MAINTENANCE

Regular maintenance ensures optimal performance and longevity of your AC unit.

Filter Cleaning

The unit features a slide-out, reusable filter that should be cleaned regularly to maintain air quality and efficiency.

Slide-out & Reusable Filter

Image: Instructions for cleaning the slide-out reusable filter.

- Slide out the filter from its compartment.
- Rinse the filter under running water to remove dust and debris.
- Allow the filter to air dry completely before reinserting it into the unit.
- Clean the filter every two weeks or more frequently depending on usage and air quality.

TROUBLESHOOTING

If you encounter issues with your AC unit, refer to the following common problems and solutions.

Problem	Possible Cause	Solution
Unit does not turn on.	No power, power cord unplugged, circuit breaker tripped.	Check power connection, ensure outlet is functional, reset circuit breaker.

Problem	Possible Cause	Solution
Unit not cooling effectively.	Dirty air filter, blocked air vents, room too large, doors/windows open.	Clean air filter, clear obstructions, ensure room size is within specifications, close all doors and windows.
Water leakage.	Drain plug not properly sealed, unit tilted, drainage hose kinked.	Check and secure drain plug, ensure unit is level, straighten drainage hose.
Unusual noise.	Unit not on a level surface, internal component issue.	Place unit on a level surface. If noise persists, contact customer support.
Wi-Fi connection issues.	Incorrect Wi-Fi password, 5GHz network, unit too far from router.	Verify password, ensure 2.4GHz network, move unit closer to router.

For further assistance, please refer to the "Warranty and Support" section.

TECHNICAL SPECIFICATIONS

Specification	Value
Brand Name	Aigostar
