VOTNTUT EL013

VOTNTUT USB PC Speaker Instruction Manual

Model: EL013

INTRODUCTION

Thank you for choosing the VOTNTUT USB PC Speaker. This manual provides essential information for setting up, operating, and maintaining your speaker to ensure optimal performance and longevity. Please read this manual thoroughly before using the product.

SETUP INSTRUCTIONS

The VOTNTUT USB PC Speaker is designed for simple plug-and-play operation, requiring no additional drivers or complex wiring. Follow these steps to connect your speaker:

1. **Connect the USB Cable:** Plug the USB-A connector of the speaker's cable into an available USB port on your computer (desktop, laptop, or mini desktop). This single USB cable provides both power and audio connection.
2. **Select as Playback Device:** Once connected, your computer should automatically detect the speaker. If not, navigate to your computer's sound settings.
3. **Choose 'Speaker (Audio USB 2.0)':** In your sound settings, select "Speaker (Audio USB 2.0)" as your default playback device.

Avoiding Messy Cables

Single USB cable design, power supply and audio connection at the same time, bid farewell to messy cables

Image: Visual guide for connecting the USB PC speaker to a laptop and selecting it as the audio output device.

The speaker is compatible with Windows, MacOS, and Chrome OS, provided your system has the latest sound card drivers installed.

VOLUME CONTROL AND MUTE BUTTONS

Our mute button can stop the sound of music APP and videos that pause button of other speakers can't do

Image: The speaker demonstrating compatibility with various computer brands and types, including laptops, desktops, and mini desktops.

OPERATING INSTRUCTIONS

The speaker features integrated volume control buttons for easy audio management.

- **Volume Up (+):** Press this button to increase the audio volume.
- **Volume Down (-):** Press this button to decrease the audio volume.
- **Mute:** Press this button to instantly mute or unmute the audio. This function allows you to stop sound from music applications or videos.

Mini Computer Speaker

Convenient, Lightweight and Easy to Carry

MAINTENANCE

To ensure the longevity and optimal performance of your VOTNTUT USB PC Speaker, follow these simple maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to wipe the speaker's surface. Avoid using liquid cleaners or abrasive materials, as they may damage the finish or internal components.
- **Storage:** When not in use, store the speaker in a cool, dry place away from direct sunlight and extreme temperatures.
- **Handling:** Handle the speaker with care. Avoid dropping it or exposing it to strong impacts.
- **Cable Care:** Do not bend or crimp the USB cable excessively. Always pull from the plug, not the cable, when disconnecting.

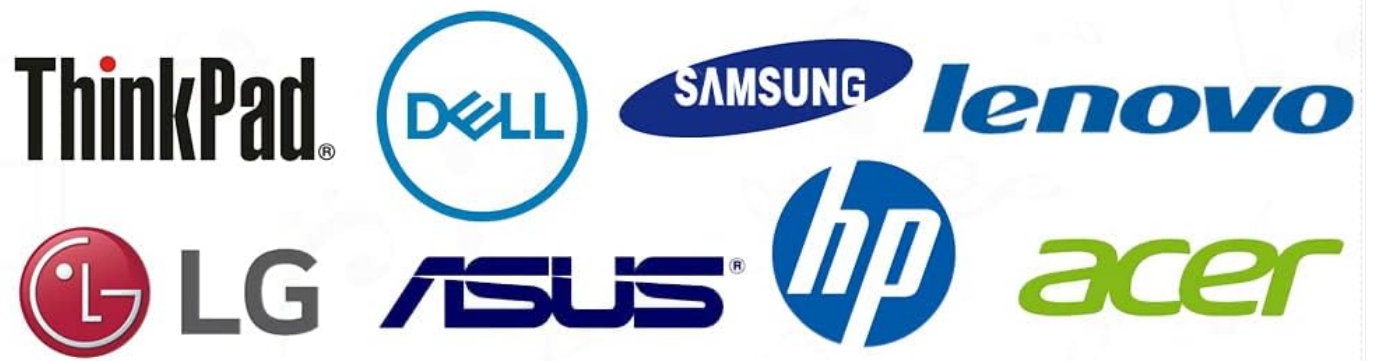

TROUBLESHOOTING

If you encounter any issues with your VOTNTUT USB PC Speaker, please refer to the following common troubleshooting steps:

- **No Sound:**
 - Ensure the USB cable is securely plugged into both the speaker and your computer.
 - Verify that "Speaker (Audio USB 2.0)" is selected as the default playback device in your computer's sound settings.
 - Check if the speaker's volume is turned up and not muted using the control buttons.
 - Ensure your computer's system volume is not muted or set too low.
 - Try connecting the speaker to a different USB port or another computer to rule out port or computer-specific issues.
- **Low Volume or Distorted Sound:**
 - Increase the volume using both the speaker's volume buttons and your computer's system volume control.
 - Ensure the audio source (e.g., music player, video application) volume is set appropriately.
 - Check for any obstructions around the speaker grilles.
 - Test with different audio files or applications to determine if the issue is specific to a source.
- **Speaker Not Recognized by Computer:**
 - Disconnect and reconnect the USB cable.
 - Restart your computer.
 - Ensure your computer's operating system and sound card drivers are up to date.

SPECIFICATIONS

Brand	VOTNTUT
Model Name	EL013
