PRODUCT OVERVIEW

The Sena Outrush R is a Bluetooth modular motorcycle helmet engineered for seamless communication and an enhanced riding experience. It integrates Sena's world-class audio Bluetooth system directly into the helmet, providing a sleek and versatile design. Riders can enjoy integrated speakers and a microphone, along with smartphone pairing capabilities for accessing music, making and receiving phone calls, and receiving GPS directions while on the road.

Key Features:

- Modular helmet design with retractable sun visor for adaptable use in various riding conditions.
- Integrated speakers and microphone with a three-button control system located on the left side for easy access.

- Powered by Bluetooth 5.0, supporting 4-way Intercom for group communication and 2-way HD Intercom for enhanced audio clarity with a single rider.
- Impressive intercom range of up to 900 meters (0.5 miles).
- Extended talk time of up to 12 hours.
- Device connectivity for phone calls, music streaming, and GPS navigation.
- Audio Multi-tasking allows simultaneous intercom communication and device media playback.
- Voice prompts available in 11 different languages.
- Complies with US Federal Motor Vehicle Safety Standard 218 (FMVSS 218) and is DOT/ECE certified.

SETUP AND INITIAL USE

Before your first ride, ensure your Sena Outrush R helmet is properly set up and charged.

Charging the Helmet:

Connect the helmet to a power source using the provided charging cable. The LED indicator will show charging status. A full charge provides up to 12 hours of talk time.

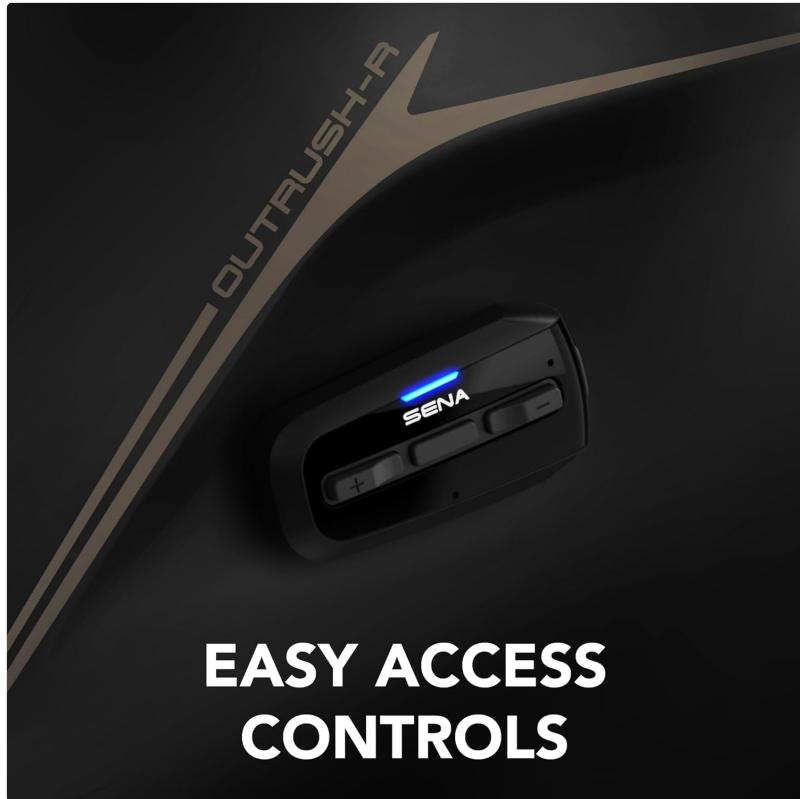

Powering On/Off:

- To Power On: Press and hold the main button until you hear an audible prompt.
- To Power Off: Press and hold the main button until you hear an audible prompt indicating power off.

Smartphone Pairing:

The Outrush R utilizes Bluetooth 5.0 for seamless device connectivity. To pair with your smartphone:

1. Ensure Bluetooth is enabled on your smartphone.
2. Put the helmet into pairing mode (refer to the quick start guide for specific button combinations).
3. Select "Sena Outrush R" from the list of available Bluetooth devices on your phone.
4. Once paired, you can make/receive calls, listen to music, and hear GPS directions through the helmet's integrated speakers.

EASY ACCESS CONTROLS
