Energizer Rechargeable AAA Batteries and AA Battery Charger Kit Instruction Manual

Model: B09MLQL7Y3

1. INTRODUCTION

Thank you for choosing the Energizer Rechargeable AAA Batteries and AA Battery Charger Kit. This kit provides a convenient and environmentally friendly solution for powering your electronic devices. Please read this manual thoroughly before using the product to ensure safe and optimal performance.

2. SAFETY INFORMATION

- Use only Energizer NiMH rechargeable batteries with this charger. Do not attempt to charge non-rechargeable batteries.
- Do not open, disassemble, or short-circuit the batteries or charger.
- Do not expose batteries or charger to water, fire, or extreme temperatures.
- Keep batteries and charger out of reach of children.
- Ensure proper polarity (+/-) when inserting batteries into the charger.
- Unplug the charger from the power outlet when not in use.
- If a battery leaks, swells, or becomes hot, discontinue use immediately.

3. PACKAGE CONTENTS

Your Energizer Rechargeable AAA Batteries and AA Battery Charger Kit includes:

- 1x Energizer Recharge Value Charger (charges 2 or 4 AA/AAA NiMH rechargeable batteries)
- 8x Energizer Recharge Universal Rechargeable AAA Batteries

Figure 1: Energizer Recharge Universal AAA Batteries and Charger Kit in its original packaging.

4. SETUP

- 1. Unpack the Kit:** Carefully remove all components from the packaging.
- 2. Insert Batteries:** Open the battery compartment on the charger. Insert 2 or 4 AA or AAA NiMH rechargeable batteries, ensuring the positive (+) and negative (-) terminals align correctly with the markings inside the charger.
- 3. Plug in the Charger:** Plug the charger directly into a standard AC wall outlet.

Figure 2: The Energizer Recharge Value Charger with AAA batteries correctly inserted, illustrating the charging status indicators.

5. OPERATING INSTRUCTIONS

5.1 Charging Batteries

- Once plugged in with batteries inserted, the charger's indicator lights will illuminate.
- A **red light** indicates that the batteries are currently charging.
- A **green light** indicates that charging is complete. The charger features an automatic safety shut-off.
- If a **pulsing red light** is observed, it may indicate a bad or non-rechargeable battery. Remove and replace the battery.
- Charging time for 4 AA batteries is approximately 5 to 11 hours. AAA battery charging times may vary.

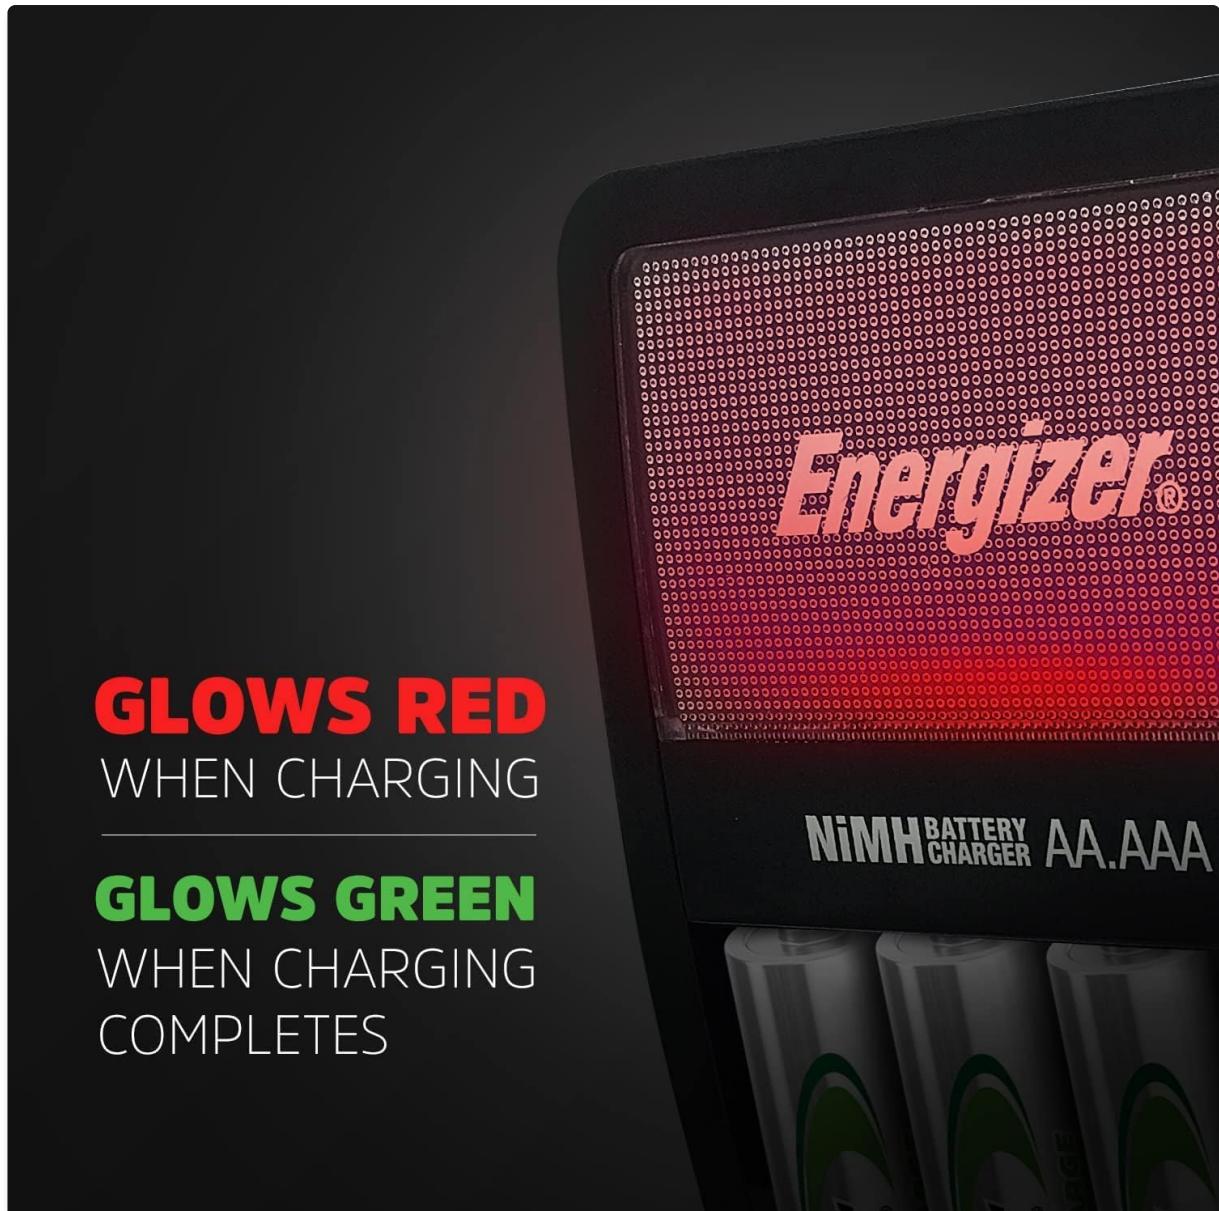

Figure 3: Detailed view of the charger's LED indicators, showing red for charging and green for fully charged batteries.

5.2 Using Batteries

- Once fully charged (green light), remove the batteries from the charger.
- Insert the charged batteries into your compatible electronic devices, ensuring correct polarity.
- Energizer rechargeable batteries offer up to a 5-year battery life under typical usage conditions.

REUSABLE POWER FOR EVERYDAY DEVICES

Figure 4: Examples of common household devices that can be powered by Energizer rechargeable batteries, including game controllers, computer mice, and digital cameras.

6. MAINTENANCE

- Keep the charger and batteries clean and dry. Wipe with a soft, dry cloth if necessary.
- Store batteries in a cool, dry place away from direct sunlight and metal objects.
- Properly dispose of old or damaged batteries according to local regulations.

7. TROUBLESHOOTING

- **Charger not working:** Ensure the charger is securely plugged into a working AC outlet. Verify that batteries are inserted with correct polarity.
- **Bad battery detected (pulsing red light):** This indicates a battery that cannot be charged or is damaged. Remove the battery and try a different one.
- **Batteries not holding charge:** Over time, rechargeable batteries may lose capacity. If batteries consistently fail to hold a charge, they may need to be replaced.

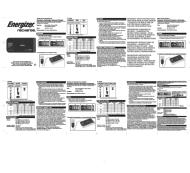

8. SPECIFICATIONS

Feature	Specification
Brand	Energizer
Model	B09MLQL7Y3
Battery Type	NiMH (Nickel-Metal Hydride)
Battery Sizes Supported	AA, AAA
Output Voltage	1.2 Volts (for batteries)
Charging Capacity	2 or 4 AA/AAA batteries simultaneously
Safety Features	Automatic safety shut-off, designed to prevent leaks
Recycled Materials	NiMH AAA batteries made with 15% recycled materials
Item Weight	5.3 ounces
Specification Met	UL

9. WARRANTY AND SUPPORT

For warranty information and customer support, please refer to the official Energizer website or contact their customer service directly. Keep your purchase receipt for any warranty claims.
