6. USAGE GUIDELINES

- Mattress Requirement:** To ensure the longevity of your bed frame, always use a mattress with a thickness of 15 cm (6 inches) or more.
- Futon Use:** If using a futon, place it on top of a mattress. Direct use of a futon on the wooden slats may cause concentrated pressure and lead to damage.
- Weight Distribution:** Avoid activities that concentrate weight on a single point, such as jumping on the bed, as this can cause structural damage.
- Under-Bed Storage:** Utilize the generous 30.5 cm (12 inches) of under-bed clearance for storing clothes, bedding, or other items.

- **Regular Checks:** Periodically inspect all connections and fasteners to ensure they remain tight. Re-tighten any loose bolts or screws to maintain stability and safety.
