Ontheone DH-JH01

Ontheone DH-JH01 HEPA Replacement Filter User Manual

Model: DH-JH01 | Brand: Ontheone

1. PRODUCT OVERVIEW

The Ontheone DH-JH01 HEPA Replacement Filter is designed to maintain optimal air quality in your home or office. This 3-in-1 filtration system effectively captures various airborne particles, ensuring cleaner and fresher air.

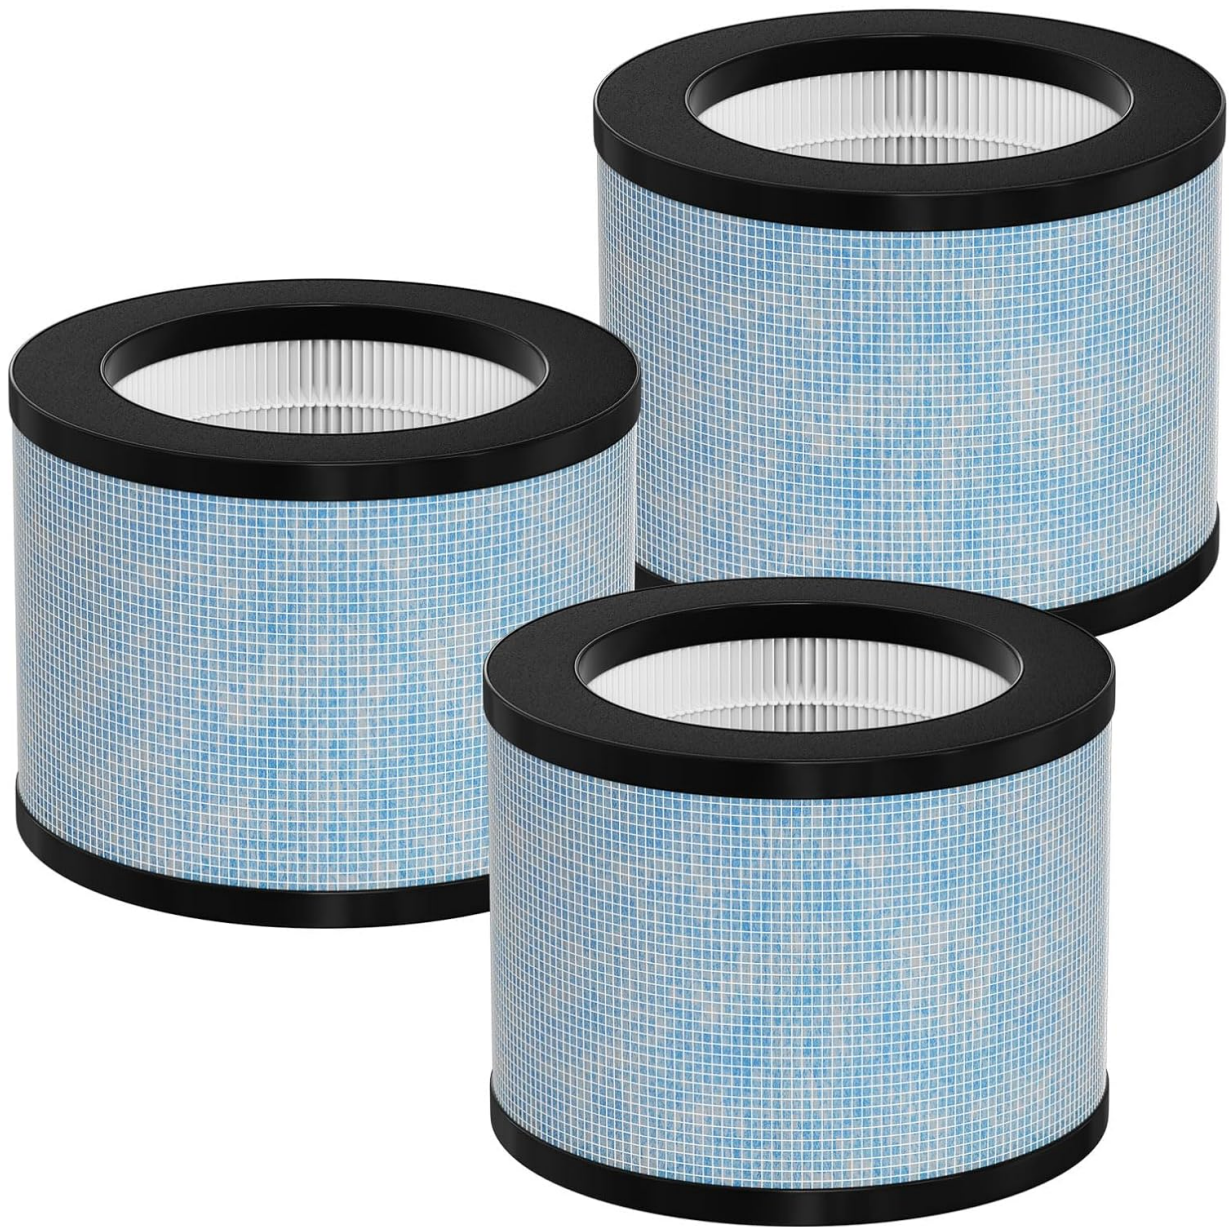

Image: Three Ontheone DH-JH01 HEPA replacement filters, showcasing their design and quantity in the pack.

2. KEY FEATURES AND FILTRATION SYSTEM

This filter incorporates a comprehensive 3-in-1 filtration process to purify the air:

- **Pre-filter:** Captures larger particles such as dust, hairs, and pet fur.
- **HEPA Filter:** Filters 99.97% of airborne particles, including smoke, dust, pet dander, and pollen.
- **Blue Filter:** Provides an additional layer to block large particles.

3-IN-1 360°MULTI-LAYER DEFFENSE

4. INSTALLATION AND REPLACEMENT

The EPI081 HEPA filter is designed for easy replacement without the need for special tools. Follow your air purifier's specific instructions for accessing the filter compartment.

1. Ensure the air purifier is turned off and unplugged from the power outlet.
2. Locate the filter compartment, typically at the bottom or back of the unit.
3. Open the compartment cover.
4. Remove the old filter. Dispose of it properly.
5. Unpack the new Ontheone DH-JH01 filter from its protective packaging.
6. Insert the new filter into the compartment, ensuring it is seated correctly.
7. Close the compartment cover securely.
8. Plug in and turn on your air purifier.

It is recommended to replace the filter every 4-6 months, or approximately every 2000 hours of use, depending on usage frequency and environmental air quality.

5. OPERATING CONSIDERATIONS

Once installed, the filter works continuously with your air purifier to clean the air. For optimal performance, ensure your air purifier is placed in an area with good air circulation and away from obstructions.

Image: Filters shown in a home setting, emphasizing their function in removing various airborne pollutants like dust, pet dander, and odors.

6. MAINTENANCE

Regular replacement of your filter is crucial for maintaining the efficiency of your air purifier and ensuring continuous clean air. The recommended replacement interval is every 4-6 months. Do not wash or reuse the filter, as this can damage the filtration media and reduce its effectiveness.

7. TROUBLESHOOTING

Filter Replacement Indicator Light

Some air purifiers have an indicator light that signals when the filter needs to be replaced. After replacing the filter, you may need to reset this indicator light. The reset procedure varies by air purifier model, but

commonly involves:

- Pressing and holding the power button for 3-5 seconds until the light blinks and turns blue (or off).
- Alternatively, pressing and holding a dedicated UV/light button for 3-5 seconds.

Refer to your specific air purifier's user manual for precise instructions on resetting the filter indicator light.

8. PRODUCT SPECIFICATIONS

Attribute	Detail
Brand Name	Ontheone
Model Info	DH-JH01
Item Weight	15.5 ounces
Package Dimensions	11.26 x 5.51 x 5.47 inches
