2. SAFETY INFORMATION

Please read and adhere to the following safety guidelines to ensure safe use of your sofa:

- All foam surfaces and coverings meet applicable flammability standards.
- Keep the sofa away from open heat sources, such as fireplaces or radiators, and high temperatures to prevent damage or fire hazards.
- Supervise children and pets around the sofa to prevent entanglement risks or potential injuries.
- Do not exceed the maximum supported weight of 360 kg (793 lbs).

3. SETUP INSTRUCTIONS

Your Vente-unique CHESTERFIELD sofa is delivered largely pre-assembled. The primary setup involves attaching the feet.

1. **Unpacking:** Carefully remove the sofa from its packaging. Ensure all protective materials are removed.
2. **Locate Feet:** Turn the sofa upside down. The wooden feet are typically stored in a zippered compartment underneath the sofa or securely packaged separately.
3. **Attach Feet:** Align each foot with the pre-drilled holes at the corners of the sofa base. Screw the feet clockwise until they are securely tightened. Do not overtighten.
4. **Positioning:** With assistance, carefully turn the sofa upright and place it in your desired location. Ensure it is

stable and level.

4. OPERATING INSTRUCTIONS (PROPER USE)

The CHESTERFIELD sofa is designed for comfortable seating in a residential environment.

- Use the sofa for its intended purpose: sitting and lounging.
- Avoid standing or jumping on the sofa, as this can damage the frame and upholstery.
- Distribute weight evenly across the seating area. The maximum supported weight is 360 kg (793 lbs).
- Do not place heavy or sharp objects directly on the upholstery to prevent tears or indentations.

5. MAINTENANCE AND CARE

The aged microfiber upholstery of your CHESTERFIELD sofa is designed for easy care. Regular maintenance will help preserve its appearance and longevity.

General Cleaning:

- **Dusting:** Regularly dust the sofa with a soft, dry cloth to remove surface particles.
- **Vacuuming:** Use a vacuum cleaner with a soft brush attachment to gently remove dust and debris from the upholstery, especially in crevices and tufted areas.
- **Spills:** Blot spills immediately with a clean, dry cloth. Avoid rubbing, as this can spread the stain. For stubborn stains, consult a professional upholstery cleaner or test a small, inconspicuous area with a mild fabric cleaner.

- **Removable Seat Covers:** The seat cushions feature removable covers. Refer to the care label on the covers for specific cleaning instructions (e.g., machine wash, dry clean).

Preventative Care:

- Avoid direct sunlight exposure for prolonged periods to prevent fading.
- Rotate and fluff cushions regularly to maintain their shape and even out wear.
- Keep pets with sharp claws away from the upholstery to prevent snags or tears.

6. TROUBLESHOOTING

If you encounter any issues with your sofa, consider the following common solutions:

- **Wobbly Legs:** Ensure all feet are securely tightened. If the floor is uneven, use furniture pads or shims under the legs to stabilize the sofa.
- **Minor Scratches/Marks:** For superficial marks on the microfiber, gently rub the area with a soft, dry cloth. The aged look of the fabric may naturally conceal minor imperfections.
- **Cushion Compression:** Over time, cushions may compress. Regularly fluff and rotate them to restore their shape and extend their lifespan.
- **Unusual Odor:** New furniture may have a slight odor. Ensure good ventilation in the room for a few days after unpacking.
