GOPLUS 6V Electric Ride-On Motorcycle for Children - Instruction Manual

Model: B09LD36W87

1. INTRODUCTION

Thank you for choosing the GOPLUS 6V Electric Ride-On Motorcycle. This manual provides essential information for the safe assembly, operation, and maintenance of your child's new electric motorcycle. Please read it thoroughly before use and retain it for future reference.

2. SAFETY INSTRUCTIONS

- Always supervise children when operating the electric motorcycle.
- Ensure the child wears appropriate safety gear, including a helmet, knee pads, and elbow pads.
- Do not use the motorcycle on public roads, near motor vehicles, on steep inclines, or near swimming pools or other bodies of water.
- The maximum weight capacity is 30 kg. Do not overload the vehicle.
- Recommended age for use is 3 years and above.
- Keep hands, hair, and clothing away from moving parts.
- Only use the provided charger and battery.

3. PACKAGE CONTENTS

Please check that all components are present before assembly:

- Main Motorcycle Body
- Handlebar
- Front Wheel
- Rear Wheels (2)
- Seat
- Backrest

- Charger (6V 500mA)
- Assembly Hardware (screws, washers, etc.)
- Instruction Manual

4. ASSEMBLY INSTRUCTIONS

Follow these steps to assemble your GOPLUS Electric Ride-On Motorcycle. A detailed video guide may also be available from the manufacturer.

1. **Attach the Handlebar:** Insert the handlebar into the steering column at the front of the main body. Ensure it is securely fastened with the provided screws. Connect any electrical wires from the handlebar to the main body as indicated in the wiring diagram.
2. **Install the Front Wheel:** Attach the front wheel to the fork assembly. Secure it with the axle and fasteners.
3. **Install the Rear Wheels:** Attach the two rear wheels to the rear axle. Ensure they are firmly secured to provide stability.
4. **Attach the Seat and Backrest:** Place the seat onto the designated area on the motorcycle body and secure it. Attach the backrest to the rear of the seat.
5. **Connect the Battery:** Locate the battery compartment (usually under the seat). Connect the battery terminals according to the polarity markings (+ to + and - to -).

Pédale simulée et grand repose-pieds

Siège confortable et dossier haut

Poignée et rétroviseur faciles à saisir

Prise d'entrée de charge

Detailed view of the pedal, comfortable seat, rearview mirror, and charging port for easy assembly and operation.

Expérience de conduite authentique

-  **Tableau de bord réaliste**
-  **Musique**
-  **Interrupteur**
-  **Commutateur avant**
-  **Klaxon**
-  **Commutateur recul**

The dashboard features a realistic design with buttons for music, horn, and forward/reverse controls.

5. OPERATING INSTRUCTIONS

To operate the GOPLUS Electric Ride-On Motorcycle:

- Power On:** Press the power button (often labeled 'Engine' or with a power symbol) to turn on the motorcycle.
- Select Direction:** Use the forward/reverse switch to select the desired driving direction.

3. **Accelerate:** Press the foot pedal to move the motorcycle forward or backward. Release the pedal to stop.
4. **Lights and Horn:** Use the designated buttons on the dashboard or handlebar to activate the headlight and horn.

Expérience de conduite réaliste

La conception multifonctionnelle encourage les enfants et améliore la coopération œil-main

- 1 Opération en un clic
- 2 Corne
- 3 Son de départ
- 4 Bouton avant et arrière

The dashboard provides easy access to controls for one-click operation, horn, start sound, and forward/reverse movement.

6. CHARGING THE BATTERY

The motorcycle is equipped with a 6V4.5AH battery. For optimal performance and battery life, follow these charging guidelines:

- **Initial Charge:** Before the first use, charge the battery for 8-12 hours. Do not exceed 15 hours.
- **Regular Charging:** After each use, or when the vehicle slows down significantly, charge the battery for 8-12 hours.
- **Charging Process:** Connect the charger to the charging port on the motorcycle (refer to the manual for exact location, typically near the seat or footrest). Plug the charger into a standard wall outlet. The indicator light on the charger will show the charging status.
- Do not charge the battery for more than 20 hours.

- Disconnect the charger once charging is complete.

7. MAINTENANCE

- **Cleaning:** Wipe the motorcycle with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- **Storage:** Store the motorcycle in a dry, cool place away from direct sunlight and moisture. If storing for an extended period, charge the battery fully every 3 months to prolong its life.
- **Battery Care:** Avoid completely draining the battery. Recharge promptly after use.
- Regularly check all screws and fasteners to ensure they are tight.

8. TROUBLESHOOTING

Problem	Possible Cause	Solution
Motorcycle does not move	Battery is low or dead Loose battery connection Power switch is off	Charge the battery Check and secure battery connections Turn on the power switch
Motorcycle moves slowly	Low battery Overloaded vehicle Rough terrain	Recharge the battery Reduce weight on the vehicle Use on smooth, flat surfaces
No sound or lights	Loose wire connection Battery low	Check wiring connections Charge the battery

9. SPECIFICATIONS

Feature	Detail
Brand	GOPLUS
Model	B09LD36W87
Material	PP Plastic and Metal
Dimensions (L x W x H)	90 cm x 46 cm x 60 cm
Item Weight	6.15 kg
Weight Limit	30 kg
Battery	6V4.5AH
Charger	6V 500mA
Speed	2.5-3 km/h
Recommended Age	3+ years
Features	Headlight, Horn, Forward/Reverse, Music Player (integrated, MP3, USB, TF card slot)

Product dimensions: 90cm (length) x 46cm (width) x 60cm (height).
