3. INSTALLATION INSTRUCTIONS

Follow these steps to replace or install the deck cover knob:

1. **Safety First:** Ensure the mower is turned off, the engine is cool, and the spark plug wire is disconnected to prevent accidental starting.
2. **Locate the Knob:** Identify the position where the deck cover knob is to be installed or replaced.
3. **Remove Old Knob (if applicable):** If replacing an existing knob, unscrew it counter-clockwise until it is fully detached.
4. **Install New Knob:** Align the threaded insert of the new knob with the corresponding threaded post on the mower

deck cover.

- 5. **Tighten:** Turn the knob clockwise by hand until it is finger-tight. Do not overtighten, as this may damage the threads or the knob itself. The knob should securely hold the deck cover in place.
