iTEKIRO HXY065-19

iTEKIRO AC Adapter User Manual

Model: HXY065-19

INTRODUCTION

This manual provides essential instructions for the safe and efficient use of your iTEKIRO AC Adapter, Model HXY065-19. This adapter is designed to provide reliable power to compatible laptops, including various EVOO EVC156 series and AVITA Clarus Liber models. Please read this manual thoroughly before using the product.

IMPORTANT SAFETY INFORMATION

- **Voltage Compatibility:** This 19V adapter is **NOT** compatible with laptops requiring 5V or 12V input. Always verify the input voltage requirement on your laptop's bottom label or manufacturer's specifications before connecting the adapter. Incorrect voltage can damage your device.
- **Indoor Use Only:** This adapter is designed for indoor use in dry conditions. Do not expose it to rain, moisture, or extreme temperatures.
- **Proper Connection:** Connect the adapter only to grounded outlets. Ensure the AC power cord is fully inserted into both the adapter and the wall outlet.
- **Avoid Overloading:** Do not overload electrical outlets or extension cords.
- **Cable Care:** Do not place heavy objects on the power cord or allow it to be pinched or sharply bent. Avoid placing the cord in high-traffic areas where it could be tripped over.
- **Disconnection:** Always grasp the plug, not the cord, when disconnecting the adapter from the power source.
- **Damage:** Do not use the adapter if the cord or plug is damaged. Contact customer support for assistance.
- **Ventilation:** Ensure adequate ventilation around the adapter during use. Do not cover it or place it in an enclosed space that could restrict airflow.

PACKAGE CONTENTS

Verify that all items are present in your package:

- iTEKIRO AC Adapter (Model HXY065-19)
- 2-prong U.S. AC Power Cord (UL listed, 6 ft)

This image displays the iTEKIRO AC adapter unit, its integrated DC output cord with a proprietary barrel plug, and the separate 2-prong AC input power cord.

SETUP INSTRUCTIONS

1. **Connect AC Power Cord:** Insert the 2-prong U.S. AC power cord firmly into the AC input port on the iTEKIRO AC adapter.
2. **Connect to Wall Outlet:** Plug the other end of the 2-prong AC power cord into a standard, grounded 100-240V AC wall outlet.
3. **Connect to Laptop:** Carefully insert the proprietary barrel plug of the DC output cord into the power input port on your compatible laptop. Ensure the connection is secure.
4. **Verify Power:** Once connected, the LED power indicator on the adapter should illuminate, indicating that power is being supplied.

Extra Long Power Cord

6 ft AC cord
+ **6 ft** DC cord

A laptop is shown connected to the iTEKIRO AC adapter, illustrating the extended length of both the AC and DC power cords for flexible placement.

OPERATING INSTRUCTIONS

The iTEKIRO AC Adapter is designed for simple plug-and-play operation:

- Once properly connected to a power source and your laptop, the adapter will automatically begin supplying power and charging your laptop's battery (if applicable).
- The adapter features an **LED Power Indicator**. When the adapter is receiving power and functioning correctly, this LED will illuminate (typically green).
- The extra-long 6 ft AC power cord and 6 ft DC power cord provide flexibility in positioning your laptop and adapter.

Intelligent Safety Protection

A close-up view of the iTEKIRO AC adapter unit, clearly showing the green LED power indicator light when the unit is active.

MAINTENANCE

To ensure the longevity and optimal performance of your iTEKIRO AC Adapter, follow these maintenance guidelines:

- **Cleaning:** Disconnect the adapter from all power sources before cleaning. Use a soft, dry cloth to wipe the exterior. Do not use liquid cleaners or solvents.
- **Storage:** When not in use, store the adapter in a cool, dry place. Avoid tightly wrapping the cords, as this can cause damage over time. Use the included hook-and-loop fastener to neatly bundle the cords.
- **Inspection:** Periodically inspect the power cords and adapter casing for any signs of damage, such as cuts, fraying, or cracks. If damage is found, discontinue use and replace the adapter.
- **Environmental Conditions:** Avoid exposing the adapter to extreme temperatures, direct sunlight, or high humidity.

TROUBLESHOOTING

If you encounter issues with your iTEKIRO AC Adapter, refer to the following common troubleshooting steps:

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Adapter LED is off, laptop not charging.	No power from wall outlet; loose connection; damaged cord/adapter.	Ensure the wall outlet is functional by testing with another device. Check that both the AC power cord and DC plug are securely connected. Inspect cords for visible damage. If damaged, discontinue use.
Laptop not charging, but adapter LED is on.	Incorrect voltage/amperage; laptop's charging port issue; laptop battery issue.	Verify the adapter's output voltage (19V) matches your laptop's requirement. Try restarting your laptop. If possible, test with another compatible adapter or consult your laptop's manufacturer.
Adapter feels excessively hot.	Poor ventilation; adapter overload; internal fault.	Ensure the adapter is in an open area with good airflow. Disconnect the adapter and allow it to cool. If overheating persists, discontinue use.

If these steps do not resolve the issue, please contact iTEKIRO customer support.

SPECIFICATIONS

Brand	iTEKIRO
Model Number	HXY065-19
Input Voltage	100-240 Volts (AC)
Output Voltage	19 Volts (DC)
Wattage	65 watts
Connector Type	Proprietary Barrel Plug
Compatible Devices	Laptops (EVOO EVC156 series, AVITA Clarus Liber series, etc., requiring 19V)
Special Feature	Long Power Cord (6 ft AC + 6 ft DC)
Safety Certification	UL Listed (AC power cord)
Color	Black
Item Weight	4 pounds (Note: This weight is as provided in product data.)

Extra long **6 feet**
UL Listed
2-prong AC power cord

Extra long **6 feet**
DC power cord
