### Vente-unique TOMAKA

# Vente-unique TOMAKA 3-Seater Sofa Bed User Manual

Model: TOMAKA | Brand: Vente-unique

## INTRODUCTION

This manual provides essential information for the safe and effective use of your Vente-unique TOMAKA 3-seater sofa bed. Please read these instructions carefully before setup and operation, and retain them for future reference. The TOMAKA sofa bed is designed for comfort and versatility, easily converting from a stylish 3-seater sofa to a comfortable bed. It features a durable fabric cover, a robust wooden frame, and integrated storage for pillows.

## SAFETY INFORMATION

Always prioritize safety when handling and using your sofa bed.

- Delivery Access:** Before delivery, ensure that the dimensions of your doors and stairwells are sufficient to accommodate the sofa bed packages. Refer to the 'Specifications' section for package dimensions.
- Stable Placement:** Place the sofa bed on a flat, stable surface to prevent tipping or instability.
- Weight Distribution:** Distribute weight evenly when sitting or lying on the sofa bed. Avoid standing or jumping on the unit.
- Moving the Sofa:** When moving the sofa bed, lift it rather than dragging it to prevent damage to the feet or floor.
- Children and Pets:** Keep children and pets away from the conversion mechanism during operation to prevent injury.

## SETUP

The Vente-unique TOMAKA sofa bed requires minimal assembly. It is delivered in two packages.

- Unpacking:** Carefully unpack all components from both packages. Ensure all parts are present and undamaged.
- Positioning:** Place the sofa bed in your desired location. Ensure there is adequate space around the sofa for conversion to a bed, especially at the front for the pull-out mechanism.
- Final Checks:** Verify that the sofa bed is stable and level.

## OPERATING INSTRUCTIONS

---

The TOMAKA sofa bed features a quick and easy conversion mechanism.

### Converting from Sofa to Bed

- 1. Clear the Area:** Ensure there are no obstructions in front of the sofa that would impede the pull-out mechanism.
- 2. Locate Handle:** Reach behind the back cushions to locate the pull handle for the mattress mechanism.
- 3. Pull Out Mattress:** Gently pull the handle outwards. The mattress and frame will smoothly extend from the sofa base, unfolding into the bed position. Continue pulling until the mechanism is fully extended and locked into place.
- 4. Adjust Pillows:** If stored, retrieve pillows from the integrated storage space in the backrest.

## Converting from Bed to Sofa

- 1. Remove Bedding:** Remove any bedding, pillows, or blankets from the mattress.
- 2. Fold Mechanism:** Push the mattress and frame back towards the sofa base. The mechanism will fold inward. Ensure no fabric or bedding gets caught in the folding parts.
- 3. Securely Close:** Continue pushing until the mechanism is fully retracted and the sofa is in its upright, closed position.
- 4. Store Pillows:** Utilize the integrated storage space in the backrest for two pillows to keep them tidy and out of sight.

## MAINTENANCE AND CARE

Proper care will extend the life and appearance of your TOMAKA sofa bed.

- Fabric Cleaning:** The fabric cover is 100% polyester. The seat cushion covers are removable for easier cleaning. Follow the specific cleaning instructions provided on the care label of the fabric. Generally, spot clean with a damp cloth and mild detergent. Avoid harsh chemicals or abrasive cleaners.
- Regular Vacuuming:** Vacuum the sofa regularly using a soft brush attachment to remove dust and debris.
- Spill Management:** Blot spills immediately with a clean, dry cloth. Do not rub, as this can spread the stain.
- Sunlight Exposure:** Avoid prolonged exposure to direct sunlight to prevent fading of the fabric.
- Mechanism Care:** Periodically check the conversion mechanism for smooth operation. If it becomes stiff, a small amount of silicone spray on moving parts (avoiding fabric) may help, but consult a professional if issues persist.

## TROUBLESHOOTING

If you encounter any issues with your TOMAKA sofa bed, please refer to the following common solutions:

Problem	Possible Cause	Solution
Sofa bed mechanism is stiff or difficult to operate.	Lack of lubrication; obstruction; mechanism misalignment.	Ensure no fabric or objects are caught. Gently try to operate it. If persistent, a professional may need to inspect and lubricate moving parts.
Sofa feels unstable or wobbly.	Uneven floor; loose feet.	Ensure the sofa is on a level surface. Check if the PVC feet are securely attached.
Fabric appears stained or dirty.	Spills; accumulated dirt.	Refer to the 'Maintenance and Care' section for cleaning instructions. For stubborn stains, professional upholstery cleaning may be required.
