MUD\WTR B09MJGMT4V

MUD\WTR Original Mushroom Coffee Alternative User Manual

Model: B09MJGMT4V

INTRODUCTION TO MUD\WTR ORIGINAL

MUD\WTR Original is a unique coffee alternative designed to provide sustained energy, focus, and immunity support without the jitters or crash often associated with traditional coffee. This powder-based adaptogenic mushroom drink blends various beneficial mushrooms and organic spices to create a distinct flavor profile and functional benefits.

KEY INGREDIENTS AND THEIR BENEFITS

MUD\WTR Original is formulated with a blend of adaptogenic mushrooms and organic spices, each contributing to its unique properties:

- **Chaga:** Known for immunity support.
- **Reishi:** Supports immunity and overall well-being.
- **Cordyceps:** Contributes to natural energy.
- **Lion's Mane:** Associated with focus and cognitive function.
- **Cacao:** Provides a rich flavor and supports focus.
- **Masala Chai:** A blend of spices including ginger, cardamom, cloves, nutmeg, and black pepper, offering a distinctive taste.

- **Turmeric:** An antioxidant.
- **Cinnamon:** Another antioxidant.
- **Himalayan Salt:** Acts as an electrolyte.

High-End Ingredients for Laser Focus & Natural Energy

PREPARATION AND USAGE INSTRUCTIONS

Preparing your MUD\WTR Original is simple and can be customized to your preference. Follow these steps for the perfect cup:

1. Add 1 tablespoon (tbsp) of MUD\WTR Original powder to 3/4 cup of hot water.
2. Stir thoroughly using a frother, blender, or spoon until well combined.
3. Stir in 3/4 cup of your favorite milk (hot or cold) and 1 tablespoon of honey for added sweetness and creaminess.
4. Enjoy your MUD\WTR! Due to the natural, heavy mushroom ingredients, some settling may occur. Stir before each sip for optimal consistency.

Alternative Usage: If you're not ready to fully replace your coffee, MUD\WTR can be stirred into your regular cup of coffee along with creamer and honey for a beneficial, chai-infused twist. It can also serve as a great replacement for your second cup of coffee.

Your Perfect Mug

Step 1 Add 1 tbsp to 3/4 cup of hot water and stir thoroughly

Step 2 Stir in 3/4 cup of your favorite milk and one tbsp of honey

Step 3 Enjoy! Our mushroom ingredients are heavy and tend to sink (and we don't use any sketchy fillers), so just give your cup a stir before every sip.

Image: A step-by-step visual guide demonstrating how to prepare "Your Perfect Mug" of MUD\WTR, from adding the powder to hot water, to stirring in milk and honey, and finally, the finished beverage.

Units	6.3493 Ounce (30 Servings)
Caffeine Content	Less than 95 milligrams (approx. 35mg per serving)
Specialty	USDA Organic, Gluten Free, Vegan, Whole30, Kosher, Non-GMO

Manufacturer	Mud Wtr, Inc.
Package Dimensions	9.65 x 8.15 x 3.11 inches; 1.65 Pounds

IMPORTANT INFORMATION AND WARNINGS

Please read the following important information before using MUD\WTR Original:

- **Proposition 65 Warning:** This product can expose you to chemicals, including Lead, which are known to the State of California to cause cancer and birth defects or other reproductive harm. Heavy metals naturally exist in earth's soil. Per CA law, packaged products grown from the earth that may contain natural "heavy metal minerals" require this warning. MUD\WTR products are Certified USDA Organic, and the company conducts in-house and third-party testing to ensure quality.
- **FDA Disclaimer:** Statements regarding dietary supplements have not been evaluated by the Food and Drug Administration and are not intended to diagnose, treat, cure, or prevent any disease or health condition.

CARE AND STORAGE

To maintain the quality and freshness of your MUD\WTR Original, store it in a cool, dry place away from direct sunlight and moisture. Ensure the lid is tightly sealed after each use.

TROUBLESHOOTING COMMON ISSUES

MUD\WTR is a powder-based product made with natural ingredients. Some common observations and their solutions are:

- **Powder not dissolving completely:** MUD\WTR does not dissolve as easily as some instant beverages due to its high-quality, all-natural ingredients and lack of artificial additives. This is normal. Use a frother or blender for best results, or stir vigorously with a spoon.
- **Sediment at the bottom:** The mushroom ingredients are heavy and tend to sink. This is expected and not a defect. Simply stir your cup before every sip to re-incorporate the ingredients.
- **Flavor too strong/weak:** Adjust the amount of powder, water, milk, or honey to suit your personal taste preference. Experiment with different ratios.

WARRANTY AND CUSTOMER SUPPORT

Specific warranty information for MUD\WTR Original is not provided in this manual. For any product-related inquiries, support, or concerns, please refer to the official MUD\WTR website or contact their customer service directly. You can often find contact details on the product packaging or through the brand's official online store. Visit the MUD\WTR Store: [MUD\WTR Amazon Store](#)
