# Backyard Discovery 100 Qt. Acacia Patio Cooler Instruction Manual

Model: 2204010

## 1. PRODUCT OVERVIEW

---

The Backyard Discovery 100 Qt. Acacia Patio Cooler is designed for outdoor entertaining, offering a spacious capacity and durable construction. Crafted from naturally water-resistant Acacia wood, this cooler features an insulated liner to keep beverages cold for extended periods. Its mobile design with locking casters and convenient accessories like a bottle opener and towel racks make it a functional addition to any patio or backyard.

## 2. KEY FEATURES

---

- **Spacious 100-Quart Capacity:** Accommodates a large quantity of beverages and ice for gatherings.
- **Durable Acacia Wood Construction:** Made from naturally durable and water-resistant Indonesian Acacia wood, finished with natural Linseed Oil for enhanced protection.
- **Easy Open Lid with Air Shock Hinges:** Provides smooth and controlled opening and closing of the lid, preventing sudden drops.
- **Insulated Soft Liner:** Features a TPE insulated soft liner designed to hold ice for up to 8 hours.
- **Removable Liner with Drain:** The liner can be easily removed for cleaning and includes a convenient drain for water disposal.
- **Solid Block Surface:** The top surface provides a stable area for food and drink preparation.
- **Premium Locking Casters:** Equipped with wheels that lock in place, allowing for easy movement and secure positioning.
- **Integrated Accessories:** Includes attached towel racks and a bottle opener for added convenience.

- **Waterproof Cover:** A protective cover is included to shield the cooler from elements for year-round protection.

### 3. WHAT'S IN THE BOX

---

Please ensure all components are present before beginning assembly.

- Acacia Patio Cooler (disassembled components)
- TPE Insulated Soft Liner
- Waterproof Cover
- Bottle Opener (pre-attached or to be attached)
- Towel Racks (to be attached)
- Assembly Hardware (screws, bolts, etc.)
- Instruction Manual

### 4. SETUP AND ASSEMBLY

---

Assembly is required for this product. Please follow the detailed instructions provided in the separate assembly guide included with your purchase. Ensure you have adequate space and the necessary tools (e.g., screwdriver, wrench) before starting.

#### 4.1 Key Assembly Points

- **Lid Installation:** The lid features air shock hinges for smooth operation. Install carefully according to the assembly guide to ensure proper function.

Figure 4.5: Integrated bottle opener for convenience.

## 5. OPERATING INSTRUCTIONS

---

### 5.1 Cooling Performance

The TPE insulated soft liner is designed to maintain ice for up to 8 hours, depending on ambient temperature and frequency of lid opening. For optimal cooling, pre-chill the cooler before adding ice and beverages.

Figure 5.1: The insulated liner keeps contents cold for up to 8 hours.

## 5.2 Mobility and Stability

To move the cooler, unlock the casters by flipping the lever on each wheel. Once in the desired location, lock the casters to prevent unintended movement and ensure stability.

## 5.3 Using the Solid Block Surface

The solid wood top surface can be used as a convenient area for preparing drinks, holding snacks, or as a temporary resting place for items during outdoor activities.

## 6. MAINTENANCE

### 6.1 Cleaning the Liner

The TPE insulated soft liner is removable for easy cleaning. After each use, remove the liner, empty any remaining ice and water through the drain, and wipe it down with a mild soap and water solution. Rinse thoroughly and allow to air dry completely before reinserting.

### 6.2 Wood Care

The Acacia wood is treated with a natural Linseed Oil finish. To maintain the wood's appearance and water resistance, periodically reapply a suitable wood oil or sealant designed for outdoor furniture. Clean the wood surfaces with a damp cloth and mild soap as needed, avoiding harsh chemicals.

### 6.3 Using the Waterproof Cover

Utilize the included waterproof cover when the cooler is not in use or during inclement weather to protect it from rain, dust, and UV exposure. This will help prolong the life and appearance of your cooler.

Figure 6.1: The included waterproof cover protects the cooler from the elements.

## 7. TROUBLESHOOTING

---

- **Lid not closing smoothly:** Check air shock hinges for any obstructions or damage. Ensure all screws are tightened.
- **Ice melting too quickly:** Verify the liner is properly seated and the lid is fully closed. Pre-chill the cooler before use. Avoid frequent opening of the lid.
- **Casters not locking/unlocking:** Inspect the locking mechanism on each caster for debris or damage. Clean as necessary.
- **Wood discoloration/wear:** This is normal with natural wood products exposed to elements. Regular application of wood oil or sealant (as per Section 6.2) can help restore and protect the finish.

## 8. SPECIFICATIONS

---

Feature	Detail
Brand	Backyard Discovery
Model Number	2204010
Capacity	100 Quarts
Material	Acacia Wood (exterior), TPE (liner)
