Premium-Plus WFG371LVS

Instruction Manual

PREMIUM-PLUS STOVE PROTECTOR LINERS

Model: WFG371LVS

Introduction

Thank you for choosing Premium-Plus Customized Stovetop Protector Liners. These non-stick liners are designed to simplify the cleaning process of your gas stovetop, keeping its metal surface protected and looking new. They are heat resistant up to 500°F and are customized to fit specific stove models, including the Whirlpool WFG371LVS.

This manual provides essential information on the installation, usage, maintenance, and specifications of your new stove protector liners.

Setup and Installation

Installing your Premium-Plus Stove Protector Liners is a straightforward process designed for ease of use. Follow these steps for proper installation:

1. **Prepare Your Stovetop:** Ensure your stovetop is clean and cool. Carefully remove all stovetop accessories, including grates and burner caps.
2. **Position the Liners:** The liners come in multiple pieces, typically a middle section and two side sections. Begin by laying down the middle section first.
3. **Overlap and Align:** Place the two other side sections, ensuring they lay together and slightly overlap on your stovetop. This overlapping design provides comprehensive protection for the metal surface beneath.
4. **Reassemble:** Once the liners are correctly positioned and covering the stovetop surface, reassemble your stove accessories (grates and burner caps). Your stovetop is now protected and ready for use.

Image: View of the stove protector liners fully installed on a gas stovetop, providing a clean and protected surface.

Model Compatibility: These liners are customized for specific stove models. To ensure a perfect fit, verify your stove's burner layout matches the design of the liners. If your stove's burner location matches the provided image, the "Customized Stovetop Protector Liners" will fit your Gas Stovetop perfectly.

Match your Stovetop burners location with our image. If your Stove burner location matches our image than our "Customized Stovetop Protector Liners" will fit your Gas Stovetop perfectly.

If you need assistance locating your Whirlpool gas stove model number, refer to the diagram below:

WHIRLPOOL GAS STOVE MODEL NUMBER LOCATOR

Whirlpool

- 1** In the door frame typically in the upper left hand corner or lower left hand corner.
- 2** On the underside of the back fuse panel cover.
- 3** With the lower drawer open, on the left side or on the door jamb.
- 4** If your cooktop lifts up, you can find it underneath on the left or right side.
- 5** Under one of the surface burners.
- 6** On the lower left, right, or back side of the unit near the ground.

Operating Instructions

The Premium-Plus Stove Protector Liners are designed to be a passive protective layer for your stovetop. Once installed, they require no special operation. Simply use your gas stove as normal. The liners are heat resistant up to 500°F, providing a safe barrier against spills and drips during cooking.

Maintenance and Cleaning

Maintaining the cleanliness of your stovetop has never been easier with these protector liners. They are designed for hassle-free cleaning:

- **Wipe Down:** For minor drips, drops, spills, or grease, simply wipe down the liners with a wet sponge or cloth between uses.
- **Dishwasher Safe:** For a more thorough cleaning, the Stovetop Protector Liners are dishwasher safe. Place them on the top rack of your dishwasher for convenient cleaning.
- **Targeted Cleaning:** If a spill occurs on only one side of the stovetop, you can remove just that specific liner piece,

clean it, and then easily replace it. This allows for efficient and targeted cleaning without disturbing the entire setup.

DISHWASHER SAFE

Keep your stovetop clean, simply remove your Customized Stovetop Protector Liners and just place them in your dishwasher – it's so simple and easy!

Troubleshooting

If you encounter any issues with your Premium-Plus Stove Protector Liners, consider the following common solutions:

- **Liner Does Not Fit Properly:** Ensure you have selected the correct model number for your stove. These liners are custom-cut and not universal. Refer to the "Setup and Installation" section for guidance on matching burner layouts and locating your stove's model number.
- **Liners Shifting During Use:** Verify that all stovetop accessories (grates, burner caps) are properly reassembled after liner installation. This helps secure the liners in place.
- **Stains Not Coming Off:** For stubborn stains, ensure you are cleaning the liners promptly after spills. While dishwasher safe, some dried-on residues may require a pre-soak or gentle scrubbing with a non-abrasive sponge.
- **Damage to Liners:** Avoid using sharp objects or abrasive cleaners on the liners, as this can cause damage. Ensure the stove is cool before installing or removing liners.

If problems persist, please contact Premium-Plus customer support for further assistance.

Specifications

Manufacturer	Premium Plus Inc
Part Number	WPL20T14A32568
Item Weight	12 ounces
Package Dimensions	18 x 12 x 0.2 inches
Item Model Number	WFG371LVS
Size	WFG371LVS
Color	Black
Shape	Rectangular
Item Package Quantity	1 (Set of 2 liners)
Heat Resistance	Up to 500°F
Material Properties	PFOA & BPA Free, Eco-friendly
