Medify Air MA-40-UV

Medify MA-40 UV Light Air Purifier Instruction Manual

MODEL: MA-40-UV | BRAND: MEDIFY AIR

INTRODUCTION

The Medify MA-40 UV Light Air Purifier is designed to provide superior air quality by removing airborne particles and odors from your environment. Featuring a True HEPA H14 filter and optional UV light, this unit is effective in spaces up to 1,793 sq ft, targeting common indoor air pollutants such as wildfire smoke, pet dander, pollen, and odors. Its quiet operation and user-friendly controls make it an ideal solution for homes, offices, and other large rooms.

SETUP

Unpacking and Filter Preparation

1. Carefully remove the air purifier from its packaging.
2. Locate the filter compartment, typically on the back or side of the unit.
3. Open the compartment and remove the filter. The filter comes wrapped in plastic for protection during shipping.
4. **Important:** Remove all plastic packaging from the filter before installation. Operating the unit with the plastic wrap on the filter will prevent proper air circulation and filtration.
5. Insert the unwrapped filter back into the compartment, ensuring it is seated correctly.
6. Close the filter compartment cover securely.

Placement

- Place the air purifier on a flat, stable surface.
- Ensure there is adequate space around the air intake and outlet vents for optimal airflow. Avoid placing it directly against walls or furniture.
- Plug the power cord into a standard electrical outlet.

Video: This video provides an overview of the Medify Air purifier, including how to unwrap and install the filter before first use. It demonstrates the ease of access to the filter compartment.

OPERATING INSTRUCTIONS

Control Panel Overview

The Medify MA-40 features a sleek, touch-sensitive control panel located on the top of the unit. All functions are easily accessible with a gentle touch.

UV light for an added layer of protection

Image: A detailed view of the Medify MA-40's control panel, illustrating the touch buttons for power, timer, child lock, fan speed, and ionizer functions.

Functions

- **Power Button:** Press to turn the unit ON or OFF.
- **Speed Settings:** Cycle through various fan speeds (Sleep, Low, Medium, High) to adjust airflow and noise level.
- **Timer:** Set the unit to operate for a specific duration (e.g., 1, 2, 4, or 8 hours) before automatically shutting off.
- **Child Lock:** Activate this feature to disable the control panel, preventing accidental changes by children or pets. Press and hold the child lock button for 3 seconds to activate/deactivate.
- **Ionizer:** Turn the ionizer function ON or OFF. The ionizer helps to further purify the air by releasing negative ions.
- **UV Light:** The UV light function can be toggled on or off to provide an additional layer of air purification.

MAINTENANCE

Filter Replacement

The Medify MA-40 uses a True HEPA H14 filter that lasts approximately 3,000 hours or 4-5 months, depending on usage and air quality. The unit features a filter indicator light that will illuminate when it's time to replace the filter.

1. Turn off and unplug the air purifier.
2. Locate the filter compartment cover (usually on the back or side) and open it.
3. Remove the old filter by pulling on the designated tabs.
4. Dispose of the old filter responsibly.
5. Unwrap the new replacement filter (Model: B07MTQFFNT) from its plastic packaging.
6. Insert the new filter into the compartment, ensuring it fits snugly.
7. Close the filter compartment cover.
8. Plug in the unit and press the reset button for the filter indicator (refer to your control panel for specific instructions, often a long press on the filter icon).

TROUBLESHOOTING

- **Unit Not Turning On:** Ensure the power cord is securely plugged into a working outlet. Check if the child lock is activated.
- **Reduced Airflow:** Check if the filter is clogged and needs replacement. Ensure no obstructions are blocking the air intake or outlet vents.
- **Unusual Noise:** Verify that the filter is correctly installed and the unit is on a stable surface. If the noise persists, contact customer support.
- **Odor Persists:** Ensure the filter is clean and properly installed. The ionizer function can be used for additional odor reduction.

If you encounter any issues not listed here, please refer to the full user manual or contact Medify Air customer support for assistance.
