JEKCA Cat 19S-M01 Plastic Building Blocks Instruction Manual

INTRODUCTION

This manual provides detailed instructions for assembling your JEKCA Cat 19S-M01 plastic building block model. JEKCA models utilize a unique interlocking brick-through system to create durable and stable structures. Please read all instructions carefully before beginning assembly.

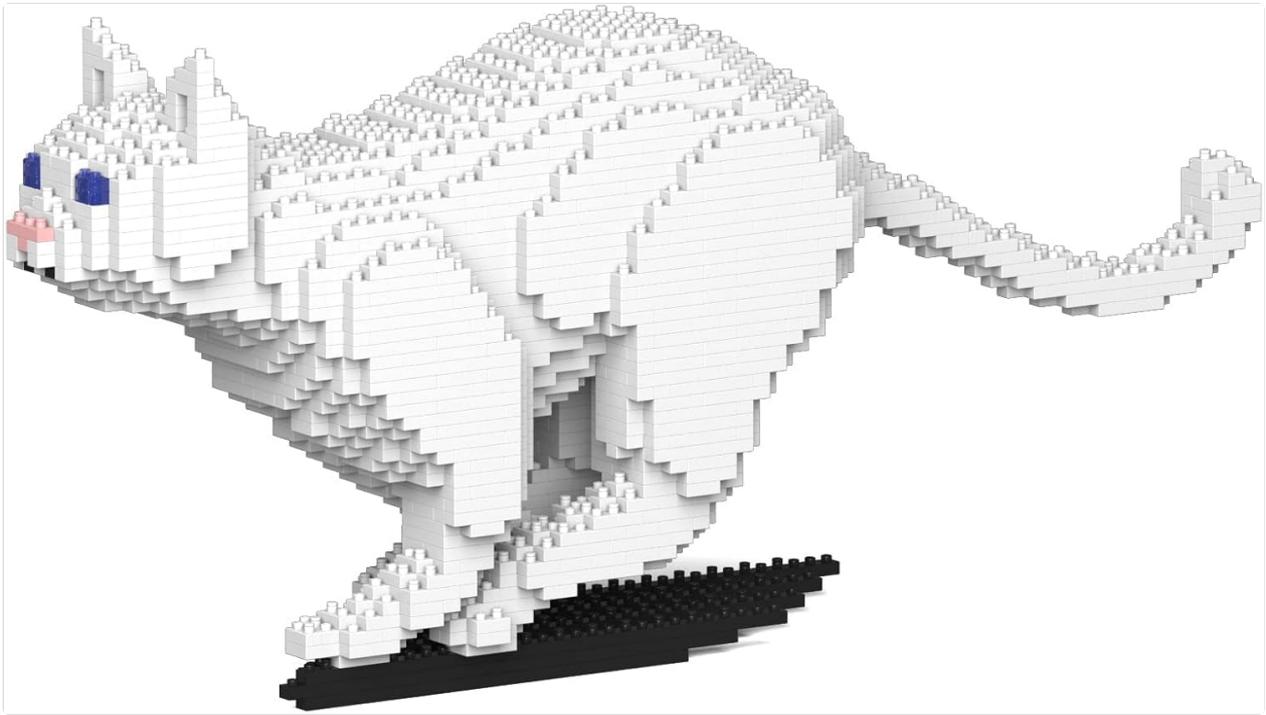

SAFETY INFORMATION

- **Age Recommendation:** This product contains small parts and is recommended for individuals aged 14 years and above. Keep out of reach of small children to prevent choking hazards.
- **Handling Small Parts:** Exercise care when handling small building blocks and pins.
- **Assembly Environment:** Assemble the model in a well-lit, clean, and organized area to prevent loss of parts.

WHAT'S IN THE BOX

Your JEKCA Cat 19S-M01 kit includes the following components:

- Instruction Manual
- Building Bricks (over 1440 pieces)

SETUP AND ASSEMBLY

Step 1: Understanding the Interlocking System

JEKCA models use a patented interlocking brick-through system. This system involves inserting pins through the blocks to secure them firmly, creating a robust structure that is not easily disassembled.

This image explains the patented interlocking brick-through technology used in JEKCA models, which ensures stability and durability.

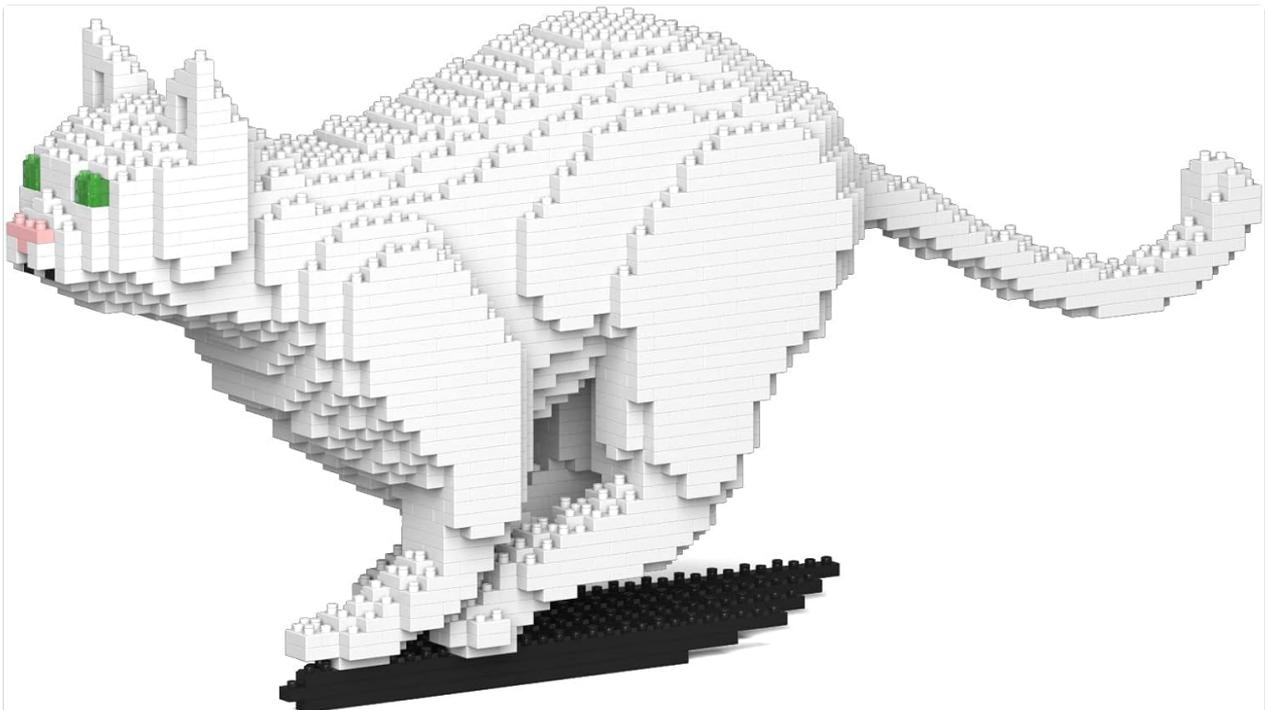

This diagram illustrates the JEKCA building process: insert a pin, then turn it 90 degrees to secure the blocks, ensuring a sturdy connection.

MAINTENANCE

To maintain the appearance of your JEKCA model, periodically dust it with a soft, dry cloth. For more thorough cleaning, a slightly damp cloth can be used, but avoid excessive moisture or harsh cleaning agents.

TROUBLESHOOTING

Common Issues and Solutions

- **Missing Pieces:** Carefully check all packaging materials. If pieces are genuinely missing, contact JEKCA customer support.
- **Difficulty Interlocking Blocks:** Ensure pins are inserted correctly and rotated 90 degrees. Apply gentle, even pressure. Do not force blocks together.
- **Model Instability:** Double-check all pin connections. Ensure every pin is fully inserted and rotated to secure the blocks.
