## ALPINA A7282

# ALPINA Double Jack Mag Q Ski Goggles User Manual

## INTRODUCTION

Welcome to your ALPINA Double Jack Mag Q ski goggles. This manual provides essential information for the proper use, care, and maintenance of your new ski goggles, ensuring optimal performance and longevity. Please read these instructions carefully before using your goggles.

## KEY FEATURES

- Detachable Magnetic Lens:** Allows for instant and easy adaptation to changing weather and brightness conditions.
- QUATTROFLEX Lens Technology:** The base lens features QUATTROFLEX (polarized) technology, designed to reduce irregular reflections and provide clear vision without glare.
- Full UV Protection:** All lenses are treated to protect your eyes from harmful UV rays.
- Eyewear Compatible Design:** The frame is specifically designed to be comfortable for users wearing prescription eyeglasses underneath.
- Visible Light Transmittance (VLT):** Base lens VLT is 46%; with the magnetic lens attached, VLT is 9%.

## PRODUCT OVERVIEW

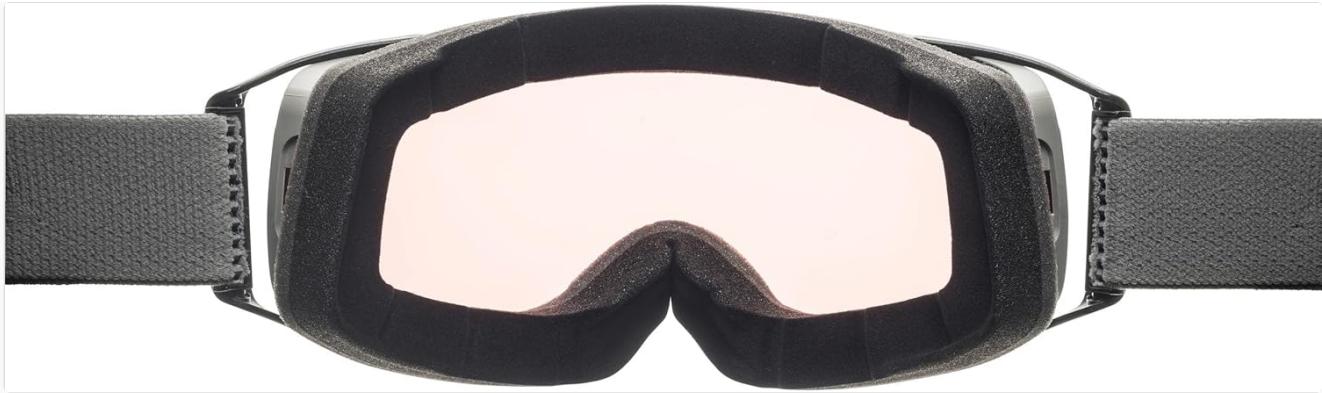

**Figure 1:** Side view of the ALPINA Double Jack Mag Q ski goggles, showcasing the frame and strap.

**Figure 2:** Front view of the ALPINA Double Jack Mag Q ski goggles, highlighting the main lens.

**Figure 3:** Interior view of the goggles, showing the foam padding for comfort and fit.

**Figure 4:** Goggles with the darker magnetic outer lens securely attached, ready for bright conditions.

**Figure 5:** Goggles with the magnetic outer lens detached, revealing the lighter base lens for lower light conditions.

## SETUP AND ADJUSTMENT

### Unpacking

Carefully remove the goggles from their packaging. Inspect for any visible damage. Keep the protective film on the lens until ready for use.

### Strap Adjustment

The goggle strap is adjustable to ensure a secure and comfortable fit. Adjust the strap length evenly on both sides until the goggles fit snugly around your head or helmet without being too tight. The strap should hold the goggles firmly in place without causing pressure points.

### Helmet Compatibility

These goggles are designed to be compatible with most ski and snowboard helmets. Ensure a seamless fit between the top edge of the goggles and the brim of your helmet to prevent gaps and maximize comfort and protection.

## OPERATING INSTRUCTIONS

## Attaching and Detaching the Magnetic Lens

The ALPINA Double Jack Mag Q features a magnetic lens system for quick changes. To attach the magnetic lens, align it with the base lens and allow the magnets to snap it into place. Ensure it is securely seated around the entire frame. To detach, gently pull the magnetic lens away from the frame, starting from one corner.

## Wearing with Eyeglasses (OTG - Over The Glasses)

These goggles are designed to accommodate prescription eyeglasses. Carefully place your eyeglasses on your face first, then position the goggles over them. The frame's design provides sufficient space to prevent pressure on your eyeglasses, ensuring comfort and clear vision.

## Ventilation

The goggles are equipped with ventilation systems to minimize fogging. Avoid blocking the vents with your helmet or other gear. If fogging occurs, try to increase airflow by slightly adjusting your helmet or goggles.

## CARE AND MAINTENANCE

### Cleaning the Lens

- Exterior Lens:** Gently wipe the outer lens with the provided microfiber goggle bag or a soft, lint-free cloth. For stubborn dirt, lightly dampen the cloth with water. Avoid harsh chemicals or abrasive materials.
- Interior Lens:** The inner lens has an anti-fog coating. **Do not wipe the inner lens.** If it gets wet, gently dab it with a soft cloth and allow it to air dry. Wiping can damage the anti-fog coating.

### Cleaning the Frame and Strap

Wipe the goggle frame and strap with a damp cloth and mild soap if necessary. Rinse thoroughly and allow to air dry completely before storage.

## Storage

Store your goggles in the provided goggle bag or a protective case when not in use. Keep them in a cool, dry place away from direct sunlight and extreme temperatures. Avoid placing them face down on hard surfaces to prevent scratches.

## TROUBLESHOOTING

### Fogging

- Ensure proper ventilation by not blocking air vents.
- Avoid placing goggles on your forehead, as this can transfer moisture and heat from your skin.
- Do not wipe the inner lens, as this can damage the anti-fog coating.

### Lens Scratches

- Always store goggles in their protective bag or case.
- Clean lenses only with appropriate soft cloths and avoid abrasive materials.

### Magnetic Lens Not Attaching Securely

- Ensure the magnetic lens and frame are clean and free of debris that might obstruct the magnets.

- Align the lens carefully before allowing the magnets to engage.

## TECHNICAL SPECIFICATIONS

- **Model Number:** A7282
- **Department:** Unisex
- **Lens Technology:** QUATTROFLEX (polarized base lens)
- **UV Protection:** 100% UV-A, -B, -C protection
- **Eyewear Compatibility:** Yes (OTG design)
- **Visible Light Transmittance (VLT):** Base lens: 46%, With magnetic lens: 9%
- **Date First Available:** August 8, 2022

## WARRANTY AND CUSTOMER SUPPORT

### Warranty Information

The ALPINA Double Jack Mag Q ski goggles come with a 2-year warranty, effective from the date of purchase. To validate your warranty, proof of purchase history is required. This warranty is limited to use within Japan.

- **Initial Defects:** If an initial defect is identified, the product will be exchanged free of charge. If the exact product is unavailable due to stock circumstances, a suitable replacement may be offered.
- **Repairs Under Normal Conditions:** Repairs for issues arising under normal use will be conducted free of charge. Please note that replacement parts may vary from original components. If repair is not feasible, a free replacement will be provided.

### Contact Support

For warranty claims, technical assistance, or any product-related inquiries, please refer to the official ALPINA website or contact your authorized retailer. You may also visit the [ALPINA Store on Amazon](#) for additional information.
