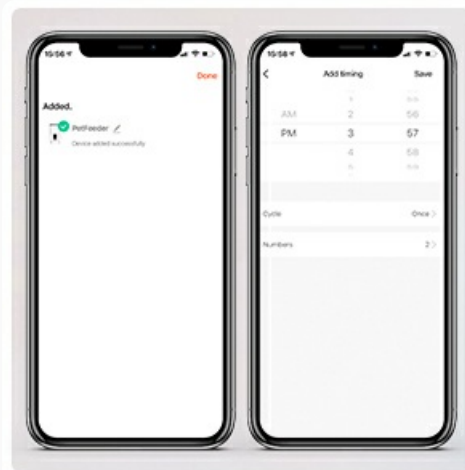

Image: Two-way audio feature, showing a person interacting with a cat via the app and feeder.

- **Night Vision:** The camera automatically switches to infrared night vision in low-light conditions, providing clear visibility of your pet 24/7.

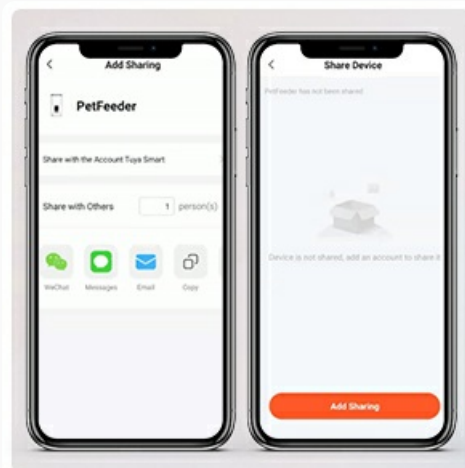

Image: Day and Night camera view, demonstrating the clear image quality in both bright and dark conditions.

3. Motion Detection

Receive alerts when your pet is active:

- The feeder's camera has motion detection capabilities.
- Enable motion detection alerts in the app settings to receive notifications on your phone when movement is detected near the feeder.

MAINTENANCE

1. Cleaning Instructions

Regular cleaning ensures hygiene and proper functioning:

- Disconnect the power adapter and remove any batteries before cleaning.
- Remove the food bowl and wash it by hand with mild soap and water. Rinse thoroughly and dry completely.
- Wipe the main body of the feeder with a damp cloth. Do not submerge the main unit in water.
- Ensure all parts are completely dry before reassembling and refilling with food.

2. Food Storage

Maintain food freshness and prevent pests:

- Always use the provided desiccant bag to absorb moisture inside the food tank. Replace the desiccant bag every 1-2 months, or as needed.

Image: Desiccant bag placement, showing an arrow pointing to the desiccant bag holder inside the feeder's lid.

- Ensure the lid is securely locked after refilling the food tank to prevent moisture and pests from entering.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Feeder not dispensing food.	Food tank empty; kibble size too large; food jammed; power issue.	Refill food tank. Ensure kibble is 2-12mm. Clear any food jams. Check power adapter connection and/or battery level.
App cannot connect to feeder / Feeder offline.	Incorrect Wi-Fi password; 5GHz Wi-Fi network; feeder too far from router; temporary network issue.	Ensure correct 2.4GHz Wi-Fi network and password. Move feeder closer to router. Restart feeder and router. Re-pair the device in the app if necessary.
Camera image is blurry or dark.	Protective film on lens; low light conditions (night vision active).	Remove any protective film from the camera lens. The camera automatically adjusts for low light with night vision. Ensure sufficient lighting if clear color image is desired.

Problem	Possible Cause	Solution
Voice recording not playing.	Recording not saved; volume too low.	Ensure the voice recording was successfully saved in the app. Check the volume settings in the app.
