

## DCOLOR U8 HDMI TV Stick

# DCOLOR U8 HDMI TV Stick DVB-T2 HD Receiver User Manual

Model: **U8 HDMI TV Stick** | Brand: **DCOLOR**

---

## 1. INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your DCOLOR U8 HDMI TV Stick DVB-T2 HD Receiver. This device allows you to receive DVB-T2/DVB-C digital terrestrial and cable channels in Full HD 1080P, supporting H.265 HEVC 10-bit and Dolby Audio. It also features PVR recording and multimedia playback via USB.

Please read this manual carefully before using the product to ensure proper functionality and to maximize your viewing experience.

## 2. PRODUCT OVERVIEW

### 2.1 Key Features

- **Plug and Play:** Compatible with all TV systems featuring an HDMI socket. Powered by TV USB port for a tidy setup.
- **Full HD 1080P:** Supports HEVC H.265 10-bit for DVB-T2/DVB-C HD channels.
- **PVR Record & Playback:** Connect a USB 2.0/3.0 (FAT32) disk to record TV shows and play back various multimedia formats (MP3, JPEG, BMP, AVI, DivX, VOB, MKV, AC3, etc.).
- **Dolby Audio Support:** Enjoy enhanced audio for a cinematic experience.
- **2-in-1 Programmable Remote Control:** Control both the receiver and your TV.

## 2.3 Device Components

### What You Get

You need 2 AAA batteries (not included) for DVB remote control

Box x1

IR Receiver x1

HDMI Cable X1

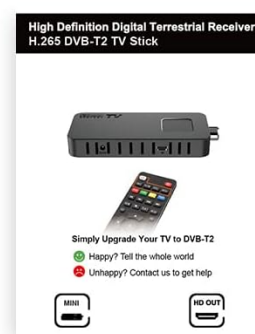

USB to DC Cable x1

DVB Stick x1

2in1 Remote Control x1

User's manual x1

Figure 3: DVB-T2 HD Receiver Ports and Connections

1. **HDMI Connection:** 1080P Full HD output to your TV or projector.
2. **USB Port:** For storage devices (PVR) or USB WiFi Dongle (MT7601).
3. **DVB-T2/C Tuner (ANT IN):** Connect your terrestrial or cable antenna.
4. **DC 5V Power Input:** Power the device via TV USB port or a USB 5V wall adapter.
5. **IR Input:** Connect the infrared sensor receiver for remote control.

### 3. SETUP INSTRUCTIONS

Follow these steps to set up your DCOLOR U8 HDMI TV Stick:

1. **Connect to TV HDMI Port:** Plug the DVB-T2 HD Receiver directly into an available HDMI port on your television. The included HDMI cable can be used if direct connection is not feasible or if an extension is needed.
2. **Connect Power:** Connect the USB to DC power cable to the receiver's DC 5V input. Plug the USB end into a TV USB port (5V, 1A minimum recommended) or a USB 5V wall adapter (not included).
3. **Connect IR Receiver:** Plug the mini USB infrared sensor receiver into the IR input port on the DVB-T2 HD Receiver. Position the IR sensor in a location where it has a clear line of sight to your remote control.
4. **Connect Antenna:** Connect your DVB-T2/C antenna to the ANT IN port on the receiver. For optimal reception, ensure you are using a suitable antenna for your region.

## 4. OPERATING INSTRUCTIONS

### 4.1 Initial Power On and Channel Scan

After connecting all components and powering on your TV, switch your TV's input source to the HDMI port where the DVB-T2 HD Receiver is connected. The device will typically boot up and initiate an automatic channel scan upon first use. This process may take a few minutes. Ensure your antenna is properly connected for successful channel detection.

### 4.2 Remote Control Functions

The included 2-in-1 remote control allows you to operate both the receiver and your TV. Insert 2 AAA batteries (not included) into the remote control.

Figure 7: Remote Control Layout and Functions

**Programmable TV Buttons:** The top section of the remote (POWER, TV/AV, VOL-, VOL+) can be programmed to control your TV. Refer to the manual's specific section on remote programming for detailed steps.

Figure 8: Programmable TV Control Buttons

- **POWER:** Turns the receiver on/off.
- **CH+/CH-:** Changes channels.
- **VOL+/VOL-:** Adjusts volume.
- **OK:** Confirms selections in menus or displays channel information.
- **MENU:** Accesses the main menu for settings and features.
- **EXIT:** Exits current menu or screen.
- **EPG:** Displays the Electronic Program Guide (if available).
- **PVR:** Initiates recording (with USB storage connected).
- **USB Multimedia:** Use the USB port for playing media files.

### 4.3 PVR Recording and Multimedia Playback

To use the PVR function or play multimedia files, connect a USB 2.0 or 3.0 storage device (formatted to FAT32) to the USB port on the receiver. You can then access recording options via the remote's PVR button or navigate to the multimedia player through the main menu.

### 4.4 Dolby Audio Experience

The receiver supports Dolby Audio, providing enhanced sound quality for your viewing experience. Ensure your TV's audio settings are configured to output Dolby Digital if supported.

## 5. MAINTENANCE

To ensure the longevity and optimal performance of your DCOLOR U8 HDMI TV Stick, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to clean the device. Do not use liquid cleaners or abrasive materials.
- **Ventilation:** Ensure the device has adequate ventilation. Do not cover the ventilation slots.
- **Power Supply:** Always use the recommended 5V, 1A (or higher) power supply. Inadequate power can lead to operational issues.
- **Software Updates:** While not frequently required, check the manufacturer's website or contact support for any available firmware updates that may improve performance or add features.

## 6. TROUBLESHOOTING

If you encounter issues with your DCOLOR U8 HDMI TV Stick, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Device displays "booting" continuously.	Insufficient power supply. Older TV USB ports (USB1) may only provide 500mA, while the receiver requires at least 1A.	Connect the receiver to a USB 5V wall adapter (e.g., a smartphone charger) that provides at least 1 Ampere.
No signal or "No Channel" message.	Antenna not connected, poor antenna signal, or incorrect input source on TV.	Ensure the antenna is securely connected. Check antenna positioning. Verify your TV is on the correct HDMI input. Perform a channel scan.
Channels disappear or cannot be found.	Signal fluctuations or an issue with the channel list.	Perform a new channel scan. If the issue persists, try a factory reset and then rescan.
Remote control not responding.	Batteries are dead or incorrectly inserted, IR sensor blocked, or remote not paired/programmed.	Replace batteries. Ensure the IR sensor has a clear line of sight to the remote. Check remote programming for TV control functions.
No audio or poor audio quality.	TV audio settings, incorrect audio output selected, or cable issue.	Check TV volume and mute settings. Ensure the correct audio output is selected on the receiver (if applicable). Verify HDMI cable connection.

If the problem persists after trying these solutions, please contact customer support.

## 7. SPECIFICATIONS

Feature	Detail
Brand	DCOLOR
Model Number	U8 HDMI TV Stick
Connectivity Technology	HDMI, USB
Connector Type	HDMI, USB 3.0
Total HDMI Ports	1
Weight	200 Grams
Power Consumption	5 Watts
Channels	4
Video Resolution	Full HD 1080P
Video Codec Support	H.265 HEVC 10-bit

Feature	Detail
Audio Support	Dolby Audio
PVR Functionality	Yes, via USB 2.0/3.0 (FAT32)
