PARTS LIST

Before assembly, verify that all components are present and undamaged. If any parts are missing or damaged, do not proceed with assembly. Contact customer support for assistance.

- Upholstered Headboard Panel (1)
- Headboard Legs (2)
- Hardware Pack (containing bolts, washers, nuts, and assembly tools)

Note: Specific hardware details may vary. Refer to the included hardware diagram in your product packaging.

SETUP AND ASSEMBLY

Assembly typically requires two adults. Approximate assembly time: 30-60 minutes.

- 1. Unpack Components:** Carefully remove all parts from the packaging and lay them out on a soft, clean surface (e.g., a rug or blanket) to prevent damage.
- 2. Attach Legs to Headboard Panel:**
Align the pre-drilled holes on the headboard legs with the corresponding holes on the back of the upholstered headboard panel. Secure the legs using the provided bolts, washers, and nuts from the hardware pack. Do not fully tighten at this stage.

- 3. Adjust Height:**
The headboard legs feature multiple pre-drilled holes, allowing for height customization. Choose the desired height setting and ensure both legs are set to the same position. Once the desired height is selected, fully tighten all bolts securely using the provided tools.

4. Attach to Bed Frame (Optional):

If attaching to a bed frame, align the pre-drilled holes on the headboard legs with the mounting brackets on your bed frame. Use the included hardware (or hardware provided with your bed frame, if compatible) to secure the headboard to the frame. Ensure a snug and stable connection. If your bed frame does not have compatible mounting brackets, the headboard can be used freestanding against a wall, ensuring it is stable.

OPERATING INSTRUCTIONS

The Baxton Studio Emile Headboard is designed to provide aesthetic enhancement and comfortable back support when seated in bed. Once assembled and securely positioned (either attached to a bed frame or freestanding against a wall), no further "operation" is required.

- Ensure the headboard is stable and does not wobble before use.
- Avoid placing excessive weight or pressure on the headboard.
- Do not use the headboard as a climbing structure or for support when standing.

CARE AND MAINTENANCE

Proper care will help maintain the appearance and longevity of your headboard.

- **Cleaning:** Wipe the upholstered velvet fabric with a dry, soft cloth. For minor spills, gently blot with a clean, damp cloth and allow to air dry. Avoid harsh chemicals, abrasive cleaners, or excessive moisture.
- **Dusting:** Regularly dust the headboard with a soft, dry cloth or a vacuum cleaner with a brush attachment to prevent dust buildup.
- **Hardware Check:** Periodically (e.g., every 3-6 months) check all bolts and connections to ensure they remain tight. Re-tighten if necessary to maintain stability.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight may cause the fabric color to fade or degrade over time. Position the headboard away from direct, intense sunlight.
- **Avoid Moisture:** Keep the headboard away from excessive moisture or humidity to prevent damage to the wood frame and upholstery.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Headboard wobbles or is unstable.	Loose hardware; improper attachment to bed frame or wall.	Ensure all bolts connecting the legs to the headboard panel are fully tightened. If attached to a bed frame, verify the connection is secure. If freestanding, ensure it is flush against a wall and stable.
Difficulty aligning holes during assembly.	Parts are not correctly oriented; minor manufacturing tolerance.	Double-check the orientation of the legs and headboard panel according to the instructions. Apply gentle, even pressure to align holes. Do not force parts. If persistent, contact customer support.
Scratches or damage during assembly.	Assembly on a hard or abrasive surface; improper handling.	Always assemble on a soft, clean surface. For existing minor scratches on wood components, touch-up pens or furniture markers may be used. Fabric damage may require professional repair or contacting customer support.
