DORTALA DO-HW65614GR-CA

DORTALA Coat Rack Tree User Manual

Model: DO-HW65614GR-CA

INTRODUCTION

This manual provides instructions for the assembly, operation, and maintenance of your DORTALA Coat Rack Tree, Model DO-HW65614GR-CA. This free-standing coat hanger stand is designed to organize various items such as coats, hats, bags, and scarves, contributing to a tidier living space. Constructed from solid rubber wood, it features an adjustable height and a stable triangular base.

SETUP AND ASSEMBLY

The DORTALA Coat Rack Tree is designed for tool-free assembly with built-in screws. Follow these steps for quick installation:

1. Unpack all components and verify against the parts list (not provided in source, assuming standard parts like base, main pole sections, and hooks).
2. Connect the main pole sections. The design allows for 4 independent sections, enabling height customization for different users.
3. Attach the 9 hooks to the designated points on the main pole. Ensure they are securely fastened using the built-in screw mechanism.
4. Securely attach the tri-legged base to the bottom section of the main pole. Ensure the base is stable and level on the floor.

OPERATING INSTRUCTIONS

The DORTALA Coat Rack Tree provides a versatile solution for organizing various garments and accessories.

Using the Hooks

The coat rack features 9 staggered hooks designed to maximize storage capacity. These hooks can hold items such as coats, scarves, handbags, hats, ties, and umbrellas. Distribute weight evenly across the hooks to maintain stability. Each hook has a maximum weight capacity of 7 lbs.

Adjustable Height Feature

The coat stand's height is adjustable through its modular sections. This allows users of different heights, including children, to comfortably access and organize their belongings. Adjust the height by adding or removing sections of the main pole during assembly.

Placement and Stability

The compact design and stable tri-legged base make this coat rack suitable for various locations, including bedrooms, living rooms, entryways, hallways, and corners. The enlarged base ensures stability, supporting a total weight capacity of up to 63 lbs. The rounded ends of the hooks are designed to prevent damage to clothing and reduce the risk of scratches.

MAINTENANCE

To ensure the longevity and appearance of your DORTALA Coat Rack Tree, follow these simple maintenance guidelines:

- **Cleaning:** The smooth surface of the rubber wood is easy to clean. Wipe with a soft, damp cloth to remove dust or spills. Avoid abrasive cleaners or harsh chemicals that may damage the finish.
- **Inspection:** Periodically check all connections and screws to ensure they remain tight. Re-tighten if necessary to maintain stability.
- **Weight Distribution:** Always distribute items evenly across the hooks to prevent undue stress on any single point and maintain the rack's balance.

TROUBLESHOOTING

If you encounter issues with your coat rack, consider the following:

- **Instability/Wobbling:** Ensure the tri-legged base is fully assembled and all connections are tight. Verify the rack is placed on a flat, level surface. Uneven weight distribution can also cause wobbling;

redistribute items if necessary.

- **Hooks Becoming Loose or Splitting:** Overloading individual hooks beyond the 7 lbs capacity can cause stress. Ensure items are not excessively heavy. If a hook becomes loose, re-tighten its built-in screw. If splitting occurs, it may indicate excessive weight or impact.
- **Difficulty Adjusting Height:** Ensure the pole sections are correctly aligned and fully engaged when assembling or disassembling to adjust height. Do not force sections if they are not aligning properly.

SPECIFICATIONS

Feature	Detail
Brand	DORTALA
Model Number	DO-HW65614GR-CA
Color	Grey
Material	Rubberwood, Wood
Product Dimensions (L x W x H)	19.5" x 19.5" x 54.5" (Adjustable up to 69")
Item Weight	7 lbs
