5. MAINTENANCE AND CARE

To ensure the longevity and optimal performance of your Lenovo ThinkPad E14 Gen 6, follow these maintenance guidelines:

- **Cleaning:** Use a soft, lint-free cloth slightly dampened with water or a screen cleaner to clean the display. For the keyboard and chassis, use a dry, soft cloth. Avoid harsh chemicals.
- **Software Updates:** Regularly check for and install Windows updates and Lenovo driver updates to ensure system stability, security, and performance.
- **Battery Care:** To prolong battery life, avoid fully discharging the battery frequently. Store the laptop in a cool, dry place when not in use for extended periods.
- **Ventilation:** Ensure the laptop's ventilation openings are not blocked to prevent overheating. Use the laptop on a hard, flat surface.

6. TROUBLESHOOTING COMMON ISSUES

This section addresses some common issues you might encounter with your ThinkPad E14 Gen 6.

- **Wi-Fi Connectivity Issues:** Some users have reported intermittent Wi-Fi disconnections, especially after system updates or reboots.
 - **Solution:** Ensure your Wi-Fi drivers are up to date. You can download the latest drivers from the Lenovo support website. Restarting your router and laptop can also resolve temporary connection issues. If problems persist, consider checking for BIOS updates or consulting technical support.
- **Slow Performance:** If your laptop feels sluggish, try the following:
 - **Solution:** Close unnecessary applications running in the background. Check Task Manager for resource-intensive processes. Ensure sufficient free space on your SSD. Run a disk cleanup and defragmentation (for HDDs, though this model has SSD).
- **Laptop Not Powering On:**
 - **Solution:** Ensure the power adapter is securely connected to both the laptop and the power outlet. Try a different power outlet. If the battery is completely drained, it might take a few minutes of charging before the laptop can power on.
