## Setup

### 1. What's in the Box

- GO-TCHA Classic unit
- Magnetic charge cable
- Wristband to hold GO-TCHA unit

Image: The GO-TCHA Classic in its retail packaging, showing the device and wristband.

## 2. Charging the Device

Before first use, fully charge your GO-TCHA Classic. Connect the magnetic charge cable to the charging points on the back of the GO-TCHA unit. Ensure the cable is securely attached and connected to a USB power source (e.g., computer USB port, USB wall adapter). The device features an animated battery charge indicator on its screen.

## 3. Pairing with Pokémon GO

1. Ensure Bluetooth is enabled on your smartphone.
2. Open the Pokémon GO app.
3. Tap the Main Menu button (Poké Ball icon).
4. Tap 'Settings'.
5. Select 'Pokémon GO Plus'.
6. Tap the button on your GO-TCHA Classic to make it discoverable. It should appear in the 'Available Devices' list in the app.
7. Tap the GO-TCHA Classic in the app to pair. Once paired, the icon in the app will turn blue.

## Operating the GO-TCHA Classic

### Automatic Catch & Collect Mode

The GO-TCHA Classic features a fully automatic auto-catch and collect mode. Once paired, the device will automatically attempt to catch Pokémon and collect items from PokéStops within range without requiring you to press a button on the device or your smartphone.

### Screen and Feedback

The device has a bright, sharp color touch LED 0.96-inch animation screen. It provides on-screen animated alerts and vibration feedback for various events:

- **Pokémon in Range:** Alerts you when a Pokémon is nearby.
- **Pokémon Found:** Indicates a Pokémon has been detected.
- **Pokémon Caught:** Confirms a successful Pokémon capture.
- **PokéStop in Range:** Notifies you of a nearby PokéStop.
- **PokéStop Items Collected:** Confirms items have been gathered from a PokéStop.
- **Battery Charge Indicator:** Displays the current battery level.

You can tap the GO-TCHA screen to interact with alerts or to manually grab items if auto-collect is not enabled or preferred.

**GO-TCHA Classic**  
for Pokémon Go

'Auto Catch' mode will automatically respond to every alert – no button press required

Catch 'em all!

Catching Pokémon and collecting items just got easy - Go-tcha provides on-screen animated alerts and vibration feedback – simply tap the Go-tcha screen to grab the items.

Go-tcha Classic Combines the Go Plus with unique Go-tcha features for Pokémon GO. Select 'Auto-catch' mode and you don't even need to respond - Go-tcha does it all! Collect Poké Balls, Potions, Eggs, and other items at Poké Stops without having to check your smartphone.

**Rechargeable!**

Simply attach the magnetic charger cable and connect to any USB charger port.

Check out the Go-tcha Classic website for more information and to download the App!

## Customizing Settings

The GO-TCHA Classic allows for screen rotation and other settings adjustments directly on the device. Refer to the on-screen menus for specific customization options.

## Maintenance

### Cleaning

Wipe the device regularly with a soft, dry cloth to remove dust and grime. Avoid using harsh chemicals or abrasive materials, which can damage the screen or casing.

### Battery Care

To prolong battery life, avoid fully discharging the device frequently. Charge the device regularly, especially if it will be stored for an extended period. Use only the provided magnetic charge cable.

## Troubleshooting

### Device Not Pairing

- Ensure Bluetooth is active on your smartphone.
- Verify the GO-TCHA Classic is charged.
- Restart both your smartphone and the GO-TCHA Classic.
- In Pokémon GO settings, try unpairing and re-pairing the device.

### Charging Issues

- Ensure the magnetic charge cable is firmly and correctly aligned with the charging pins on the GO-TCHA unit.
- Try a different USB power source or adapter.
- Check the charging cable for any visible damage.

### Frequent Disconnections

- Ensure your smartphone and GO-TCHA Classic are in close proximity.
- Check for any interference from other Bluetooth devices.
- Ensure the Pokémon GO app is running in the foreground or background and not being closed by your phone's power-saving features.
