4. SETUP AND ASSEMBLY

Assembly of the tectake Melrose Industrial Dark Corner Desk is designed to be quick and straightforward. Follow these general steps. Refer to the included assembly diagram for detailed instructions on fastener placement.

1. **Unpack and Organize:** Carefully unpack all components and hardware. Lay them out on a clean, soft surface to prevent scratches. Group similar parts together.
2. **Assemble the Frame:** Begin by assembling the steel frame components according to the diagram. Secure all connections with the provided screws and bolts. Do not fully tighten all fasteners until the entire frame is assembled, allowing for minor adjustments.
3. **Attach Desktop Panels:** Once the frame is stable, carefully place the MDF desktop panels onto the frame. Align the pre-drilled holes with the frame's attachment points. Secure the desktop panels using the appropriate screws. Now, fully tighten all frame and desktop fasteners.
4. **Install Adjustable Feet:** Screw the six adjustable plastic feet into the bottom of the steel frame legs.
5. **Assemble Monitor Stand:** Assemble the monitor stand according to its specific instructions. The monitor stand is designed to be freely movable along the desktop and can be secured in place with locking screws.
6. **Position and Level:** Move the assembled desk to its desired location. Adjust the height of each plastic foot individually to compensate for any unevenness in the floor, ensuring the desk is perfectly level and stable.

5. OPERATING AND USAGE

The tectake Melrose Industrial Dark Corner Desk is designed for optimal functionality and comfort in a home office or study environment. Here are some key features and usage tips:

- **Spacious L-Shape:** The corner design provides ample surface area for multiple monitors, laptops, documents, and office accessories, allowing for an organized and efficient workspace.
- **Movable Monitor Stand:** The monitor stand can be positioned anywhere along the main desktop surface. This flexibility allows you to adjust your monitor's height and position for ergonomic comfort, reducing strain on your neck and back. Secure it in place using the integrated locking screws.
- **Generous Legroom:** The open design of the desk frame ensures plenty of legroom, allowing you to sit comfortably for extended periods.
- **Adjustable Feet:** Fine-tune the desk's stability and levelness by adjusting the individual plastic feet. This is particularly useful on uneven flooring.

6. MAINTENANCE

To ensure the longevity and appearance of your tectake Melrose Industrial Dark Corner Desk, follow these simple maintenance guidelines:

- **Regular Cleaning:** The MDF panels are coated with protective melamine, making them easy to clean. Wipe surfaces regularly with a soft, damp cloth. For stubborn marks, a mild, non-abrasive cleaner can be used, followed by wiping dry.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, solvents, or harsh chemicals, as these can damage the melamine coating and steel frame finish.
- **Protect from Moisture:** While the surface is water-resistant, avoid prolonged exposure to liquids. Wipe up spills immediately to prevent damage.
- **Check Fasteners:** Periodically inspect all screws and bolts to ensure they remain tight. Re-tighten any loose fasteners to maintain the desk's stability.
- **Avoid Excessive Heat:** Do not place extremely hot items directly on the desktop without a protective coaster or mat.

7. TROUBLESHOOTING

This section addresses common issues you might encounter with your desk. If you experience problems not covered here, please contact customer support.

7.1. Desk is Wobbly or Unstable

- **Check Leveling Feet:** Ensure all six adjustable plastic feet are making firm contact with the floor. Adjust them individually by rotating them until the desk is stable and level.
- **Tighten Fasteners:** Inspect all assembly screws and bolts. If any are loose, tighten them securely. Over time, fasteners can loosen with use.
- **Even Surface:** Ensure the desk is placed on a flat and even floor. Significant unevenness may require shims in addition to foot adjustments.

7.2. Monitor Stand Does Not Stay in Place

- **Tighten Locking Screws:** Ensure the locking screws on the monitor stand's clamps are fully tightened.
- **Check Weight:** Verify that the weight of your monitor and any items on the stand does not exceed the 25 kg (55 lbs) capacity.
