1. INTRODUCTION

The MAYBESTA Professional Wireless Lavalier Lapel Microphone is designed for high-quality audio recording with ease of use. This cordless, omnidirectional condenser microphone system offers a plug-and-play experience, eliminating the need for messy cables, extra adapters, or complex applications. It is ideal for various applications including live streaming, music recording, interviews, YouTube videos, podcasts, and vlogging. Its compact and lightweight design ensures portability, allowing users to easily clip it onto clothing for hands-free operation. The microphone features intelligent noise reduction technology to deliver clear and professional audio by minimizing background noise and vocal echoing.

2. KEY FEATURES

- **Easy Automatic Connection:** No adapter, Bluetooth, or application is needed. Simply plug the receiver into your device (USB interface), turn on the portable mic, and the two parts will pair automatically. Ensure the USB OTG setting on your device is enabled.
- **Omnidirectional Sound Reception:** Equipped with a high-density spray-proof sponge and a high-sensitivity microphone, it captures sound clearly from all directions within a 50ft range (without obstacles).

- **Intelligent Noise Reduction:** Built-in noise-canceling technology effectively reduces vocal echoing and background noise, ensuring professional, clean, and clear audio.
- **Wide Compatibility:** Features a Type-C connector and a USB-A to Type-C charging cable, making it compatible with Android smartphones (Android 6.0 or above with USB-C), laptops, and personal computers with USB-A interfaces.
- **Compact and Exquisite Design:** The entire kit weighs approximately 20g, making it highly portable for outdoor recording or videoing. Its mini size allows for easy clipping onto collars or pockets, freeing your hands.

3. PACKAGE CONTENTS

Please check the package contents upon unboxing to ensure all components are present:

- 1 x MAYBESTA Wireless Lavalier Microphone (Transmitter)
- 1 x USB-C Receiver
- 1 x USB-A to Type-C Charging Cable
- 1 x User Manual (This document)

4. SETUP GUIDE

Follow these steps to set up your MAYBESTA Wireless Lavalier Microphone:

1. **Charge the Microphone:** Before first use, ensure both the microphone transmitter and the receiver are sufficiently charged using the provided USB-A to Type-C charging cable.

2. **Enable USB OTG (On-The-Go) on Your Device:** For Android devices, it is crucial to enable the USB OTG function in your device's settings. This allows the device to recognize external USB accessories like the microphone receiver. The exact location of this setting may vary by device model (e.g., Settings > System > OTG, or search for "OTG" in settings).
3. **Connect the Receiver:** Plug the USB-C receiver directly into the USB-C port of your Android smartphone or the USB-A port of your laptop/computer (using an appropriate adapter if necessary, though the receiver is USB-C).
4. **Power On the Microphone:** Press and hold the power button on the microphone transmitter. The LED indicator light on the microphone will illuminate.
5. **Automatic Pairing:** The microphone and receiver are designed to pair automatically upon power-on. Once successfully paired, the LED light on the microphone will typically turn solid green or blue, indicating a stable connection.

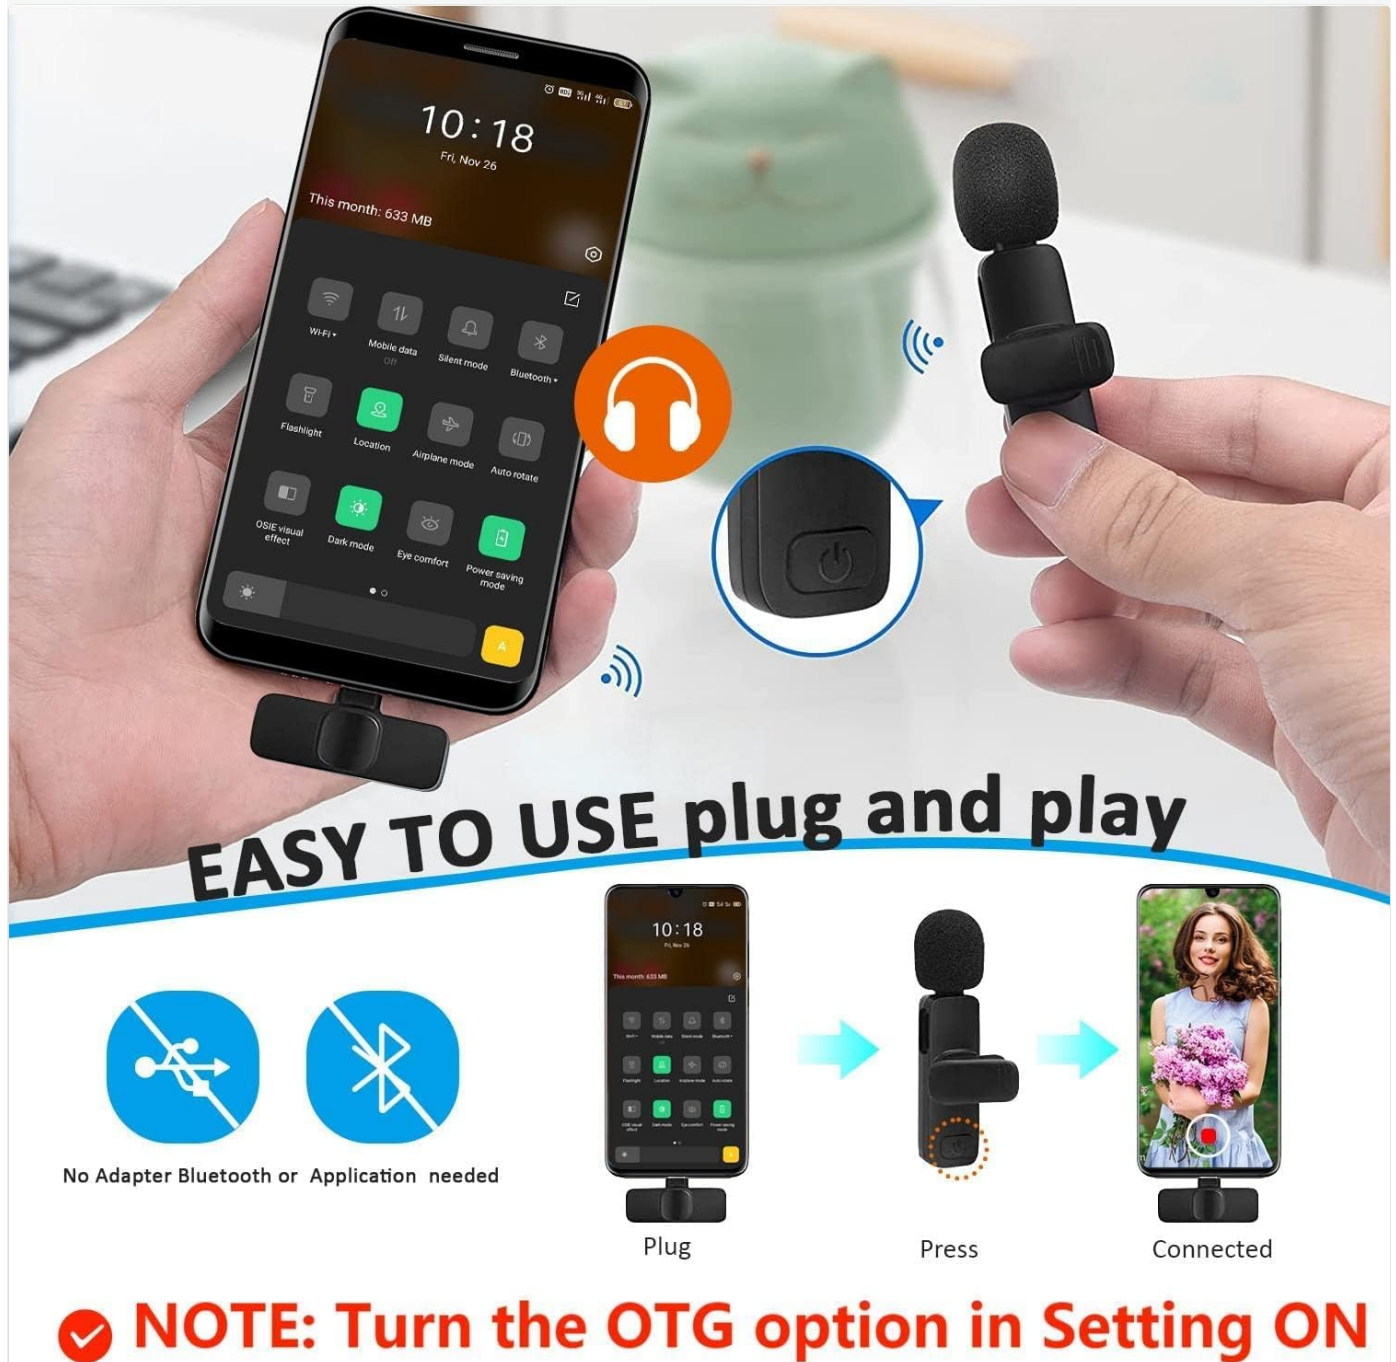

Image 4.1: Visual guide for the plug-and-play setup process, highlighting the importance of enabling the OTG option.

5. OPERATING INSTRUCTIONS

Once the microphone and receiver are successfully paired, you can begin recording or streaming:

- **Placement:** Clip the microphone onto your collar or clothing, ensuring it is positioned to capture your voice clearly. For optimal sound, keep it approximately 6-8 inches from your mouth.
- **Recording/Streaming:** Open your desired recording application (e.g., camera app, voice recorder, live streaming platform) on your connected device. The device should automatically recognize the external microphone.
- **Monitoring (if applicable):** Some devices or applications allow for real-time audio monitoring. Check your device's audio settings or app preferences for this option.
- **Ending Session:** To stop recording, simply close the application. To power off the microphone, press and hold the power button until the LED indicator turns off. Disconnect the receiver from your device.

Image 5.1: Examples of the microphone's wide range of applications, including online teaching, video recording, live streaming, and interviews.

6. MAINTENANCE

Proper care and maintenance will extend the lifespan of your microphone:

- **Cleaning:** Use a soft, dry cloth to wipe the microphone and receiver. Do not use liquid cleaners or solvents.
- **Storage:** Store the microphone and receiver in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery Care:** Recharge the microphone regularly, even if not in frequent use, to maintain battery health. Avoid fully discharging the battery for extended periods.
- **Handle with Care:** Avoid dropping the device or subjecting it to strong impacts, which can damage internal components.

7. TROUBLESHOOTING

If you encounter issues with your MAYBESTA Wireless Lavalier Microphone, refer to the following common solutions:

Problem	Possible Cause / Solution
Microphone not connecting/pairing.	<ul style="list-style-type: none">◦ Ensure both the microphone transmitter and receiver are charged.◦ Verify that the USB OTG setting is enabled on your Android device.◦ Make sure the receiver is fully inserted into the device's port.◦ Power cycle both the microphone and the device.
No sound or low sound output.	<ul style="list-style-type: none">◦ Check if the microphone is successfully paired (LED indicator solid).◦ Increase the volume on your recording device.◦ Ensure the microphone is positioned correctly and not obstructed.◦ Test with a different recording application.
Sound quality is poor or distorted.	<ul style="list-style-type: none">◦ Ensure you are within the effective operating range (up to 50ft without obstacles).◦ Minimize environmental background noise.◦ Check for physical obstructions between the microphone and receiver.◦ Ensure the microphone is not too close to your mouth, which can cause distortion.
Device not recognizing the receiver.	<ul style="list-style-type: none">◦ Confirm your device's compatibility (Android 6.0+ with USB-C, or computer with USB-A).◦ Ensure USB OTG is enabled.◦ Try connecting the receiver to a different USB port or a different compatible device to rule out a port issue.

8. SPECIFICATIONS

Feature	Detail
Brand Name	MAYBESTA

Feature	Detail
Model Name	WM150
Connectivity Technology	USB Wireless
Connector Type	USB-C (Receiver)
Polar Pattern	Omnidirectional
Special Features	Battery Indicator Light, Clip, Mute Function, Noise Reduction
Compatible Devices	Android Smartphones (USB-C, Android 6.0+), Laptops, Personal Computers (USB-A)
Color	Black
Product Dimensions	5.7 x 1.5 x 2.3 cm
Item Weight	19.98 g (approx. 20g)
Batteries	1 C battery required (included)
Manufacturer	Maybesta

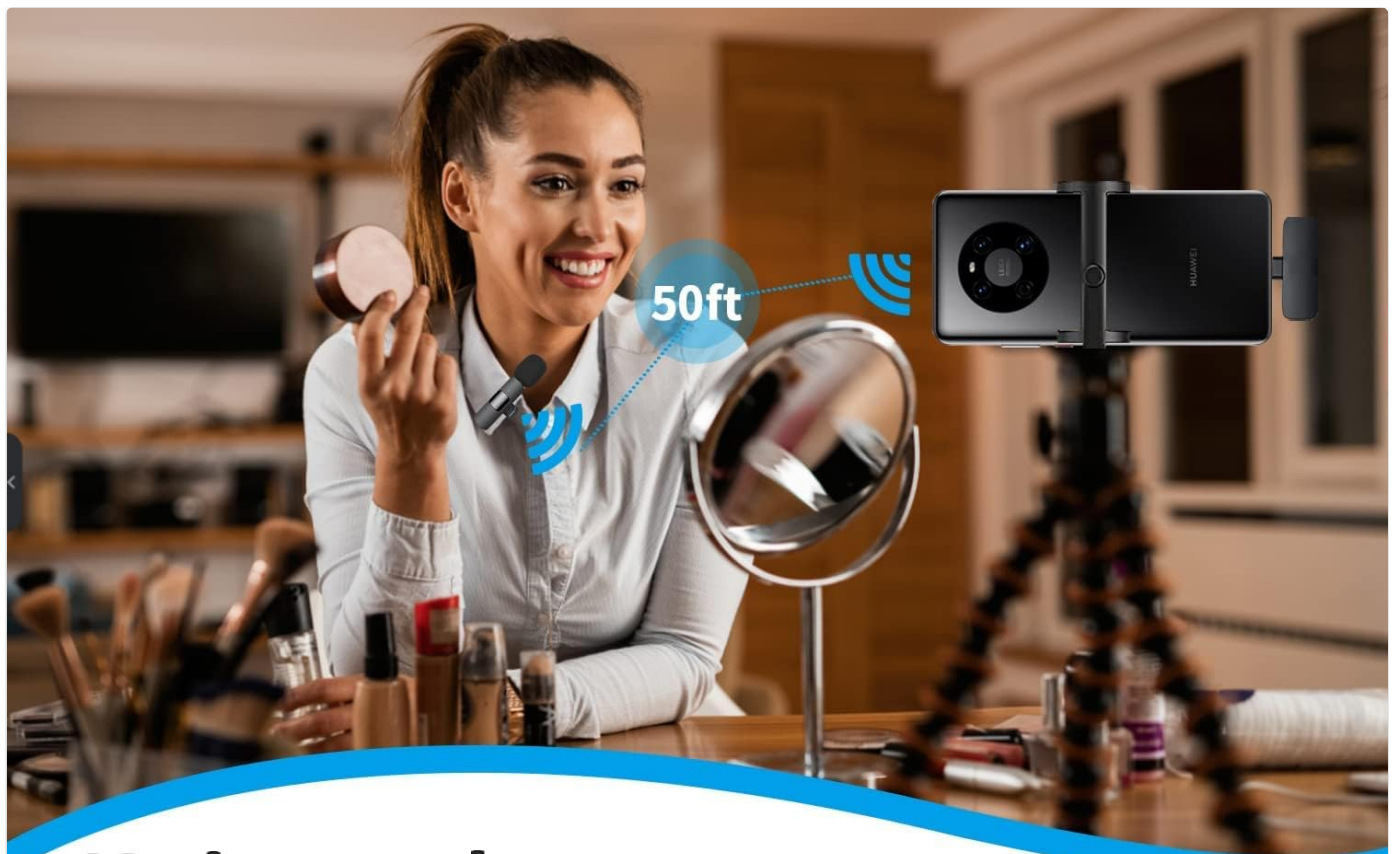

Compatible with More Devices

Phone with USB C Interface(Type C)

Computer with USB Interface
