- **Fashionable Design:** European-style, lips-shaped telephone made from environmentally friendly material.
- **Durability:** Designed for long service life, resistant to damage.
- **Comfortable Use:** Sturdy and durable construction with a comfortable hand feeling.
- **Versatile Application:** Ideal for both home and office environments.
- **Stable Signal:** Ensures reliable communication.

2. What's in the Box

Please check the package contents upon unboxing to ensure all components are present:

- 1 x User Manual (This document)
- 1 x Telephone Base
- 1 x Telephone Receiver
- 1 x Power Cable
- 1 x Receiver Connecting Line

3. Setup Instructions

Follow these steps to set up your Dpofirs Lip Telephone:

1. **Prepare Connection:** Unhook any existing telephone connection from your wall socket.
2. **Connect to Wall Socket:** Insert the white plug of the provided power cable into your wall phone socket.
3. **Connect to Telephone Base:** Insert the other end of this power cable into the central socket located on the telephone base.
4. **Connect Receiver to Base:** Connect one end of the coiled receiver connecting line to the socket on the telephone receiver.
5. **Connect Receiver to Telephone Base:** Connect the other end of the coiled receiver connecting line to the remaining socket on the telephone base.

4. Operating Instructions

Learn how to use your Dpofirs Lip Telephone for calls:

4.1 Making a Phone Call

1. Pick up the telephone receiver.

2. Listen for a clear dial tone.
3. Dial the desired phone number using the keypad located on the receiver.

4.2 Answering a Phone Call

- When the telephone rings, pick up the receiver to answer the call.
- To end the call, simply hang up the receiver.

4.3 Redial Function

- Pick up the receiver and listen for the dial tone.
- Press the 'Redial' button (if available, or the designated redial key). The last number you dialed will be automatically redialed.

4.4 Pause Function (PAUS VOIR)

- The 'PAUS VOIR' function holds a call for approximately 3 seconds. Refer to your specific telephone service provider's instructions for full utilization of this feature.

4.5 Pulse/Tone Dialing

- If your home telephone service uses a key dial system, ensure the dial mode selector on the telephone is set to the 'POSITION' for quick and accurate dialing.

5. Maintenance

Proper care will ensure the longevity of your Dpofirs Lip Telephone:

- **Cleaning:** Wipe the telephone regularly with a soft, slightly damp cloth. Avoid using abrasive cleaners, solvents, or strong chemicals, as these can damage the surface.
- **Environment:** Keep the telephone away from direct sunlight, excessive heat sources, and high humidity.
- **Handling:** Handle the telephone and its components with care to prevent accidental drops or damage to the cords.

6. Troubleshooting

If you encounter issues with your telephone, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
No dial tone	Loose cable connection; inactive phone line.	Ensure all cables (power, receiver) are securely plugged in. Contact your phone service provider to check line status.

Problem	Possible Cause	Solution
Cannot make/receive calls	Incorrect setup; line busy; service issue.	Review 'Setup Instructions'. Confirm the line is not in use. Contact your phone service provider if the issue persists.
Static or poor sound quality	Loose connections; interference; faulty line.	Check all cable connections. Try plugging the phone into a different wall socket if available. Test with another phone to isolate the problem.
Buttons not responding	Stuck buttons; internal malfunction.	Gently press buttons to ensure they are not stuck. If unresponsive, contact customer support.
