## GuruNanda Portable Diffuser 2.0

# GuruNanda Portable Diffuser 2.0 Instruction Manual

Model: Portable Diffuser 2.0

## INTRODUCTION

---

The GuruNanda Portable Diffuser 2.0 is a waterless, plug-in essential oil diffuser designed for aromatherapy in various spaces like homes and offices. It utilizes silent ultrasonic technology and offers multiple mist modes, along with an automatic shut-off function for convenience and safety. This manual provides detailed instructions for setup, operation, maintenance, and troubleshooting.

## IMPORTANT SAFETY INFORMATION

---

Please read and understand all safety warnings before using the diffuser.

- Avoid direct skin contact with undiluted essential oils.
- Keep out of reach of children and pets.
- Ensure proper ventilation during use.
- Do not ingest essential oils.
- Discontinue use if irritation occurs.
- Certain thick essential oils, such as Peppermint and Vetiver, are not recommended for use with this waterless diffuser as they may cause clogging.

## INGREDIENTS:

100% Pure Lemongrass  
(Cymbopogon flexuosus)  
Essential Oil

## OIL SOURCED FROM:

India

## BOTTLES AND CAPS:

Made in China

GCMS-TESTED &  
3RD PARTY VERIFIED

## SETUP INSTRUCTIONS

Follow these steps to set up your diffuser for first-time use:

1. **Prepare the Essential Oil:** Open the essential oil bottle and carefully remove the dripper plug using the provided dripper plug remover tool.
2. **Attach Diffuser to Oil Bottle:** Remove the top cover of the diffuser unit. Screw the diffuser unit securely onto the essential oil bottle.
3. **Orient for Oil Flow:** Flip the entire unit over so that the essential oil bottle is positioned on top. This allows the oil to flow into the diffuser mechanism.
4. **Replace Cover:** Place the diffuser top cover back onto the unit.
5. **Plug In:** Insert the diffuser into a standard wall outlet. The diffuser is now ready for operation.

## OPERATING YOUR DIFFUSER

Once the diffuser is plugged in and set up, you can begin operation:

- **Power On:** Press the power button on the front of the diffuser to turn it on.
- **Mist Modes:** The diffuser offers two misting intervals, indicated by LED light colors:
  - **Blue Light Mode:** Diffuses essential oil every 5 minutes.
  - **Green Light Mode:** Diffuses essential oil every 10 minutes.
- **Automatic Cycle:** When plugged in and the power button is pressed, the unit will run for 8 hours, then enter a sleep mode for 16 hours, repeating this cycle automatically.
- **Low Oil Alert:** The diffuser is equipped with a feature that alerts you when the essential oil is running low.

## CARE AND MAINTENANCE

Regular cleaning ensures optimal performance and longevity of your diffuser.

- General Cleaning:** Clean the diffuser when changing essential oils to prevent residue buildup and maintain optimal functionality.
- Clearing the Mister:** If mist output is low or inconsistent, pour a small amount of rubbing alcohol (e.g., 70% isopropyl alcohol) into the reservoir. Allow it to sit for 2-3 hours. Then, switch on the device to allow the alcohol to evaporate, which helps clear the mister and enables smooth oil spray.
- Cleaning the Silver Diffuser Plate:** Dampen a cotton swab with 70% rubbing alcohol and gently wipe the silver diffuser plate to remove any excess oil or residue that could cause blockages.
- Storage:** When the device is not in use for an extended period, remove the essential oil bottle. This helps prevent oil leaks and ensures the diffuser's longevity.

**Remove the essential oil bottle,  
when the device is not in use**

Helps prevent oil leaks from bottle

Ensures diffuser's longevity

Blissful aromatic experience

Mess-free and easy storage

## TROUBLESHOOTING

If you encounter issues with your diffuser, refer to the table below for common problems and solutions:

Symptom	Possible Cause	Solution
No Mist	Oil is not 100% pure.	Use only GuruNanda® essential oils.
	Plug is not securely plugged into power outlet.	Secure the plug to the power outlet and press the button.
	Insufficient oil.	Refill the oil bottle.
	The microporous steel plate is blocked.	Pour a few drops of alcohol into the microporous steel plate. Turn on the diffuser and let it run. Alternatively, use a cotton swab with alcohol to clean the microporous steel plate. Shake the unit a few times to allow oil to flow into the chamber.
Main unit is leaking	Oil bottle is not secured.	Secure the oil bottle properly.
