

SPACETALK Adventurer

SPACETALK Adventurer 4G Smart Watch User Manual

Model: Adventurer (RY-R23I-GEA0)

INTRODUCTION

The SPACETALK Adventurer 4G Smart Watch is designed to provide communication and safety features for children. This manual will guide you through the setup, operation, maintenance, and troubleshooting of your device.

Image: The SPACETALK Adventurer Smart Watch, showcasing its video calling capability.

1. SETUP

1.1 Unboxing and Initial Charge

Upon unboxing your SPACETALK Adventurer, ensure all components are present: the smartwatch, charging cable, and pre-installed SIM card. Connect the charging cable to the watch and a power source. A full charge is recommended before first use. Note that the charging connection may require careful placement to ensure a stable connection.

Image: The charging dock for the SPACETALK Adventurer Smart Watch.

1.2 SIM Card Activation and App Installation

The Adventurer comes with a pre-installed SIM card. To activate its full functionality, a SPACETALK Mobile plan is required. Download the SPACETALK App on your smartphone (available for iOS and Android). The app is essential for managing the watch's features, including contacts, GPS tracking, and settings.

Image: SPACETALK Adventurer Smart Watch, mobile app, and SIM card.

1.3 Device Pairing

Follow the on-screen instructions on the watch and within the SPACETALK App to pair your device. This process links the watch to your account, enabling remote management and communication features. Ensure a stable internet connection during pairing.

2. OPERATING YOUR SMART WATCH

2.1 Basic Navigation

The SPACETALK Adventurer features a touch screen for navigation. Swipe left or right to access different applications and settings. Tap icons to select functions. The screen size is 1.4 inches.

2.2 Communication Features

- **4G Phone and Video Calling:** Make and receive calls from approved contacts. The watch supports video calls for face-to-face communication.
- **SMS Text and Chat:** Send and receive text messages and engage in secure encrypted chats with contacts managed through the app.
- **Safe Contact List:** Only contacts approved by the parent/guardian via the SPACETALK App can communicate with the watch, blocking unknown callers and texts.

HD Video Calling

See your child's face in brilliant high definition.

Image: HD Video Calling feature on the SPACETALK Adventurer.

2.3 Safety and Location Features

- **GPS Location Tracking:** Real-time GPS allows monitoring of the watch's location via the SPACETALK App.
- **Safe Zones:** Set up designated safe areas. The app will alert you if the watch enters or exits these zones.
- **Emergency SOS:** In an emergency, the wearer can activate an SOS alert, notifying pre-selected contacts with their location.

Image: GPS Locator and Safe Zones features.

2.4 Additional Features

- **5MP Camera:** Capture photos directly from the watch.
- **School Mode:** Configure settings to limit watch functions during school hours, preventing distractions.
- **Health & Fitness Tracking:** Monitor steps and heart rate to track activity levels.
- **No Social Media or Web Browser:** The watch is designed without access to social media platforms or web browsing for a focused and safer experience.

Image: Overview of SPACETALK Adventurer features.

3. MAINTENANCE

3.1 Cleaning

Wipe the watch screen and body with a soft, dry, lint-free cloth. Avoid using abrasive materials or harsh chemicals, which can damage the screen and finish.

3.2 Water Resistance

The SPACETALK Adventurer is rated IP67 splashproof. This means it is resistant to splashes and brief immersion in shallow water. It is not designed for swimming, showering, or prolonged exposure to water. Avoid exposing the watch to heavy sweat, as this may also lead to moisture ingress and damage.

Image: Durability features including IP67 water resistance.

3.3 Battery Care

Charge the watch regularly. While the battery life is designed to last a full day, consistent charging habits will prolong battery health. Ensure the charging cable is securely attached to the watch to prevent interruptions during charging.

4. TROUBLESHOOTING

- **Device Not Pairing:** Ensure the watch is fully charged, the SPACETALK App is updated, and your smartphone has a stable internet connection. Restart both the watch and your phone, then attempt pairing again.
- **"No Service" or SIM Card Issues:** Verify that the SIM card is correctly inserted and activated with a SPACETALK Mobile plan. If issues persist, contact your mobile service provider or SPACETALK support.
- **Overheating During Charging:** If the watch indicates overheating during charging, disconnect it immediately. Ensure you are using the provided charging cable and a compatible power adapter. Avoid charging in direct sunlight or hot environments.
- **Unresponsive Touchscreen:** Restart the watch. If the issue continues, ensure the screen is clean and dry. Persistent unresponsiveness may indicate a hardware issue.
- **Inaccurate GPS Location:** GPS accuracy can be affected by environmental factors (e.g., dense

buildings, indoors). Check the SPACETALK App settings for location update frequency and ensure the watch has a clear view of the sky for optimal performance.

- **Short Battery Life:** Adjust screen brightness, reduce the frequency of location updates, and close unused applications to conserve battery. Ensure the watch is fully charged before each use.

5. SPECIFICATIONS

Feature	Detail
Model Number	RY-R23I-GEA0
Product Dimensions	1.77 x 1.85 x 0.63 inches
Item Weight	10.2 ounces
Screen Size	1.4 Inches
Memory Storage Capacity	8 GB
RAM Memory Installed Size	1 GB
Operating System	Android 8.1
Battery Capacity	750 Milliamp Hours
Connectivity Technology	Bluetooth, Cellular (4G)
Wireless Communication Standard	802.11bgn, Bluetooth
Special Features	Camera, GPS
Water Resistance Rating	IP67 (Splashproof)

Return Form

Instructions

- Please complete this Return Package to enable you to complete this form. Our support team will assist you, and if necessary, issue you a return material authorization (RMA) number. Subject to our laws, Spacetrack reserves the right to reject any return or RMA for which we have not obtained, or if it has been previously completed.
- Complete this form and attach the original proof of purchase.
- Carefully package items and return to Specific Customer Support at the address indicated below.
- It is your responsibility to ensure that all details listed on this form are accurate as those will be used to contact you and to return your Spacetrack.

Please note: It is your responsibility to ensure that all personal data is deleted before the product is returned to Spacetrack. Goods presented may receive no additional goods of the same type after being received. Refund partial parts may be used to repeat the goods.

SpaceTalk Approved as an NDIS Registered Provider

Highlights

- SpaceTalk approved as a Registered Provider by the National Disability Insurance Agency (NDIA) effective immediately
- Participants in the National Disability Insurance Scheme (NDIS) are able to access SpaceTalk smartphone watches under their plans, funded under the NDIS
- As a Registered Provider, SpaceTalk is able to more directly, effectively and affordably support participants in the scheme
- More than half of all participants in the scheme are children

SpaceTalk Ltd (ASX:SP4 "SpaceTalk" or "Company"), developer of innovative technologies that keep families safe and connected, is pleased to announce that the National Disability Insurance Agency (NDIA) has approved SpaceTalk as a Registered Provider (Organisation ID: 4070000566) of assistive technologies under the registration group "Assistive Products for Personal and Family Use."

This means that the Company's smartphone watches for children and seniors are eligible to be purchased by participants in the National Disability Insurance Scheme ("NDIS") utilising their Government funded under the scheme to support their daily disability.

As an NDIS Registered Provider, SpaceTalk is able to more directly, effectively and affordably support participants in the scheme. Whereas previously SpaceTalk devices could have been purchased by NDIS participants only through a Self-Managed plan or a plan managed by an intermediary Plan Manager, the purchase can now be made directly by the NDIS paying SocialCare on behalf of the participant. Participants are eligible to use SpaceTalk devices under all plans managed by the NDIA. Participants are eligible to use SpaceTalk devices under all plans managed by the NDIA.

As a result of the approval of SpaceTalk as a registered NDIS provider, all relevant future contracts released by the Company that fall under the same registration group "Assistive Products for Personal Care and Safety (1025)" will automatically become available to participants in the NDIS.

Nordic's Largest Electronics Retailer Elkjøp to sell Spacetalk

Highlights

- Nordic electronic retailer Elkjöp to range Spacetalk Adventurer in-store and on-line
- Targeted launch in November 2021 and follows Spacetalk's Nordic expansion through Elisa Mobile

Spacetak Ltd. (ASX:SPA) ("Spacetak"), developer of innovative technologies that keep families safe and connected, is pleased to announce that Eljapp will range Spacetak Adventurer across its Norway flagship retail stores and online channels.

Elkjøp, with 420 stores in the Nordics and over 800 stores in total, is by far the largest electronics retailer in the Nordic countries, with retail outlets established in Norway, Sweden, Denmark, and Finland, in addition to franchise operations in Greenland, Iceland, and the Faroe Islands. Elkjøp is a part of and owned by Dicox Carphone plc, the market leader in the UK and Ireland, Nordics and Greece.

Spacetalk and Elkjøp are targeting to launch in November 2021, with the Adventurer smartphone watch to initially range in Elkjøp's 60 largest flagship stores in Norway and on-line across all five Nordic countries.

Spacetalk Adventurer received Global Certification Forum certification¹ in October 2021 and Spacetalk watches and App have been upgraded to support key European languages, including all Nordic languages, positioning Spacetalk for further and faster global expansion.

Spacetalk CEO Mark Fortunatow said: "We are very excited that Elqap has joined the Spacetalk family to distribute our all-in-one smartphone watches. The Nordic region has advanced awareness and uptake of the connected kids wearables category, and Elqap in particular has significant experience and a strong sales track record in the connected kids smartwatch phone category."
