## BUFFBEE Alarm Clock with Wireless Charging Station

# BUFFBEE Alarm Clock with Wireless Charging Station User Manual

Model: Alarm Clock with Wireless Charging Station

## INTRODUCTION

Thank you for choosing the BUFFBEE Alarm Clock with Wireless Charging Station. This device combines a digital alarm clock with a versatile wireless charging stand, designed to charge your iPhone, Apple Watch, and AirPods simultaneously. It features a dimmable LED display, adjustable volume, and multiple safety protections to ensure efficient and secure charging. Please read this manual carefully before use to ensure proper operation and to maximize the lifespan of your product.

## WHAT'S IN THE BOX

Upon opening your package, please verify that all the following items are included:

- BUFFBEE Alarm Clock with Wireless Charging Station
- USB-C Charging Cable
- Power Adapter
- User Manual (this document)

## PRODUCT OVERVIEW

The BUFFBEE Alarm Clock with Wireless Charging Station is designed for convenience and efficiency. It features dedicated charging areas for your smartphone, Apple Watch, and AirPods, alongside a clear digital clock display.

### Key Features:

- **Digital Alarm Clock:** Features adjustable brightness and volume, with 12/24 hour format options.
- **Wireless Phone Charging:** Supports 15W, 10W, 7.5W, and 5W output for various wireless charging enabled smartphones.
- **Apple Watch Charging:** Dedicated magnetic charging spot for Apple Watch Series 2-7, SE.
- **AirPods Charging:** Wireless charging pad for AirPods 2 (with wireless charging case), AirPods 3, and AirPods Pro.
- **Safety Protections:** Built-in overcharge, overvoltage, overheat, and overcurrent protection.

## SETUP

Follow these steps to set up your BUFFBEE Alarm Clock with Wireless Charging Station:

- 1. Connect Power:** Insert the USB-C end of the charging cable into the port on the back of the charging station. Plug the other end of the cable into the provided power adapter, then plug the adapter into a wall outlet. The digital display will light up, indicating power is connected.
- 2. Place Devices:**
  - Smartphone:** Place your wireless charging enabled smartphone vertically or horizontally on the main charging stand. Ensure it is centered for optimal charging.
  - Apple Watch:** Place your Apple Watch on the magnetic charging disc at the top of the stand.
  - AirPods:** Place your AirPods (with wireless charging case) on the flat charging pad at the base of the unit.
- 3. Verify Charging:** A blue indicator light will briefly illuminate when a device is correctly placed and charging. Your device's screen will also show a charging icon.

## OPERATING INSTRUCTIONS

### Setting the Time

1. Press and hold the **Time Set** button (usually marked with a clock icon) for 3 seconds. The hour digits will begin to flash.
2. Use the + and - buttons to adjust the hour.
3. Press the **Time Set** button again to switch to minute adjustment. The minute digits will flash.
4. Use the + and - buttons to adjust the minutes.
5. Press the **Time Set** button one more time to confirm and exit time setting mode.
6. To switch between 12-hour and 24-hour format, briefly press the **Time Set** button when not in setting mode.

### Setting the Alarm

1. Press and hold the **Alarm Set** button (usually marked with an alarm clock icon) for 3 seconds. The alarm hour digits will flash.
2. Use the + and - buttons to adjust the alarm hour.
3. Press the **Alarm Set** button again to switch to alarm minute adjustment. The alarm minute digits will flash.
4. Use the + and - buttons to adjust the alarm minutes.
5. Press the **Alarm Set** button one more time to confirm and exit alarm setting mode.
6. To activate or deactivate the alarm, briefly press the **Alarm Set** button. An alarm icon will appear/disappear on the display.
7. When the alarm sounds, press any button to activate the snooze function (typically 9 minutes). To turn off the alarm completely, press and hold the **Alarm Set** button.

## Excellent Alarm Clock

-  Alarm
-  Snooze
-  Adjustable Brightness
-  12/24 Hour Format
-  Adjustable Volume

### Adjusting Display Brightness

The LED display has multiple brightness levels to suit your preference, especially for nighttime use.

1. Press the **Brightness** button (usually marked with a sun icon) repeatedly to cycle through the available brightness levels (e.g., 100%, 40%, 3%, 1%, 0% off).
2. Select the desired brightness level. The '0% off' setting turns the display completely off for undisturbed sleep.

### Adjusting Alarm Volume

The alarm volume can be adjusted to your preferred level.

1. While the alarm is sounding, or during alarm setting mode, press the **Volume** button (usually marked with a speaker icon) to cycle through the available volume levels.
2. Select the desired volume.

## MAINTENANCE

To ensure the longevity and optimal performance of your charging station, follow these maintenance guidelines:

- Cleaning:** Disconnect the power before cleaning. Use a soft, dry cloth to wipe the surface. Do not use abrasive cleaners, solvents, or chemical sprays.
- Avoid Liquids:** Keep the device away from water and other liquids. Do not operate with wet hands.
- Temperature:** Store and operate the device in a dry environment at room temperature. Avoid extreme heat or cold.
- Handling:** Handle the device with care. Avoid dropping or subjecting it to strong impacts.
- Power Supply:** Only use the provided power adapter and cable. Using unauthorized power sources may damage the device and void the warranty.

## TROUBLESHOOTING

If you encounter any issues with your BUFFBEE Alarm Clock with Wireless Charging Station, please refer to the following troubleshooting guide:

Problem	Possible Cause	Solution
Device is not powering on.	Power cable not connected properly; Power adapter faulty; Wall outlet not working.	Ensure the USB-C cable is securely connected to both the station and the power adapter. Try a different wall outlet. Verify the power adapter is functioning.

Problem	Possible Cause	Solution
Smartphone/AirPods not charging wirelessly.	Device not placed correctly; Device not wireless charging compatible; Phone case too thick; Foreign objects on charging pad.	Reposition the device to ensure it is centered on the charging pad. Remove any thick phone cases or metallic objects. Confirm your device supports Qi wireless charging.
Apple Watch not charging.	Watch not placed correctly; Watch charger not making contact; Watch model not supported.	Ensure the Apple Watch is securely placed on the magnetic charging disc. Remove any watch cases that might obstruct contact. This charger supports Apple Watch Series 2-7, SE.
Charging is slow or intermittent.	Using a non-original power adapter/cable; Device overheating; Multiple devices charging simultaneously.	Use the provided power adapter and cable. Ensure the device is in a well-ventilated area. Charging multiple devices may slightly reduce individual charging speeds.
Alarm clock display is too bright/dim.	Brightness setting needs adjustment.	Press the <b>Brightness</b> button to cycle through the 5 brightness levels, including 'off'.
Alarm is not sounding or is too quiet/loud.	Alarm not set or deactivated; Volume level too low/high.	Verify the alarm is activated (alarm icon visible). Adjust the alarm volume using the <b>Volume</b> button.
