## MCBOB XB1118

# MCBOB XB1118 Electric Ride-On Car for Kids User Manual

Model: XB1118

## 1. INTRODUCTION

---

Thank you for choosing the MCBOB XB1118 Electric Ride-On Car. This manual provides essential information for the safe assembly, operation, and maintenance of your new ride-on car. Please read it thoroughly before use and retain it for future reference.

The MCBOB XB1118 is designed to provide an engaging and safe driving experience for children, featuring innovative parent-child driving capabilities, robust construction, and multiple control modes.

## 2. SAFETY INFORMATION

---

Your child's safety is our top priority. Please adhere to all safety guidelines to ensure a secure and enjoyable experience.

- Always supervise children during operation.
- Ensure the three-point high-quality nylon tightly woven seat belt is securely fastened before driving.
- The vehicle features lockable doors for added security. Ensure they are properly closed.
- The slow-start electric system and reliable braking system are designed for stable and safe driving.
- Recommended age for use is 3 years and up.
- Maximum weight capacity for the parent-child driving feature is 220 pounds.
- Only use the product on flat, dry surfaces. Avoid steep inclines, rough terrain, or wet conditions.
- All materials used in the MCBOB XB1118 meet international safety standards.

### 3. SETUP AND ASSEMBLY

---

The MCBOB XB1118 is designed for straightforward assembly. Follow the instructions provided in the included assembly guide. Key steps include:

- **Battery Charging:** Before first use, fully charge the included 12V battery. Charging time is approximately 12 hours.
- **Wheel Installation:** Attach the wheels, noting the front and rear high-carbon all-steel buffer spring suspension for effective shock absorption.
- **Seat Installation:** Securely install the seat. The rear seat can be disassembled to convert into a large storage box.
- **Wiring Connections:** Ensure all electrical connections are firm and correct as per the assembly diagram.

### 4. OPERATING INSTRUCTIONS

---

The MCBOB XB1118 offers versatile driving modes for different ages and preferences.

#### 4.1 Driving Modes

- **Automatic Driving Mode:** Suitable for younger children. Click the green button on the steering wheel to start the car.
- **Pedal Driving Mode:** Allows the child to control acceleration using the foot pedal, providing a more realistic

driving experience.

- **Remote Control Mode:** Parents can control the car using the included remote control, ideal for guiding younger children or for safety intervention.

Image: Triple Control. The MCBOB XB1118 offers three distinct ways to operate the vehicle.

## 4.2 Parent-Child Driving Feature

The unique parent-child driving feature allows an adult to sit in the back seat with the child. The rear seat supports a maximum load of 220 pounds and can be converted into a storage box when not in use for parent-child driving.

## 5. MAINTENANCE

Proper maintenance ensures the longevity and performance of your MCBOB XB1118.

- **Battery Care:** Always fully charge the battery after each use. If storing for an extended period, charge the battery at least once a month to maintain its health.
- **Cleaning:** Wipe the car with a damp cloth. Avoid using harsh chemicals or abrasive cleaners.
- **Storage:** Store the car in a dry, cool place away from direct sunlight and moisture.
- **Motor:** The upgraded all-steel motor is designed for durability and strong grip. Regular checks for debris around the motor area are recommended.

## 6. TROUBLESHOOTING

If you encounter issues with your MCBOB XB1118, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Car does not move or moves slowly.	Low battery charge; Loose wiring connection; Overload.	Ensure battery is fully charged. Check all wiring connections. Reduce load (max 220 lbs).
Remote control not working.	Remote control battery low; Not paired correctly.	Replace remote control batteries. Refer to pairing instructions in the full manual.
Music player not functioning.	USB device not recognized; Wireless connection issue.	Ensure USB device is properly inserted and formatted. Re-establish wireless connection.

For persistent issues, please contact MCBOB customer support as detailed in Section 8.
