Proper care and maintenance will extend the life and appearance of your sofa.

4.1 Cleaning the Faux Leather

- For general cleaning, wipe the faux leather surface with a soft, damp cloth.

- For stubborn stains, use a mild soap solution diluted with water. Apply with a soft cloth, then wipe clean with a damp cloth and dry thoroughly.
- Avoid using harsh chemicals, abrasive cleaners, or solvents, as these can damage the faux leather.

4.2 Cushion Care

- The seat cushions are removable and easy to clean. Refer to the care label on the cushion covers for specific cleaning instructions.
- Regularly fluff and rotate cushions to maintain their shape and prolong their lifespan.

4.3 General Care

- Keep the sofa away from direct sunlight and heat sources to prevent fading and material degradation.
- Periodically check and tighten all screws and bolts, especially those on the feet, to ensure stability.

5. TROUBLESHOOTING

This section addresses common issues you might encounter with your sofa.

5.1 Instability/Wobbling

- **Issue:** The sofa feels unstable or wobbles.
- **Solution:** Check that all feet are securely attached and tightened. Ensure the sofa is placed on a level surface. If the floor is uneven, consider using furniture pads or shims under the feet.

5.2 Squeaking Noises

- **Issue:** The sofa makes squeaking noises when in use.
- **Solution:** Squeaking can sometimes be caused by loose joints. Re-tighten all visible screws and bolts. If the issue persists, it may indicate an internal frame issue, and professional inspection might be required.

5.3 Cushion Sagging

- **Issue:** Cushions appear to be losing their shape or firmness.
- **Solution:** Regularly fluff and rotate the seat cushions. This helps redistribute the foam and maintain its resilience.
