3. SETUP

3.1 Battery Installation

The LifePod 20 is powered by a 9V alkaline battery (not included). The battery compartment is located inside the case. Ensure the battery is inserted correctly for proper function.

3.2 Programming Access Methods

The LifePod 20 offers multiple ways to access your valuables:

- **Biometric Fingerprint Scanner:** The water-resistant fingerprint scanner allows for quick access. The device is capable of storing up to 20 unique fingerprints. Refer to the detailed instructions for enrolling fingerprints.
- **Smart Sense Backlit Keypad:** A touch-sensitive keypad allows you to set a 4-8 digit access code.
- **Backup Manual Keys:** Two manual keys are provided for emergency access or if the battery is

depleted.

To program, locate the 'PROGRAM' button inside the case. Follow the specific instructions provided in the full manual for each access method.

3.3 Anti-Picking Feature

An optional anti-picking feature can be enabled to prevent picking of the front keyway. Consult the full manual for activation steps.

3.4 USB Power Port

In case of a dead battery, a hidden micro-USB port (located under the front rubber keyhole cover) can be used to power the unit externally for access.

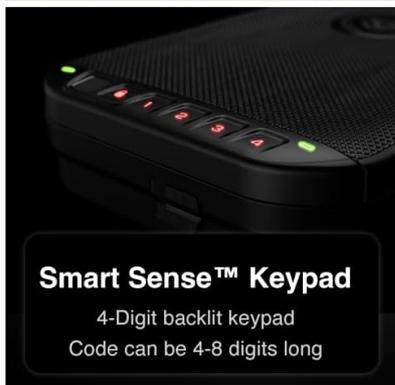

Built-in Lock + Authorized Access

Premium entry methods with anti-impact latch and backlit keys.

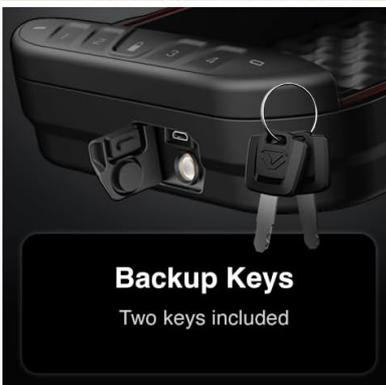

Biometric Scanner

Capable of storing up to 20 unique fingerprints.

Smart Sense™ Keypad

4-Digit backlit keypad
Code can be 4-8 digits long

Backup Keys

Two keys included

Built-In Lock

Extra security when needed

4. OPERATING INSTRUCTIONS

4.1 Unlocking the LifePod 20

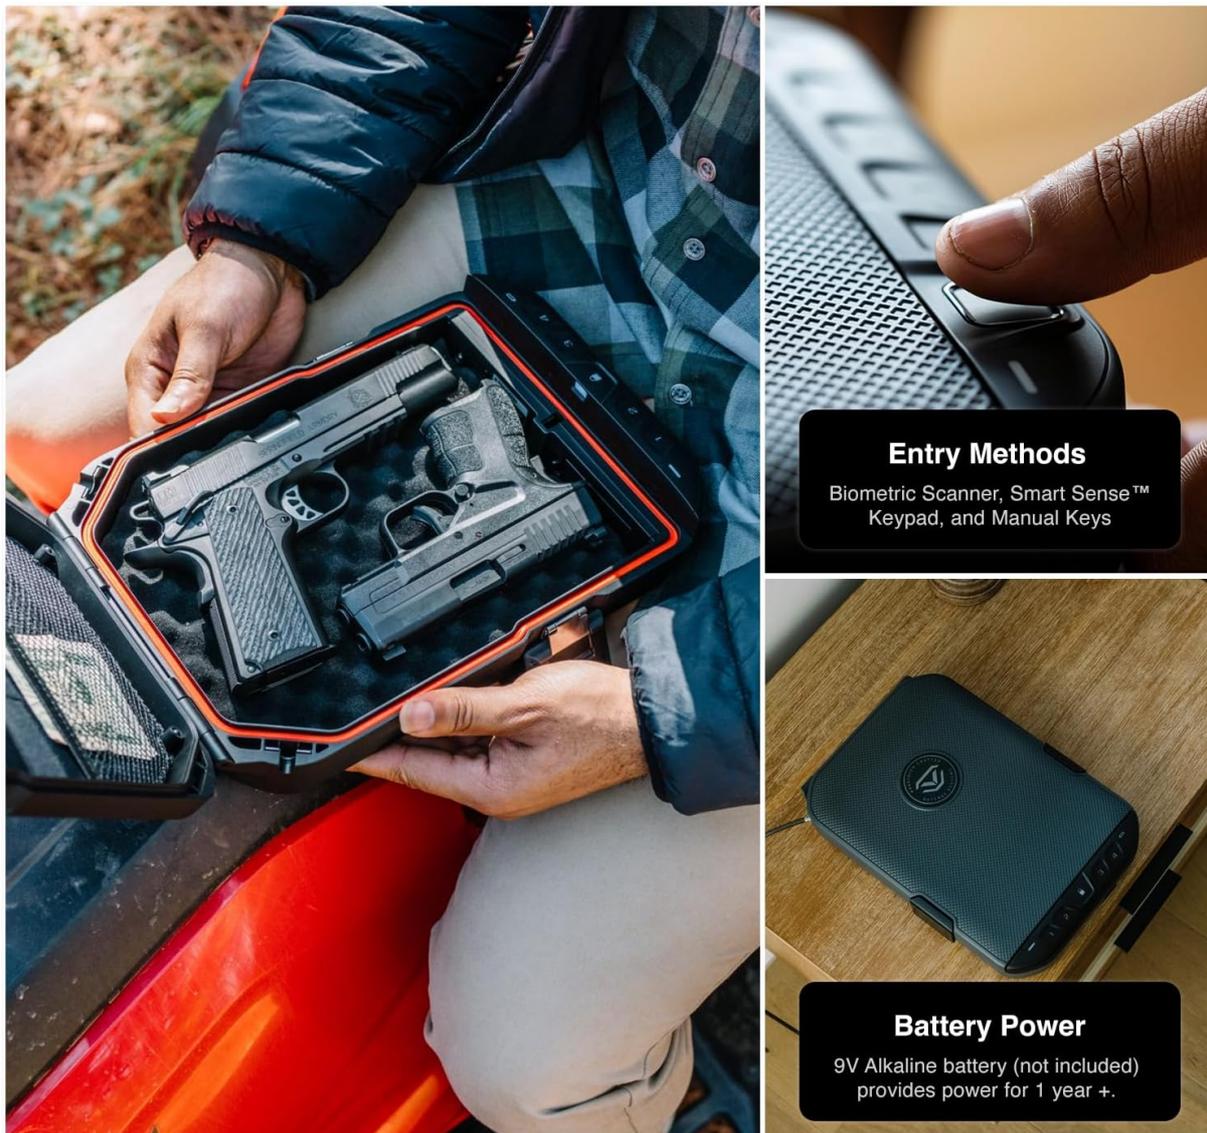

Use one of the programmed access methods (fingerprint, keypad code, or manual key) to unlock the internal locking mechanism. Once unlocked, release the side compression latches to open the case.

4.2 Locking the LifePod 20

To lock the LifePod, close the lid and engage the side compression latches. Then, press and hold the lock pad on the keypad until you hear the internal locking mechanism engage.

4.3 Interior LED Light

The LifePod 20 features a convenient interior LED light that illuminates when the case is opened, aiding visibility in low-light conditions.

LifePod 20: Max handgun length is 9.625" and interior dimensions are 9.625" L x 7.25" W x 2.125" H

5. FEATURES

- **Advanced Non-Metal T3™ Polymer Construction:** Engineered to be lightweight with superior

strength and drop-tested for rugged durability.

- **Weather Resistant Design:** Side compression latches and an inner rubber gasket seal off the interior from environmental factors, making it water resistant, airtight, dustproof, and capable of floating.
- **TSA Compliant:** Meets Transportation Security Administration guidelines for firearm travel.
- **Spacious Interior:** Interior dimensions of 9.625" L x 7.25" W x 2.125" H, capable of storing a full-size handgun up to 9.25" long.
- **Removable Interior Tray:** Provides an extra layer of storage and features slots for attaching belongings and EDC gear.
- **Lid Organizer:** Includes card slots, mesh pockets, and a built-in Apple AirTag pocket (AirTag not included).

6. CARE AND MAINTENANCE

To ensure the longevity and optimal performance of your LifePod 20, follow these general care guidelines:

- Wipe the exterior with a soft, damp cloth. Avoid abrasive cleaners.
- Periodically check the rubber gasket for any signs of wear or damage to maintain its weatherproof seal.
- Replace the 9V battery annually or when the low battery indicator appears.
- Keep the biometric sensor and keypad clean and free of debris for accurate operation.

7. TROUBLESHOOTING

If you encounter issues with your LifePod 20, consider the following:

- **Case not opening:** Ensure the battery is not depleted. Use the manual keys or the micro-USB port for external power if needed.
- **Fingerprint scanner not recognizing:** Clean the sensor and ensure your finger is dry and properly placed. Re-enroll fingerprints if necessary.
- **Keypad not responding:** Check battery level. Ensure buttons are pressed firmly.
- **Loss of weatherproof seal:** Inspect the rubber gasket for damage or misalignment.

For further assistance, refer to the comprehensive troubleshooting section in the full product manual or contact VAULTEK customer support.
