SETUP AND ASSEMBLY

Assembly is required for this bookshelf. Clear instructions and labeled parts are included to facilitate the process. It is recommended to have a second person assist with assembly for easier handling and stability.

1. **Unpack and Identify:** Carefully unpack all components and lay them out on a clean, soft surface (e.g., a blanket or carpet) to prevent scratches. Identify each part using the provided labels and the parts list in the instruction manual.
2. **Assemble Frame:** Begin by attaching the side panels to the base and top panels using the designated hardware. Ensure all connections are secure.
3. **Install Shelves:** Insert the six shelves into the pre-drilled holes. The shelves are fixed and not adjustable.
4. **Attach Back Panel:** Secure the back panel to the frame. The tongue and groove design provides additional reinforcement.
5. **Install Tipover Resistance Device:** Locate the designated attachment points on the top rear of the bookshelf. Secure the tipover resistance device to the wall stud using appropriate hardware. This step is critical for safety.
